

CHINESE PROPOSE YELLOW ENTENTE

General Says Japan Is Friend and West Is to Blame for Split.

SUGGESTS ARMY DRILL

Agitators Who Oppose Tokio Government Will Be Shot, He Declares.

Special Cable Despatch to Sun from the London Times Service.

Copyright, 1919, all rights reserved. Peking, Dec. 2.—Gen. Ma Li Ying, Chinese commander of the Fourth Division of the Army of Participation in Shantung Province, in a speech to Tsinaufu students urged that China would benefit most by friendship with Japan. He accused the Western Powers of draining China for their own profit, saying:

"It is the Westerners who have fomented the Japanese boycott, because they think if Japanese goods are driven out the Western goods will take their place and China's money still will go into their own pockets. Don't you think it better that our money should go to Japan, rather than to Westerners? The refusal to sign the treaty hurts China and boycotting Japanese goods ruins Japan, and these are just the results these poisonous Westerners hope to attain. Remember that China and Japan are adjacent countries and are as closely connected as the lips and the teeth. If the lips are destroyed the teeth are laid bare, so if you wish to save China you must first protect Japan. If China and Japan were united into one we should be powerful enough to overthrow the Westerners, which would be a great advantage.

"In life there are two things of prime importance, first the rice bowl and secondly the physical drill. China has not yet perished, but her people are poor to the point of death. The savages of Formosa exercise their bodies and acquire such energy that though their nation has perished the Japanese are quite unable to control them. When our system of physical drill has spread all over China it will be easy to destroy the Westerners.

"The Westerners are like tigers and Japan is like the wolf, while China is like the sheep, which must be either devoured by the tiger or gnawed by the wolf. We are akin to Japan in race and language and only a narrow sea divides us. We have sent students to Japan to learn their methods, but surely the better way is to invite the Japanese to come over here and manage our affairs so that we can lead peaceful, happy lives. Thus you see it is much better to perish by Japan rather than to perish by the Western nations.

"Your minds have been drugged and poisoned by Westerners, but henceforth if any merchant refuses to buy Japanese goods he will be punished as a robber or a traitor, and if any one distributes handbills or makes speeches or convenes meetings or posts up caricatures he will be punished as one who, by spreading false rumors, disturbs the public peace. Any one who is caught offending in any of these ways will be arrested and summarily shot. If you think this is a mere empty threat, just try and see."

The equipment of this anti-Western General's divisions is directly and its upkeep indirectly provided for by Japan.

STOPS BISMARCK MEMOIRS.

Stuttgart Court Prohibits Publication of Third Volume.

COPENHAGEN, Dec. 2.—It is reported that the Stuttgart Court, on the application of representatives of the former German Emperor, has provisionally prohibited publication of the third volume of the memoirs of Prince Otto von Bismarck, the "Festschloesser," on the ground that it contains a number of letters written by the deposed monarch. The proceedings will soon be carried to a higher court in Berlin.

A despatch from Berlin stated that the heirs of Bismarck intended to take legal steps to halt publication of third volume of his memoirs, alleging that the publishers planned to violate Bismarck's provision that the volume be not curtailed in any way, by omitting letters from the former Emperor, because the latter had not given permission for their publication.

EARTHQUAKE IN ASIA MINOR.

Many Killed and Seven Villages Destroyed, Says Report.

LONDON, Dec. 2.—A serious earthquake occurred in Western Asia Minor on Thursday, seven villages in the districts of Soma and Balikesir being destroyed. Many persons were killed and injured. It is stated:

Soma and Balikesir are cities north of Smyrna and about thirty miles from the Mediterranean coast. Soma is situated near a coal field, while Balikesir, which is about thirty-five miles further north, stands in the centre of a fertile plain. French troops recently occupied part of the districts near Smyrna.

STRIKE OFF PARIS PAPERS.

Tabloid Plan Ends—Now Publish From Own Plants.

PARIS, Dec. 2.—Paris newspapers, which during the printers' strike combined to issue the Presse de Paris, were published to-day from their own plants. Some of them declare they could have appeared notwithstanding the strike, but joined with other journals to show the solidarity of the press and to safeguard its moral interests.

The strike will not change the democratic attitude of newspapers, remarks the Petit Parisien, which says they will continue to "intercede for the just demands of workmen."

To Cure a Cold in One Day Take LAXATIVE BROMO QUININE TABLETS. It stops the Cough and Headache and works off the Cold. E. W. GROVER'S signature on each box. 25c.—J.P.

Look Around in subway or street car and note the kind of people you find reading The Sun. New York's Great Morning Newspaper.

GERMANY'S LOTTERY LOAN GIVES TROUBLE

Time Limit for Subscriptions Extended to Dec. 10.

BERLIN, Dec. 2.—The Government has extended the time limit for subscriptions to the premium loan to December 10, instead of Wednesday, December 3. The Vossische Zeitung says this tends to confirm widespread reports that the loan has been a failure. The loan, which was intended to raise 5,000,000,000 marks, provided for a lottery system as an inducement to subscribers.

LONDON, Dec. 2.—When the House of Commons last night by a majority of 192 defeated the proposition to float premium bonds in order that the Government might raise needed money the cheering that greeted the vote indicated the decision was a popular one. Public opinion, led by the Archbishop of Canterbury and other prominent churchmen and financiers, had expressed itself forcibly during the last two weeks against the bonds.

AUGUST Chamberlain, Chancellor of the Exchequer, confessed that his former advocacy of the bonds was the result of insufficient study of the subject. Sir Robert Kindersley, chairman of the War Savings Committee, which facilitates the purchase of War Savings cer-

tificates by the poorer people of the community, declared that premium bonds would destroy the habit of investing in war certificates, which had brought the Government £1,500,000 weekly, and tend to discourage thrift among the people.

FREE IN WOOD ALCOHOL CASE.

New Yorker Clear After Woman Dies and Another is Blinded.

BALTIMORE, Dec. 2.—Wood alcohol, water and enough genuine liquor to make it palatable is what the chemical analysis shows was in the bottle from which Miss Lucille Sharp and Mrs. Catherine Bristol of Philadelphia drank, supposing it to be brandy, in the apartments of John Kelley, a former manufacturer of cereals, here, about two weeks ago. Miss Sharp died soon afterward. Mrs. Bristol may recover, it was said to-day, but her physicians fear she will be permanently blind.

Kelley and Ali Osman, a Turk, of New York, were arrested, but Osman was released yesterday. Kelley is out on bail for a further hearing, pending a chemical analysis.

Bomb Imperils 300 in Frisco.

SAN FRANCISCO, Dec. 2.—A bomb was found in the employment offices of the San Francisco Waterfront Employers Association just before it was timed to explode. It was announced to-day by the police. About 300 persons were in the building at the time.
