ONE of Cervera's captured officers says that his information is that Dewey's victory was unknown to the Spaniards until he was taken prisoner.

COMMODORE SCHLEY is commended by an acting rear admiral, whose actual rank is only that of a captain.

ONE HUNDRED AND FORTY-TWO vessels in all are known to have been wrecked on Sable Island.

EVERY one surely must admire Capt. Phillips, of the Texas. After the battle was ended he called all hands to the quarter deck, and, with bared head, thanked God for the almost bloodless victory.

NAVAL constructors have been busy deriving deductions from the sea fight off Santiago.

In the destruction of the Spanish torpedo destroyers, Pluton and Furor, their force was obviously superior to that of the Gloucester.

THERE was great rejoicing in Spain when Cervera got into the harbor of Santiago and there was great rejoicing in Spain when it was reported that Cervera had escaped from the harbor of Santiago.

It does not make good news any better, but the fact that a single dispatch from Santiago the other day cost \$21,000 will convey to newspaper readers an impression of the unprecedented liberality of the arrangements which supply the earliest and best accounts of every striking event in the war.

MEN who make a business of war are watching the performances of the Vesuvius with great interest.

A SUGGESTION worthy of attention here as well as in the west has been made to the relief societies of Missouri by a volunteer from that state.

DEMOCRATS DIVIDED.

Their Policy of Opposition Becomes Apparent Upon All Occasions.

In the face of the strong and patriotic national sentiment which has been led by the present administration the democratic party is confused and doubtful.

A conspicuous illustration is the democratic minority in the house of representatives. The democrats in the house decided to oppose Hawaiian annexation.

The democratic state conventions now being held add their testimony to the hopeless division in the party.

The more up-to-date members of the democratic party realize that the mill will never grind with the water that has past, and they are ready to discuss war measures and the new questions that are teaching the people that we are on a world that is round and can be circumnavigated.

It is the old spirit that objected to the war measures of thirty-odd years ago, and objected to the constitutional and other reconstruction that grew out of those war measures.

But this division in the democratic party emphasizes both the duty and the opportunity of republicans.

And meanwhile, unable to catch up to the American triumphal car, in which the republican party is riding, the democrats turn to fighting one another in the road.—Troy Times.

Unpardonable. "Want me to go to prayer-meetin' with you, do you, Marier?" said Farmer Jaxon.

THE DEMOCRATS AND WAR.

Political Malcontents Who Obstruct National Progress for Partisan Purposes.

Every democrat in congress voted for the appropriation of \$50,000,000 to prepare the army and the navy for the war with Spain then imminent.

This is not the accusation of a political opponent, on the alert for something to condemn; nor is it the accusation of a newspaper dependent upon press reports for its information.

"When victory comes to him and Spain is humbled in the dust, when America's possessions are enriched by the addition of Hawaii, the Philippines, Puerto Rico, and perhaps the Canaries, Mr. McKinley can truthfully say: 'This is my work—mine and the republican party's.'"

It remains to be seen whether the party in the senate will heed these timely words of warning. The people, irrespective of party, are patriotic and will show their patriotism at the polls.

POLITICAL DRIFT. Currency reform in congress appears to have been put away for the summer in camphor along with other unseasonable fabrics.

Spanish greenbacks are now worth 16 cents on the dollar in Havana. It is the same kind of trash that the populists wanted us to issue instead of bonds.

The gold democrats of Connecticut expect to take charge of the party affairs in that state before many months.

The Tennessee democrats at their state convention endorsed the money plan of the Chicago platform.

When the United States is certain of a favorable balance of trade, matter if there is not an active demand in Europe for American bread stuffs, there will not be any demand for gold to pay balances due abroad.

A NEW FOE TO FIGHT.

Yellow Fever Appears Among the Troops Under Gen. Shafter's Command—Trace Extended for a Day.

Washington, July 14.—Secretary Alger received the following dispatch yesterday from Gen. Miles: "Playa del Este, July 13.—At a meeting between the lines at which Gen. Shafter, Gen. Wheeler and Spanish Gen. Toral were present, the latter claimed that he is unable to act without authority of his government, but has received authority to withdraw and surrender harbor forts, munitions of war and eastern portion of Cuba."

On the bulletin giving Miles' dispatch was written underneath the dispatch the following: "Permission to withdraw was declined by war department."

The war department has made public the following statement concerning the conditions in the hospitals near Santiago: "On the 11th of July a telegram was received from Lieut. Col. Pope, chief surgeon of Shafter's army, informing the surgeon general that there were 14 cases of yellow fever in the field hospital which had been established for the care of such cases."

While the long expected fall of Santiago did not take place yesterday it is evident that the crisis has been reached. Within the next 24 hours the city will either surrender or receive such a baptism of fire as seldom falls to the lot of a besieged town.

A few days ago it was stated that the president would insist upon unconditional surrender, but it appears that condition has been modified as indicated by Gen. Miles. This was done from a desire to avoid useless bloodshed.

GERMANS INTERFERED. One of Their Men-of-War Tries to Take a Hand Against Philippine Insurgents—Sneaked Away When American Cruisers Appeared.

Manila, via Hong Kong, July 14.—The insurgents on July 6 reported that the German gunboat Irene, in Subic bay, refused to permit them to attack the Spaniards on Grand Island.

Gov. Gen. Augustin issued a proclamation promising to grant autonomy to the islands and offering the insurgents inducements to join the Spanish forces.

On July 6 the insurgents made vigorous attacks on the Spaniards from all sides, with little result. They shelled the Spanish blockhouses and trenches north of Manila and captured the Spanish guns at Santa Mesa.

Washington, July 14.—The navy department has received the following dispatch from Admiral Dewey: "Aguinaldo informs me his troops have taken all of Subic bay except Isla Grand, which he was prevented from taking by the German man-of-war Irene."

St. Thomas, W. I., July 14.—In the house of assembly of Dominica, in the Leeward group of the British West Indies, a resolution was introduced in favor of accepting the offer of Joseph Chamberlain, colonial secretary, to extend imperial assistance to Dominica on condition that the island should become a crown colony.

SURRENDERED! "I'm So Tired!"

Spaniards in Santiago Give Up the Struggle.

A MAGNIFICENT VICTORY.

Dons Agree to Evacuate All of Eastern Cuba.

PRISONERS NUMBER 12,000.

All of the Captives Will be Sent Back to Spain—War Department Will Ask Steamship Companies to Bid for Transporting the Troops.

Washington, July 15.—"Santiago surrendered at three" was the significant official announcement that reached the president at 3:06 Thursday afternoon.

The adjutant general received the following from Gen. Miles: "Adjutant General, Washington: Have just returned from interview with Gen. Toral. He agrees to surrender upon the basis of being returned to Spain."

The war department received the following dispatch from Gen. Miles, written apparently before the final surrender of Santiago at 3 o'clock: "Before Santiago, July 15.—Gen. Toral formally surrendered the troops of his army—troops and division of Santiago—on the terms and understanding that his troops shall be returned to Spain."

The territory surrendered by Gen. Toral includes a population exceeding 125,000 when the country is in its normal state. It includes the important cities of Santiago, Guanantamo, Sagua de Panama and Baracoa.

The plan of the war department for returning the surrendered army of Gen. Toral to Spain will not necessitate the use of American vessels.

Identified the Bonds. Wilmington, Del., July 15.—Senator Kenney, of Delaware, yesterday faced the jury in the fourth day of his trial for aiding William N. Boggs, the defaulting teller of the First National Bank of Dover.

Six Persons Killed by an Explosion. Buffalo, N. Y., July 15.—By the explosion of a boiler in the Niagara starch works the building was wrecked, six persons killed and 26 injured.
