Court Business

Patrick Breslin, of Summit Hill, who was convicted of malicious mischief, was given his liberty on furnishing bail to appear at the next term of Court...

Commonwealth vs. John Davis, surcharge assault and battery, Mrs. Sarah Jones, prosecutrix. The parties in this case are from Summit Hill. When it was called Davis was not present and his bail was declared forfeited.

The grand jury found a true bill against Ella Behler, of near Trachville, who is charged with concealing the death of her child. The young woman is not within the jurisdiction of the Court, hence the case is continued to some future term.

The bill of indictment against Daniel McGillaway, one of the young men charged with breaking into A. L. Campbell's jewelry store in Lansford, last spring, was ignored by the grand jury and McGillaway, who has been in jail ever since, was released from confinement. A true bill was found against the other two members of the gang—John McHugh and Frank Gallagher. They skipped at the time and their present whereabouts are not known.

Columbus day at station. Friday, Oct. 21, Columbus Day, will long be remembered in Stationing, where arrangements have been made to celebrate the day with a monster parade under the auspices of the Knights of the Golden Eagle, assisted by other organizations, Red Men, Knights of Pythias, Odd Fellows, Grand Army of the Republic, and the military. The children of the public schools will take a prominent part in the celebration. The committee of arrangements has completed the preparation and without a doubt the parade will be one of the largest ever held in the valley. Commanderies and castles will be present from all parts of the state—Pittsburg, Philadelphia, Reading, Allentown, Bethlehem and Easton. The famous Great Western Band, of Pittsburg, and the Germania Band, of Reading, will be present. The hotels have perfected their arrangements to entertain the large crowds that will be present. O. H. Keyser, prominent business man, has secured the large vacant lot on Main street, where will erect a large booth where refreshments of all kinds can be had. Chairman James L. Foote and aids feel confident that their efforts will be rewarded in making this one of the most successful events ever held in the history of the town.

The heading company worked Engineer William Freeman, of this city, day and night for eleven days during which time he never touched a bed and only had such sleep as he could catch while his torso was lying some six inches from the ground. The result of this was that Engineer Freeman had a wreck. For this he is discharged. Mr. Freeman is one of our best citizens, he is an honest and intelligent man, and his many friends sympathize with him in his misfortune. The company forced upon him. Eleven days and nights without a reasonable amount of sleep is cruelty or worse it is brutality. A man who works day and night for such a length of time can not be held responsible, and the company by whom he was employed should look at it that Freeman was a faithful, honest engineer and put him back at an increase of wages. He deserves it.

A PRETTY WEDDING. A correspondence from Beaver Meadow to the Hazleton Sentinel says: The Hungarian wedding, which took place at the new mill, near Aenderlin, on Sunday, reached a crisis Monday afternoon when the guests indulged in a lively skirmish. The battle was a fierce one and lasted for fully an hour. No person was killed but the number of battered and bruised heads are many. The Aenderlin doctors have been here since dressing wounded scalps.

Mr. and Mrs. Howard DeFenderler left for Weathersville on Thursday where they will in the future reside. Mr. DeFenderler is a well known member of the popular Gilbert House formerly conducted by J. P. Semel, who moves back to this town with his family.

Just so soon as the necessary books and blanks arrive it will be compulsory for physicians and ministers to report all births and marriages as well as the former must also report to the secretary of the Board of Health all contagious diseases that appear in the town. This is a most excellent plan.

Once Waterford and family, for some years past, the corner of Second and Alum streets, this week moved to South Eastern. They have the well wishes of neighbors and friends in their new home. They were accompanied by Mrs. Ellen Billig who will make her home with them.

The Columbus Day celebration by the pupils of our public schools gives every promise of being a very interesting and instructive event in our local history. The committee have succeeded in having the local loggers participate in the exercises. Among them will be Lehigh County, Col. J. O. U. A. M. Washington Camp, 345, T. O. A. of A. J. W. Camp, 28, of W. and John D. Bortolotto Post 424, O. A. R. The parade will form at 9 o'clock at the public school house.

STATE MATTERS IN BRIEF.

TO THE PATRONS OF OUR PUBLIC SCHOOLS: We affirm our devotion to the Public School System of this Country. We believe in compulsory education. One, and the fundamental plank in the platform of principles of the J. O. U. A. M., that outweighs all, everything else, is the section of our principles as above quoted. Our country is the greatest arena God ever prepared for His children and the public school system as established on the basis of intelligence and virtue is and always will be the foundation of a free people and a happy and prosperous nation. The free public schools practically control the future of our country. The growth and prosperity which has characterized the first century of our national existence is the admiration of the world. For this the free public schools have credit. For the future the watershed of the hour must be the growth of the public school system. It is not elevated with regard to color or other circumstance. There must be no political or religious feelings to dominate the good work. Virtue, Liberty and Patriotism must be instilled into the minds and hearts of the people. On this depends the safety of our nation and the happiness of future generations. It is not enough simply to learn the lessons; Virtue, Liberty and Patriotism must be kept alive by instruction in the deeds of valor and glory achieved through the early struggles that made us a free country. Every victory won by our nation has been a victory for our public schools; they have been the nursery of patriots, soldiers and statesmen. They will live for ever because a free people appreciate them and recognize the dependency of the nation on an educated and patriotic constituency. We have this briefly referred to the public school to draw the attention of parents to the great necessity of having their children attend our public schools regularly and faithfully. There is need of watchfulness here! There is need of strict measures. The many boys found running the streets is a threatening evil and it is the parent who must look after them. Their future depends on education! They should be kept in the public school. A father or mother who has a paternal feeling for their offspring will give them this necessary attention. The J. O. U. A. M., the guardian of the public school and recognizing the necessity of parents looking to their children's interests more closely is what prompts a public reference to this important question. We pray that the parents will awaken to the importance of this brief reference and give strict attention to having their children attend school regularly. There is nothing further that we can say, at least we so believe, for we feel that every mother and every father will be anxious to shape the future of their offspring by a careful education such as is afforded by our public schools. Very truly, W. C. WATSON, Chairman. J. O. U. A. M. COMMITTEE. CHAS. A. WATSON, Chairman. U. S. M. WATSON, Secretary. Committee Lehigh County, J. O. U. A. M. Lehigh, Oct. 21, 1892.

The free public schools practically control the future of our country. The growth and prosperity which has characterized the first century of our national existence is the admiration of the world. For this the free public schools have credit. For the future the watershed of the hour must be the growth of the public school system. It is not elevated with regard to color or other circumstance. There must be no political or religious feelings to dominate the good work. Virtue, Liberty and Patriotism must be instilled into the minds and hearts of the people. On this depends the safety of our nation and the happiness of future generations. It is not enough simply to learn the lessons; Virtue, Liberty and Patriotism must be kept alive by instruction in the deeds of valor and glory achieved through the early struggles that made us a free country. Every victory won by our nation has been a victory for our public schools; they have been the nursery of patriots, soldiers and statesmen. They will live for ever because a free people appreciate them and recognize the dependency of the nation on an educated and patriotic constituency. We have this briefly referred to the public school to draw the attention of parents to the great necessity of having their children attend our public schools regularly and faithfully. There is need of watchfulness here! There is need of strict measures. The many boys found running the streets is a threatening evil and it is the parent who must look after them. Their future depends on education! They should be kept in the public school. A father or mother who has a paternal feeling for their offspring will give them this necessary attention. The J. O. U. A. M., the guardian of the public school and recognizing the necessity of parents looking to their children's interests more closely is what prompts a public reference to this important question. We pray that the parents will awaken to the importance of this brief reference and give strict attention to having their children attend school regularly. There is nothing further that we can say, at least we so believe, for we feel that every mother and every father will be anxious to shape the future of their offspring by a careful education such as is afforded by our public schools. Very truly, W. C. WATSON, Chairman. J. O. U. A. M. COMMITTEE. CHAS. A. WATSON, Chairman. U. S. M. WATSON, Secretary. Committee Lehigh County, J. O. U. A. M. Lehigh, Oct. 21, 1892.

TO THE PATRONS OF OUR PUBLIC SCHOOLS: We affirm our devotion to the Public School System of this Country. We believe in compulsory education. One, and the fundamental plank in the platform of principles of the J. O. U. A. M., that outweighs all, everything else, is the section of our principles as above quoted. Our country is the greatest arena God ever prepared for His children and the public school system as established on the basis of intelligence and virtue is and always will be the foundation of a free people and a happy and prosperous nation. The free public schools practically control the future of our country. The growth and prosperity which has characterized the first century of our national existence is the admiration of the world.
