

FORTUNE CUTS STRANGE CAPERS!

One of her Pranks!

A German family, composed of an old man, his wife and a brood of six healthy, and rosy-cheeked children, direct from the "Fatherland," who arrived in Baltimore a few days since, on their way to the "far west," was rubbed the day after their arrival by some strange, unaccounted, of a small leather trunk, containing \$4,327 in Gold, which they had brought safely 2000 miles over a treacherous sea to part company with just as they had nearly reached their destination. The distress consequent upon the realization of their loss can scarcely be imagined. But mark the strange sequel. The father, in passing along Light street, was prompted by his lucky genius to pause for a moment at the window of Messrs. Pyfer & Co., No. 1 Light street, in which a large amount of Gold is displayed to the gaze of the curious, when he yielded to an irresistible yearning to try his luck in some of their magnificent Lotteries, in the hope to make up his loss. He purchased a Package of Tickets in the Maryland Consolidated Lottery, Class No. 125, and our readers may judge his surprise and excessive joy, upon learning after the drawing that he had drawn the Brilliant prize of \$20,000, which he had drawn in this far-famed and truly fortunate lottery from promptly paid him without charging any extra discount, when he went his way rejoicing.—Baltimore paper.

Great Attraction!

STOVES! STOVES!

Improved Hathaway.

THIS great improvement, just got up, we are satisfied stands unequalled for general use, and simplicity of arrangement, by any Cooking Stove yet offered to the public. To be satisfied of this, we think it needs but to be seen. It is a regular Hathaway, of the size now generally in use in this country, with the following improvements, viz: 1st. It is so arranged that a stout Sheet Iron Oven can be put in at the top, back of the fire, [the flame passing under it,] sufficiently large to do ordinary roasting or cooking, and is heated as quick as the fire is cleverly burning; thus avoiding the necessity of heating up the regular oven for ordinary purposes, which oven when heated, requires as much fire to do a small roast as would do a large amount of cooking. Further, the small oven being loose, can be put in or taken out at pleasure with very little trouble. When much cooking is required, it can be kept out, and the stove is then the same as a regular Hathaway.

2d. The Griddles are improved, so that the top is smoother, the wire handles being dispensed, with a loose handle used to lift them off.

3d. The damper is much more convenient, by being placed in the side instead of the back.

4th. The bottom flue is the Laubach, so arranged that the draft is the same as the Hathaway.

5th. B. We warrant this stove in every particular.

We have also on hand a large assortment of other valuable Cooking Stoves, consisting of the Star, two sizes, at \$20 to \$22; Complete Cook, at \$13; and Laubach, two sizes. Also, the Prime, Keystone, and Etna Air-Tight, for wood or coal, at from 16 to 35 dollars.

AIR-TIGHT PARLOR STOVES.—A large assortment, of beautiful patterns.

COAL STOVES.—For parlors, offices, and chambers. A large assortment of handsome styles, from \$25.00 up.

NINE-PLATE STOVE.—From 20 to 28 inches. A heavy 28 inch at \$35.00.

To all who want stoves we would say come and examine our stock.

F. J. HOFFMAN.

JONES' NEW STORE,

LEWISTOWN.

STOCK OF FALL AND WINTER GOODS,

comprising all articles kept generally in the other stores, with the addition of many finer kind of goods not brought before to the place. A list of goods is herewith furnished with the prices, and an examination of this extensive stock is invited before purchases are made elsewhere. At this store goods will continue to be sold at least twenty per cent. lower than can be had elsewhere, this certainly offers great inducements to CASH BUYERS: the saving of so large a per centage even on a small purchase will amount to enough to make it a matter of consideration. There are many who deal in Lewistown in the old fashioned way, by trading, thus giving the store keeper the advantage of high prices, to such I would respectfully ask before making trades with the other stores to call and see my goods and hear the low prices, and I am confident that they will see the advantage of selling their produce and buy goods for cash. In a market like this, if a slight effort is made, all kinds of Country Produce can be disposed of for CASH; it only requires a little independence and determination on the part of the seller, as the home consumption of produce in Lewistown alone is very great, and the necessities of life at whatever price, must be had, and they can be disposed of for cash.

Since I commenced business in this place on the cash system I have sold a large amount of goods, and my business is daily increasing. The public appreciate the advantage of buying for Cash and where business is done for cash only, as there is no risk to run of credit or trade, the goods are sold at a small advance on cost prices; and the city purchases being made for Cash only and with a lengthened experience in business on Market street, Philadelphia, enables the subscriber to buy beyond a doubt lower than other merchants. I am convinced that there are a great many who would like to deal with me and get cheap goods for cash if they only could command cash for their produce, to such I say sell cheap and sell for cash only. Now for the list of goods on hand.

CLOTHS—black, blue, brown, invisible green, and olive, French, German and American, at all prices from \$1 00 to \$6 00 per yard, including a good assortment of Over Coat Cloths. I will not so impose, but sell them as I sell other goods at a very small advance on cost.

LEWISTOWN MILLS.

THE subscriber has taken the Lewistown Mills, and wishes to buy a large quantity of All Kinds of Grain, for which he will pay the CASH, IN FULL, as high as the market will afford, according to its quality. Any person having good Wheat will do well to call and show a sample of it, as he thinks he can afford to give more than any other person in the place, the mill being situated on the creek, where flour can be loaded out of the mill into boats, and all expense of hauling, storing, and shipping saved; besides, the flour is in better order, as the barrels are not injured by hauling and handling. If wheat brings a better price than it will afford to grind, he has the same chance of shipping it as any other, as the mill is the most convenient storehouse in the place, and saves a great deal of time and labor in hoisting by water power. OR, HE WILL RECEIVE ON STORAGE, and forward to Philadelphia or Baltimore, and give the following receipt:

"Received, Lewistown Mills, of A. B. — Wheat, to be kept in store till the first of August, unless disposed of sooner."

When the receipt is given the quality of the wheat will be mentioned in it, so as to prevent any trouble when the owner comes to sell. Any person storing, having four hundred bushels and upwards, and desires it, it will be kept in a garner by itself. Any person taking a receipt, and not selling before, or giving notice to keep it, till after the first of August, it will be carried out to their credit at the market price on that day. If shipped, or sold to any person that does not get it ground in the mill, two cents per bushel storage will be charged. If they give notice, and keep it over after the first of August, the storage will be one-half cent per month, afterwards. The grain will be clear from high water.
