

**PROSPECTUS OF THE
United States Magazine and
DEMOCRATIC REVIEW.**

On the 1st of July, 1837, will be published at Washington, District of Columbia, and delivered simultaneously, in the principal cities of the United States, a new Monthly Magazine, under the above title, devoted to the principles of the Democratic party.

It has long been apparent to many of the reflecting members of the Democratic party of the United States, that a periodical for the advocacy and diffusion of their political principles, similar to those in such active and influential operation in England, is a desideratum, which it was very important to supply—a periodical which should unite with the attractions of a sound and vigorous literature, a political character capable of giving efficient support to the doctrines and measures of the party, now maintained by a large majority of the people.

Discussing the great question of policy before the country, expounding and advocating the Democratic doctrine through the most able pens that the party can furnish in articles of greater length, more condensed force, more elaborate research, and more elevated tone than is possible for the newspaper press, a Magazine of this character becomes an instrument of inappreciable value for the enlightenment and formation of public opinion, and for the support of the principles which it advocates.

By these means, by thus explaining and defending the measures of the great Democratic party, and by always furnishing to the public a clear and powerful commentary upon those complex questions of policy and party which so frequently distract the country, and upon which, imperfectly understood as they often are by friends, and misrepresented and distorted as they never fail to be by political opponents, it is of the utmost importance that the public should be fully and rightfully informed, it is hoped that the periodical in question may be made to exert a beneficial, rational, and lasting influence on the public mind.

Other considerations, which cannot be too highly appreciated, will render the establishment and success of the proposed Magazine of very great importance. In the mighty struggle of antagonist principles which is now going on in society, the Democratic Party of the United States stands committed to the World as the depository and exemplar of those cardinal doctrines of political faith with which the cause of the People in every age and country is identified. Chiefly from the want of a convenient means of concentrating the intellectual energies of its disciples, this party has hitherto been almost wholly unrepresented in the republic of letters, while the views and policy of its opposing creeds are daily advocated, by the ablest and most commanding efforts of genius and learning.

In the UNITED STATES MAGAZINE the attempt will be made to remove this reproach.

The present is the time peculiarly appropriate for the commencement of such an undertaking. The Democratic body of the Union, after a conflict which tested to the uttermost its stability and its principles, have succeeded in retaining possession of the executive administration of the country. In the consequent comparative repose from political strife, the period is auspicious for organizing and calling to its aid a new and powerful ally of its character, interfering with none and co-operating with all.

Co-ordinate with this main design of the United States Magazine, no care nor cost will be spared to render it, in a literary point of view, honorable to the country, and fit to cope in vigor of rivalry with its European competitors. Viewing the English language as the noble heritage and common birthright of all who speak the tongue of Milton and Shakespeare, it will be the uniform object of its conductors to present only the finest productions in the various branches of literature, that can be procured; and to diffuse the benefit of correct models of taste and worthy execution.

In the department of the exclusiveness of party, which is inseparable from the political department of such a work, will have no place. Here we all stand on a neutral ground of equality and reciprocity, where those universal principles of justice to which we are all alike subject will alone be recognized as the common law. Our political principles cannot be compromised, but our common literature it will be our common pride to cherish and extend, with a liberality of feeling unbiassed by partial or minor views.

As the United States Magazine is founded on the broadest basis which the means and influence of the Democratic party in the United States can present, it is intended to render it in every respect a thoroughly NATIONAL WORK, not merely designed for ephemeral interest and attraction, but to continue of permanent historical value. With this view a considerable portion of each number will be appropriated to the following subjects, in addition to the general features referred to above.

A general summary of Political and Domestic Intelligence, digested in the order of the States, comprising all the authentic important facts of the preceding month.

General Literary Intelligence, Domestic and Foreign.

General Scientific Intelligence, including Agricultural Improvements, a notice of all new Patents, &c.

A condensed account of all new works of Internal Improvement throughout the Union, proceeded by a general view of all now in operation or in progress.

Military & Naval News, Promotions, Changes, Movements, &c.

Foreign Intelligence.

Biographical obituary notices of distinguished persons.

After the close of each session of Congress, an extra or an enlarged number will be published, containing a general review and history of its proceedings, a condensed abstract of important official documents, and acts of the session.

Advantage will be taken of the means concentrated in this establishment from all quarters of the Union, to collect and digest such extensive statistical observations on all the most important interests of the country as cannot fail to prove of very great value.

This portion of the work will be separately pagged so as to admit of binding by itself, and will be furnished with a copious index, so that the United States Magazine will also constitute a complete ANNUAL REGISTER, on a scale unattempted before, and of very great importance to all classes, not only as affording a current and combined view from month to month, of the subjects which it will comprise, but also for record and reference through future years; the value of which will increase with the duration of the work.

Although in its political character the United States Magazine addresses its claims of support particularly to the democratic par-

ty, it is hoped that its other features referred to above—independently of the desirable object of becoming acquainted with the doctrines of an opponent thus advocated—will recommend it to a liberal and candid support from all parties, and from the large class of no party.

To promote the popular objects in view, and relying upon the united support of the democratic party, as well as from others, the price of subscription is fixed at the low rate of five dollars per annum: while in mechanical arrangements, and in size, quantity of matter, &c., the United States Magazine will be placed on a par at least with the leading monthlies of England. The whole will form three large octavo volumes each year.

The subscription will be in all cases payable in advance, or (for the first year only) six dollars on the delivery of the third number. The absolute necessity of this rule in such an establishment will be obvious to all.

In return for a remittance of \$50, eleven copies will be sent—for \$100, twenty three copies. The certificate of a postmaster of the remittance of a sum of money will be a sufficient receipt, all dangers of the mail being at the risk of the Publishers.

All communications will be addressed, post paid, to the undersigned, the Publishers.

LANGTREE & O'SULLIVAN
Washington, D. C., March 13, 1836.

Papers copying this prospectus, and wishing it till July, will be furnished with the Magazine for one year, by sending a copy of the paper to the Publishers.

HERE IS HEALTH TO THE SICK!
**NOBLE'S AGAMEDIAN
LOZENGE;
A NEVER FAILING CURE FOR
Fever & Ague,**

And unrivaled as a Tonic in all cases of Debility, Female Obstructions, Fevers, &c.

Owing to the unprincipled venality of a certain set of pretenders to skill, in the art of compounding medicine with reference to the cure of human ills, the country has been deluged with nostrums, to cure this and that disease—one "tonic mixture" and another "panacea," and "catholicon," &c. &c., ad infinitum, until it has become necessary for men of science, and those who wish to save the unfortunate from imposition and death, to lead their aid in stopping the ravages of quackery and presumption. Therefore, this Lozenge was invented by an experienced Chemist and Physician in accordance with the immutable principles of physiological science as applicable to the pathology of human disease, and expressly to meet the wants of EMIGRANTS and people of all places where the above diseases prevail, and is indisputably the best medicine ever before offered to the public for the cure of those diseases. Having more power than the Quinine, it has none of its danger to the constitution, as it prevents the formation of DISEASE IN THE LIVER, AGUE CAKES, &c. so often the consequence of the injudicious use of QUININE. It will never fail to cure the ague and all diseases of the constitution attendant upon it, when used according to the directions. There are twenty four Lozenges and six Pills in each box. Price one dollar per box. The cheapest medicine ever before offered in proportion to its virtues. Directions inside of the box.

B. G. NOBLE, General Agent,
Dexter, M. T.

CERTIFICATES.

This may certify, that having been afflicted with Ague and Fever, in a most aggravated form, for more than twelve months, without any intermission, except for a few days, I was at length perfectly cured by the use of one box of Noble's Agamedian Lozenge, after having tried most of the prepared remedies with no effect, such as Quinine, Bark, and various compounds. Such was my situation, previous to using the Lozenge, that I was wholly incapable of doing any kind of labor, and rapidly on the decline. A few days' use of it, however, wrought so great a change, that I was able to commence work, which I have continued without interruption ever since, although many months have elapsed since. I would recommend this medicine to those afflicted with Fever and Ague, as a sure and effectual remedy for that disease.

OBED TAYLOR,
Stio, Michigan, December 5, 1835.

I certify, that I was cured of an inveterate Ague by the use of Noble's Agamedian Lozenge. I would recommend it as a radical and permanent remedy for that disease.

N. POWELL,
Dexter Village, Michigan, Feb. 24, 1836.

I can cheerfully testify to the superior efficacy of Noble's Agamedian Lozenge, as a remedy for Fever and Ague, from its use in my own case, having been perfectly cured of Fever and Ague by it, after having made a trial of various other medicines with no effect.

JOEL NEGUS,
Webster, Michigan, March 20, 1836.

This medicine can be had wholesale and retail by applying to the General Agent who will be happy to show some of the very many certificates which unsolicited are being brought in, or by sending orders to Strong & Walker, Hudson, Portage County, Ohio, or to any other regularly authorized agent in New York or Philadelphia.

For sale in Ravenna by I. SWIFT,
Hudson, March 9, 1836 45

BAKERY.

The subscriber has located himself in Ravenna, and established a BAKERY, where

Cakes, Bread, Crackers
and all articles in his line will at all times be kept on hand. The public is requested to call, as he believes he can afford them new, warm Bread, Cakes and Pies, cheaper than they can make them.

Bakery two Doors East of I. Swift's Drug Shop;
Ravenna July 14, 1836. MILO FOOT.

NOTICE TO NEWSPAPER PUBLISHERS.—The Editor of "THE DELAWARE NEWS," published at Wilmington, Delaware, proposes to prepare a Newspaper Directory, and therefore asks as a favor, that each paper published in the United States; will forward him, by mail, one copy of their paper. He intends to arrange them by States, giving their politics, &c. For this favor, each editor sending his paper, shall receive 1 copy of the Directory, as soon as made ready. The advantage of a sheet of this kind to publishers, must be apparent to all.

Editors will please copy the above once or twice, in order to give it circulation.

**PROSPECTUS
OF THE
WESTERN ACADEMICIAN.**

AND JOURNAL OF EDUCATION AND SCIENCE.
Edited by JOHN W. PICKET.

THE Western Literary In-Letter and College of Teachers, at their sixth annual session, in 1836, held in Cincinnati, vested in their Executive Committee, power to establish an Educational and Scientific Journal, and to select an Editor, adequate to carry into effect their views, and to extend the character and usefulness of their work. The result of their deliberations is the present undertaking.

The publisher, in adding another to the existing periodicals, deems it unnecessary to expatiate upon their utility, when conducted with talent, and on liberal principles. Nor, does he wish to excite expectations which may not be realized. The spirit and ability which mark a work must be the criteria by which an estimate of its value can be formed. If a high and manly character can be imparted to it, a doubt cannot exist of success. The publisher, hence, feels confidence, that those who originated the undertaking, will exert their united talent to make the present work worthy of public support.

As the advance of sound education, literature, and science is the object of this work all matter of a sectarian or political nature will be irrelevant, and excluded. The benefit of the people, and those whose possession it is to instruct, precludes all interference in controversial subjects of this nature. On all others, rigid integrity and impartiality will govern. Neither birthplace nor geographical lines ought to be known or acknowledged in the republic of literature and science, which should have no bounds but those of truth and intellect. According to the spirit of these remarks, the work will be conducted.

All writers for the Academician are requested to affix their names to their articles.

CONDITIONS.

THE WESTERN ACADEMICIAN will be published Monthly, commencing in March next, and each number will contain 56 medium octavo pages, at THREE DOLLARS a year, payable invariably in advance.

All subscribers must commence with the volume, and no subscription will be received for less than one year.

Professors in Colleges, Teachers, and Post Masters throughout the United States, are requested to act as agents, and every seventh copy will be given as a compensation.

All communications concerning the Western Academician may be addressed, post paid to KENDALL & HENRY,
Cincinnati, Ohio.

**DR. JUDKIN'S
SPECIFIC OINTMENT**

THIS valuable medicine is celebrated for curing White Swellings of every description, Sore Legs and Ulcers of long standing, Glandular Tumors, Felons, or what some people know by the name of Catarrhs; Rheumatic pains, and Bruises; Tetters of all kinds; Chilblains, or parts affected by frost; it is also one of the best remedies for Scalds and Burns.

For glandular swellings, it is superior to any medicine yet known. It is much safer than mercurial applications, (as it does not contain the smallest atom of that mineral,) because it does not lay the patient liable to injury from exposure to cold.

It cures the worst felons or whitlows on an application of forty-eight hours.

Rheumatism which have stood so long as to become a systematic disorder, require medicine to be taken inwardly to remove them entirely. But in most cases by applying this ointment externally, as directed, it will give relief.

CERTIFICATES.

Washington, March 22, 1836.

Sir—My son being afflicted for five years with White Swelling, and having applied every remedy recommended by the most eminent physicians within my reach, without success, I at length procured one jug of Dr. Judkin's Patent Specific Ointment, and state, for the benefit of the afflicted, that before one jug was used a perfect cure was effected. My son has enjoyed good health ever since. I have no doubt to the Ointment alone he is indebted, as nothing else was used for more than nine months before the application of the Ointment.

Respectfully,
JOHN COCKE.

I have made use of Dr. Judkin's Ointment, and it has proved a most valuable medicine to my son, who for many years has been afflicted with chilblains, and was obliged to wear Indian-Rubber shoes, till I made use of the Ointment, which effected an entire cure. It is also the best remedy for sores and wounds, have ever used in my family.

PARLEY GODDARD,

**THE FAMILY MAGAZINE,
OR
GENERAL ABSTRACT OF USEFUL KNOWLEDGE.**

Published monthly; 40 pages imp. 8vo. at \$1 50 a year

ELI TAYLOR, 148 MAIN STREET, CINCINNATI, TERMS.

THE terms of the Family Magazine are \$1 50 a year, invariably in advance, and no subscription will be received for less than one year; and all subscriptions will be discontinued at the end of the year, unless they are again paid in advance.

Seven copies will be sent to one person for \$10,—and fifteen copies for \$30,—the amount in all cases to be remitted to us free of expense, but where there is evidence that the money is carefully enclosed and mailed, we will assume the risk of the mail.

Post masters in all the western and southern states are authorized agents, and all who will act as such shall receive a copy of the work, if they remit us the amount required for seven subscribers.

We are now prepared to furnish the work to any number of subscribers, either from the beginning of the volume in January 1835, or from the Number for July, and these are the only times at which subscriptions can be commenced.

All communications concerning the Family Magazine may be directed post paid, to
ELI TAYLOR,
Cincinnati, Ohio.

**CHEMICAL PLASTER
OR RHEUMATISM AND FEVER SORES.**

AN important remedy for all those who are afflicted with inflammatory complaints by its causing pain, counteracting inflammation, and giving speedy relief without disagreeable sensation, and for its active strength ening & sodoric properties—an effectual remedy for the Rheumatism, cramp, ague in the breast, burns, bruises, scrofula, old sores, ulcers of all most every description, particularly fever sores. Those persons suffering with liver complaints pulmonary disease, inflammation on the lung with pains in the side and breast, headache, pains and weakness in the back, will find relief and in all cases it may be used with safety. If the pain be in the joints, it has proved most effectual by applying it to the feet. It should be spread thin on soft leather or paper, and applied to or near to the part afflicted as possible. In case of severe inflammation, bleeding and a dose of two or three grains of Physic may be necessary, and the plaster wants changing, and this coat added every twenty-four hours. In case of fever sore, daily use of a strip made of the Plaster, Root for some weeks would be useful and important.

It will be found highly useful for cuts on the feet, also for Strains and Bruises on horses. Made and sold wholesale and retail by E. DEAN, at his Drug & Medical Store, Westfield Chautauque county, N. Y.

RECOMMENDATIONS.

To THE AFFLICTED.—This may certify, that having been afflicted for five years past with what the doctors call the nervous rheumatism, in my hip, leg, and foot, so that the cords contracted, and I lost the use of them, in a great measure—my feet especially, had become almost useless, that I have called on physicians, from every quarter, both Botanic and Apothecary, without any effect, and having made use of the Chemical Plaster, which has relieved me from pain, loosed the cords, and restored my limbs to health in a short time.

MARTIN CRANE.
Mencon, July 25, 1832.

This may certify that I have been afflicted with the rheumatism in my shoulder, in such a manner that I could not raise my hand to my head, and I applied the chemical plaster, which effected a cure in less than 48 hours.

Mrs. E. WILCOX,
Jamestown, September 22, 1832.

I have witnessed in an inveterate case of Fever sore, of four years standing, in my family, an entire cure was effected, by the above Plaster, in about four weeks. Wm. BRITTON,
Westfield, June 4, 1836.

I have been afflicted for six years with an inflammatory rheumatism in my feet and limbs attended with agonizing pain, depriving me of sleep and ease at times, night and day. I have sought in vain for medical relief, until I heard of the Chemical Plaster, sold by E. Dean, which has afforded immediate relief. My feet were in such agony that it seemed as if they would split open. I applied a plaster and in a few hours they were perfectly easy and free from pain.

WM. CHASE,
Westfield, Aug. 5, 1833.

S. MASON & CO.
Ravenna, Dec 29 1836.

**Dr. Whiton's Vegetable
ANTI-BILIOUS PILLS.**

THE convenience of a cheap remedy, in the form of Pills, suited to the commencement of most of the indispositions to which we are liable, needs no comment.

Many diseases, in their forming state, are arrested, by the exhibition of proper cathartic medicine, and the consequent suffering and expense are thereby avoided.

All that pills can effect, in preserving or restoring health—and that is much—may be expected, and will be derived, from the timely use of these pills.

They are peculiarly excellent in every variety of head ache, proceeding from a foul, acid, or bilious state of the stomach; and in all fevers, or illness of the system, dependent on the same cause. In short, for every derangement of the stomach and bowels, requiring cathartic medicine, the Vegetable Anti-Bilious Pills admit no exception. Price 25 cents.

Administrator's Sale.

IN obedience to an order of the Court of Common Pleas of Huron County, Ohio, made at the February term, A. D. 1837, I shall sell at public vendue, to the highest and best bidder, at the Franklin Mills, Franklin Township, Portage County, Ohio, on the thirteenth day of May, A. D. 1837, between the hours of 10 o'clock A. M. and 4 o'clock P. M. of said day, the following described real estate, viz: About eighteen acres of Land lying in the North East corner of Lot No. 15 in township No. 3 in the ninth range of townships in the Connecticut Western Reserve, being the same land deceded by Jesse Farham to Eber Phelps Jr., and by said Phelps to Charles Stebbins, and by said Stebbins and Julia E. Stebbins his wife to Aaron C. Corbett by Deed bearing date the 15th day of July, A. D. 1831, said eighteen acres lying in (n.w.) Franklin township in said county.

APPLETON C. CORBETT,
Administrator of Aaron C. Corbett, dec'd.
March 27, 1837. 4w48

BY virtue of an order to us directed, by Jacob T. Andrus, a justice of the peace of Franklin township, in Portage co., we the undersigned do certify that we have viewed and appraised a certain stray Colt, taken up by William H. Converse of said township, and find the same to be a black horse colt, with both hind and the near fore feet white, with a star in the forehead, a natural trotter, about twelve hands high, supposed to be about one year old last spring, no artificial marks, and we do appraise said colt at sixteen dollars.

C. W. CONVERSE, Appraiser.
ROBERT KING, }
I hereby certify the above to be a true copy from my stray book.

Franklin, Feb. 7, 1837. 3w4

**Justice Blanks,
FOR SALE AT THIS OFFICE.**

**T. WHITE'S
TOOTH-ACHE DROPS.**

THE only Specific ever yet offered to the Public, from which a radical and permanent cure may be obtained, of that distressing pain, the tooth-ache, with all its attendant evils: such as fracturing jaws in extracting the teeth, which often proves more painful than the tooth-ache itself; and cold passing from the decaying teeth to the jaw, thence to the head, producing a rheumatic affection, with many other unpleasant effects, such as disagreeable breath, bad taste in the mouth, &c. &c. all of which are occasioned from foul or decaying teeth. I am happy in having it in my power to offer to the world a remedy that will not only remove the pain, but preserve the teeth from further decay, and detach the carious matter from such as have not commenced aching, and remove the tartar and all other filth from the teeth, restoring them to health and usefulness.

CERTIFICATES.

Mr. Thomas White—I have the pleasure to inform you, that I have been using your Tooth-ache Drops in my practice for some time past, and I must acknowledge that I find them far superior to any thing I have ever yet known for that purpose.

I am well convinced that it will cure most cases of Tooth-ache, when it is timely and properly applied; and from a few weeks' experience, I am decidedly of the opinion that it will have a very beneficial effect in preserving the teeth; and recommend it, hoping it may prove a blessing to humanity, and advantage to yourself.

WM. I. BIRKLEY, Surg. Dent.
No. 99, South Fifth Street,
September 12, 1839. Philadelphia, Pa.

ERIE, (Pa.) October 17, 1832.

The subscribers having witnessed the pleasing effects of Dr. Thomas White's Vegetable Tooth-Ache Drops, feel a pleasure in recommending it to those that are afflicted with the Tooth-Ache, as a safe, and in most cases perfectly effectual remedy for the disorder.

A. BEBEE, Physician.
H. L. HARVEY, Ed. Erie Observer.
ALBERT THAYER, Physician.
O. N. SAGE, Dentist.

**VEGETABLE
RHEUMATIC DROPS.**

MY articles are before the public, as a cure for that most obstinate and tormenting disease the Rheumatism, and from close observation, we are led to believe they have a very great extent, failed to produce that desirable result; and may it not be attributed to the fact that articles said to cure this troublesome disorder, are also recommended to cure almost every disease with which our frail bodies are attacked, and in their preparation that objects kept in view, viz: to have the medicine a cure for all diseases.

The Vegetable Rheumatic Drops are offered to the public as a remedy for Rheumatism; and as no case is known where a perfect cure was not effected, we are justified in declaring it a valuable medicine for that painful disease, and for no other is it recommended.—Price 50 Cents.

CERTIFICATES.

Messrs. O. & S. Crosby & Co. Gentlemen. I feel happy in having it in my power to state to you the good effect of your Vegetable Rheumatic Drops, or sure remedy, had in restoring me from a sick bed. In the month of April last, I was so afflicted with the inflammatory Rheumatism that I was confined to my bed. I was entirely unable to help myself. I could not so much as turn myself in bed, and it was with the greatest difficulty that I could be moved in it. I tried various kinds of medicine, and was attended by a skillful physician, but all to no effect, until I made use of your Sure Remedy, which when applied as directed, gave me immediate relief. Within a short time after commencing using it, I was able to rise out and attend my usual business. I can cheerfully recommend it to the public as being a good medicine for Rheumatic complaints, as it has been a number of months and I have had no return.

AARON HOLDRIEDGE,
Columbus, Ohio, Nov. 1st, 1832.

Messrs Crosby & Co. I was afflicted for several months with the Rheumatism; and having used every remedy recommended by the most eminent physicians within my reach without success, I at length procured a bottle of your Rheumatic Drops or Sure Remedy, and made the application as directed, and before I had used one half of it, a perfect cure was effected; and to my knowledge the same bottle cured two of my neighbors. It is now about two years since I used your medicine, and I have not been troubled with the Rheumatism since.
