AT A fatal affray occurred in Kansas territory a short time since. The difficulty was between two Kentuckians and several persons from Platte county, about a claim. The matter was left to a third party to settle, who decided in favor of the Kentuckians. When the decision was proclaimed, the Platte county claimants headed by one BUZZARD, attacked the other party and cut them up with knives in such a manner that no hopes are entertained of their recovery. The Governor, who is at Leavenworth, had the parties arrested at once.

A CHECKERED CAREER.—Rev. Thomas Clifton, formerly a lawyer, politician and clergyman, recently died in Kentucky. In 1819 he was a member of the Kentucky Legislature, then a clergyman, and subsequently twice elected a member of Congress, as a Jackson man. Afterwards he became a friend of Mr. Clay, and being a candidate a third time, was defeated. He was in 1824, but in 1828 was again sent to Congress, but in 1832 retired to private life, and ended his days as a clergyman.

Special Notices.

Mr. Embros.—Shortly after the election, you stated in your paper, that "Brinfield was the only township in the County, that maintained its former majority." Other townships are well aware of the high estimate, in which the Brinfield Democracy are held at Ravenna.

The vote of Aurora was small upon both tickets, yet the Fusion majority, was as small over the Democratic ticket, as it ever was, when but two tickets were run.

When an honorable candidate at Ravenna, was told the other day, that not a Democratic vote in Aurora, was influenced to give his vote to Fusionism, by reason of "Know-Nothingism," and that our vote stood about as formerly, as to majority, he replied, under some excitement, "then you are most damnably lied up there."

I wish it to be stated, that we are well aware of this last fact, and of those who believe us. Their statements will not however change the truth. We are also getting accustomed to them. Yours.

Taylor's History of Ohio. This work, which we have already noticed, has just been published by H. W. Derby & Co. The present volume is devoted to what Mr. Taylor designates as the ante-territorial portion of the history of the State, and covers the period between the years 1650 and 1787.

The Georgetown, (Kentucky) Herald of last week, gives the following list of suicides: On October 10th, Mrs. GILL, residing in Scott county, aged about twenty, hung herself to a tree, and was found dead. Her foot touched the ground as she hung, and the act had evidently been one of strong determination. She had been separated from her husband about a year, and was in poor circumstances. On the 11th inst., a Mrs. PICKETT, residing in Grant county, about forty years of age, and the mother of nine children, in the absence of her husband, tended to visit a neighbor, taking with her knitting and a plow line. On the return of the husband, the children's story of the line alarmed him. Search was made, and Mrs. P. was found hung dead, her knitting carefully put aside. Jealousy of her husband is thought to have caused the deed. On the same day, a Miss WIGGLES, residing in Harrison county, about fifteen years of age, shot herself in the head with a rifle, inflicting a shocking, but not immediately fatal wound. She would assign no cause for the act. An acquaintance, a young lady named LOZIER, called to see Miss W., and inquired who her shot her. Miss W. exacted of Miss L. a solemn promise to kill the perpetrator of the deed, and then said it was herself and nobody else, and demanded that Miss L. should redeem her promise. Wonderful relate, on the evening of the day of this interview, Miss LOZIER attempted her own life, by hanging herself to a tree, but was discovered and cut down in time to save her.

A MAN RUN OFF IN A BALLOON.—Professor Elliott was to have made a balloon ascension from Richmond, Virginia, on Thursday, but was persuaded by a young man named Carrier to let him go up a short distance. The Dispatch states that Carrier got into the car and rose above the heads of the multitude; when, to the astonishment of every spectator, he cut the cords which held the balloon to the earth, and seeing his hat, called off rapidly towards the sky. The appointment of Mr. Elliott, who was anticipated a magnificent aerial voyage, so effected him that he fainted, and during the evening two physicians had to be called in. The spectators were also quite indignant. Carrier, when last seen, had ascended to a great height. It was subsequently ascertained, however, that he descended safely on the farm of Mr. E. Snyder, where Professor E. previously descended.
