

MORNING LEADER.

THURSDAY MORNING, SEPT. 16, 1858.

SECOND DAY.

September 15th was the first Peoples' Day of the State Fair. The attendance was large, but the grounds and halls were ample for all.

At an early hour the Fair Grounds presented a gay and animated appearance, and by noon the multitudinous show of intelligent, well dressed, well behaved, and well to do men and women, justly the pride and glory of the State, constituted the crowning feature of the Fair.

Among those from abroad were the Hon. CHAS. DICKER, President of the Michigan Board of Agriculture, R. F. JOHNSON, Secretary of the Board, and E. N. WILSON, Chairman of the Business Committee. The weather was fine up to about half past four P. M., when a wind and rain cloud from over the Bay was preceded by a just storm of almost smothering density.

Hamilton County.

The united Opposition in the First Congressional District have nominated Thomas C. Day, and in the Second District, John A. Grealey. The Conventions were harmonious, and the nominations were made the first ballot, and afterwards unanimous.

FILE IN WELLINGTON.

Monday morning six storekeepers' number of offices were destroyed by fire in Wellington, Lorain county. It originated in the store of Woolley & Reamer, from a stove pipe. The Elgria Democrat says: On the north the large brick block owned by Dr. Johns, and occupied by Baldwin Landau & Co., and the harness shop of Mr. Elliott, adjacent, were destroyed. On the south of Woolley & Reamer's was the store of W. F. Horvick, then a vacant store, and the dry goods store of James Rust, were all destroyed. The goods in all the stores were generally saved. Baldwin & Co. were fully insured.

FEMALE ADMISSION BY MEASUREMENT.

According to the Courier de Charlemagne the lessee of dancing saloons in Belgium complain bitterly of the falling off in their receipts, occasioned by the extra space now occupied by crinolines. An instrument, called the "Crinolimeter," has consequently been adopted by some of them, and persons whose crinolines surpass the fixed development are charged an extra admission fee. At a ball given at Montigny, in Belgium one female was measured and charged an extra 75 centimes, another person, of an economic disposition, preferred reducing her crinolines by taking out two hoops.

THE AMERICAN BOARD.—There were in attendance upon the American Board of Commissioners, which closed their session here yesterday morning, were 82 corporate and 515 honorary members, and it was estimated there were between 1200 and 1500 people from abroad in attendance. At the meeting held at Providence, last year, there were 82 corporate and 515 honorary members, with an entire attendance of about 2,000.—Det. Adv.

Hayti Invites Free Negroes.

The Emperor of Hayti has sent two agents or commissioners to the United States for the purpose of learning the sentiments of the free colored population in regard to emigration to that island, and of making arrangements to facilitate it.

The agents are Paul Emile Deslandes, a colonel in the Haytian army, and Mr. Monfort, who is the head of a commercial house at Port-au-Prince. The French language is their vernacular. Except in color, it would be difficult to discriminate between them and educated Frenchmen. They are mulattoes of light color, and gentlemanly in their deportment. They were recently in St. Louis, and the Democrat remarks:

Their mission is two fold: first to urge upon the merchants of New York and Boston the advantages which American commerce would derive from the establishment of a line of packets between New York and the chief cities of the island, and secondly, to ascertain the sentiments of the free negroes and the American people generally. Colonel Deslandes, who is the principal Commissioner, is not prepared to expect that he will have success, unless the Emperor may offer to admit emigration to his dominions. He will, however, await instructions, and report in the meantime upon the best mode of accomplishing the design of Souleuvre.

It will be remembered that a strong desire has recently expressed in high quarters in Jamaica that the negroes of Canada should emigrate to that island. A spirit of hostility on the part of the Canadian and the negroes has manifested itself. Bearing these circumstances in mind, together with Souleuvre's project, we should not be surprised to see an attempt to induce the free negroes of Canada and the United States to the West India Islands at no distant day. They would have ample scope for developing whatever capacities nature has endowed them with. Here, as the intelligent portion of the colored people, they must at least be treated as free men, and not as slaves, for the whites will never admit of their participation in any but the lowest vocations, and will not only political equality, but personal and social equality. Indeed, it is a fair presumption that the energy and manual skill which they have acquired by severe training and by their contact with American energy and skill, will enable them to rise rapidly in their sphere.

Manafort assured us that Hayti is thoroughly republican, and that the imperial system will die with the reigning Emperor. The island is now enjoying undisturbed peace. Its imports are not less than in former years, and its exports are not less. Mr. Blair's colonization speech, it is a larger consumer of American commodities than Mexico or Cuba. Its great fertility is known to every body who has read his geographical treatise on the subject. It is a fair presumption that the energy and manual skill which they have acquired by severe training and by their contact with American energy and skill, will enable them to rise rapidly in their sphere.

THE PROPERTY AND POLICY OF A CONCERNED MIGRATION OF THE FREE COLORED POPULATION TO SOME REGION WHERE THEY CAN ENJOY THEIR INalienable RIGHTS TO LIFE, LIBERTY, AND THE PURSUIT OF HAPPINESS, IS AWAKENING MORE THAN USUAL INTEREST AMONG THE LEADING MINDS OF THE RACE.

A meeting of colored men was held in New York a few weeks ago on the subject. Mr. Frederick Douglass was in the chair. The meeting was addressed by the Rev. Mr. Holley, of New Haven, Conn., in favor of Hayti; by T. M. Chester, in behalf of Liberia; by Rev. H. M. Wilson, Rev. W. A. Thompson, and others. Much interest was manifested, and a committee of three was appointed with power to investigate and call other meetings.

INQUIRY IN REGARD TO HAYTI BEING MADE BY ONE OF THE INTELLIGENT COLORED CITIZENS OF THIS CITY AND VICINITY, WITH A VIEW TO MAKING IT THEIR FUTURE HOME.

The nomination of this gentleman as the Democratic candidate for Board of Public Works, has been received with great interest and astonishment by all parties in Butler county, where he resides. At the Democratic County Convention in Butler to appoint Delegates to the State Convention, a resolution was passed, recommending the nomination of this gentleman, as a suitable candidate for that office, was negatived by a large majority, and hence the surprise and dissatisfaction at his nomination.

A CORRESPONDENT OF THE CINCINNATI GAZETTE, WRITING FROM MIDDLETOWN, (WHERE HENDRICKSON RESIDES), UNDER THE DATE OF AUG. 23, GIVES THE FOLLOWING HISTORY OF HIS COMPLIANCE WITH THE CANAL CONTRACT AND FRAUDS UPON THE STATE, IN HIS RECEIVING CONTRACTS FOR A DAMAGING ONE.

Up to the year 1851, R. H. Hendrickson acted with the White party, and was many times named as a "Foxy," but being an influential member of the Board of Public Works, and a Democratic member of the Board of Public Works, Cooper, who is always on the alert for a "nice job," could not see how he could be so easily deceived, and he accordingly secured a bill to induce "the Fox" to think that the interest of the State, and especially the interest of those who expected to be contractors, required that a new "State Dam" should be built near Middletown. The result was that Hendrickson and Hendrickson were contractors to build a new "State Dam," and one of the most palpable and magnificent frauds that was ever perpetrated upon the people of this State.

DEATH OF MR. MILTON BALDWIN.

News has lately been received at Berea of the death of Mr. Milton Baldwin, formerly of that place. Mr. Baldwin died at Grassport, Pa., Kansas, on the 14th inst., of congestion of the bowels after an illness of less than three days. The deceased was a son of Mr. John Baldwin, of Berea, and had lately taken charge of an institution in Kansas established by his father on a plan similar to the Baldwin University at Berea. This blow is a heavy one upon the family of the deceased, who reside at Berea, and to the cause of the bereaved family, who were a very fine scholar, in particular as a linguist, and has been a very successful teacher at Berea. His father, John Baldwin, in his unbounded philanthropy had erected mills in Kansas, the income of which was to be devoted to the school, and this son had just got the school in operation when this untimely blow fell.—Herald.

AN INDEPENDENT CATHOLIC ORGANIZATION.—We find the following announcement in a Canadian paper:

The Rev. M. Chiniqny, so well known in Canada as the Apostle of Temperance and an eloquent preacher, and whose resistance of the intemperance law, has lately excited so much painful feeling among his orthodox co-religionists, has at length been induced to take a rash, and probably an irrevocable step. Bishop Duggan, of Chicago, who had succeeded in inducing the Rev. M. Chiniqny to resign his office as a great wrong, made a public declaration, that he separated from the Catholic Church and was going to found a sect under the denomination of "Eglise Chrétienne Catholique," independent of Rome and the Bishop.

DEPUTY MARSHAL FOR MARIETTA.—We learn from the Standard, that Postmaster William Schmick, Esq. of Canfield, has received the appointment of Deputy U. S. Marshal for Marietta County, as the hands of District Marshal Johnson, Governmental honors and emoluments seem to cluster thickly around Mr. S.

RATE OF TAXATION IN CINCINNATI.—The rate of taxation levied upon the assessed value of real and personal property in Cincinnati for the current year, and which is to be paid under the law prescribing the semi annual payment of taxes in December, 1858, and in June, 1859, is estimated to be as follows: For every \$1000 of assessed value, the rate is to be \$1.10, or one cent and ten mills more than the rate for the year 1857, and one cent and six-tenths more than the rate for the year 1856.

An Anti-Slavery Candidate for Governor of Virginia.

The following card appears in the advertising department of a Richmond, Va., newspaper: To the people of Virginia: I hereby proclaim myself a candidate for the office of Governor of the State of Virginia, and shall urge, with whatever ability I possess, the wisdom of accepting one hundred million acres of the public land, for money amounting to \$100,000,000, to be applied to the gradual extinction of slavery, by purchasing the young slaves and their emigration beyond the United States.

Hal Virginia applied the hundred millions of acres that she gave to the United States in 1787, to this purpose, the banks of her majestic rivers would now be teeming with a thrifty white population, and strewed with cities, villages and towns to be applied to the gradual extinction of slavery. Give me but a fair field to combat my rivals. I ask no other favor—and the triumph shall be mine.

Your servant, ever faithful and true, HENRY ABRAM.

Mr. Abram writes a note to the New York Evening Post, that he will receive such a vote as will establish everybody but himself.

DRY WEATHER IN FRANCE.—Our Paris correspondent informs us that river Seine on the foot which is the first time for one hundred and fifty-nine years that such a thing has happened. Five hundred canal boats with two hundred and forty millions pounds of freight had been stopped at St. Quentin. The government, however, immediately ordered a trench to be cut to the nearest river, a distance of twenty miles, in order to feed the canal, and at last no canal navigation was again active.—Boston Traveller.
