

ASHLAND: Wednesday, Aug. 11, 1858.

Democratic Nominations.

STATE TICKET. FOR GOVERNOR: THOMAS W. BARTLEY, Richland.

A United States Law, of unusual length, occupies our space this week to the exclusion of editorial, &c.

Republican Judicial Convention. A Republican Convention, of delegates from the several counties, convened at Mansfield, on Thursday last, and nominated Mr. POWELL, of Delaware.

Mr. POWELL is a very good citizen and a lawyer of long practice at the bar. In politics, he is an old Federal-Abolitionist.

Like the candidates on the State ticket nominated at Columbus, by the Republicans, he belongs to the old race of hereditary haters of the Democracy, and his nomination affords another evidence that the element which controls the machinery of the Republican party, is the one which had its birth in the old contest between Adams and Jefferson, and, although it loves the aid of its recruits from the Democratic party, yet despises the traitors, and have determined that they shall occupy the place of subalterns.

The State Convention. For the first time since we took up our residence in Ohio, we attended a State gathering of the Democracy at Columbus on Thursday last.

The complete success of the Atlantic Cable is placed beyond all doubt. Signals are now being made through the whole extent of the Cable, but it is unlikely that the cable will be opened for business for several days or perhaps weeks, as the electricians are still engaged in the repairs of the instruments.

The Case of P. Bliss. We were driven to a public notice of the gross abuse of the franking privilege by P. Bliss, our Negro Equality Representative, by the complaints of the Ashland Times against the Post-Master here for obeying the law.

Before we leave this subject, it may be proper to say that we have never used the franks of Democratic members of Congress in the way undertaken by the friends of Mr. P. Bliss; nor, with the exception of a few documents under Mr. B's frank, directed and mailed here, by a Republican friend, before we had examined and understood the law.

But to the letter of Mr. K. K. who should satisfy all that the Post-Master here could not have done otherwise than he did.

Post-Office Department. Appointment of Officers. A. S. Aug. 3, 1858. Sir: Your letter of the 30th ultimo, is received.

The franked packages, the outside one only directed, cannot be directed by another party and remained to a different office free of postage.

Transfer of Ohio State Stocks. The complaint made by Wall Street, against the State of Ohio, is because on transfer of her stocks, the law provides that the cancelled certificate shall be sent to Columbus and the new certificate there made out.

Certainly, Mr. Herald. You will find, on examination, that the Democratic Legislature of last winter was more generally filled with "just and proper" precautions against abuses and frauds than any that the State has heretofore had. Thus does every law relating to the public finances, the more closely it is analyzed, extort commendation from the candid among our foes.

Two Extraordinary Directors. It will be remembered that there are two Extraordinary Directors to be elected next fall for the regular term three years, and one by the death of Mr. Eaton.

The Uphur (Texas) Democrat tells of the Siding of the body of a man suspended to the limb of a tree by the neck in a swamp. A paper bearing the words "have this" was conspicuously placed upon the corpse, which apparently had been hanging some weeks.

Trinity Church Bells and the Atlantic Telegraph.

The vestrymen of Trinity Church have determined on celebrating the event of the first successful working of the Atlantic Telegraph cable by ringing a merry peal on their peal of bells for an hour after the transmission of the first message.

Message from Mr. Field.

Trinity Day, N. F., Aug. 7. To the Associated Press:—Since our arrival here on the morning of the 5th, I have been constantly receiving telegraphic messages asking for full particulars in regard to laying the Cable, to which it is impossible for me to reply, as every moment of my time will be fully occupied while I remain here, and I have heard to Mr. McKay, Superintendent of the New York, New Foundland and London Telegraph Co.'s Lines, my daily journal, and given him full permission to send from the same any extracts that he might think of interest to the public, especially those portions which will reply to the communications I have received.

From the West.

LEAVENWORTH, Aug. 3. A skirmish took place about the 20th of July, in the immediate vicinity of Fort Leavenworth, between a small war party of Cheyennes and Arapahoes, and the Pawnees. The Pawnees succeeded in surprising the Pawnees, killing three, among whom was the Chief, and carrying a large number of horses, and a considerable quantity of property, and the Cheyennes, recaptured their animals and wounded several of their adversaries. There were over 1000 Pawnees assembled near the Fort for peaceful purposes.

FROM TRINITY DAY.

The complete success of the Atlantic Cable is placed beyond all doubt. Signals are now being made through the whole extent of the Cable, but it is unlikely that the cable will be opened for business for several days or perhaps weeks, as the electricians are still engaged in the repairs of the instruments.

Democratic State Convention.

The State ticket put in nomination by the Democracy of Ohio, assembled in convention at the Capital on the 29th of July, in the evening, and the result, appears above. It is a good and a strong ticket, and the unanimity and concert in feeling attending its formation, insures a democratic triumph on the second Tuesday of October next.

THE CLEVELAND WOOL DEPOT.

Established in the winter of 1854, has been in operation over four years, during which period, though its progress has been retarded by the adverse years of 1857, the practicality of the plan has been clearly demonstrated. These issues afford superior advantages to the WOOL GROWERS OF THE WEST, as a medium for passing their wools into the hands of the manufacturer, in a more expeditious manner than the fact, that, as a class, wool growers have not a very large number of Wool Growers have availed themselves of these advantages during the last four years, but, as it may appear to many, on receipts have been larger from Merchants and Wool-buyers than from Wool-growers, and this may be accounted for mainly to the fact, that the wool growers have not been so easily influenced and misled than the former, by the statements of a few operators who are wholly opposed to the Wool Depot system, and who are endeavoring to bring about a re-arrangement of the wool trade, or the enhancement of prices to the producer.
