The Gazette.
A. THOMSON,
EDITOR AND PROPRIETOR.
Delaware, June 11, 1858.

CONGRESS.—Yesterday was the day agreed upon by joint resolution of the two Houses to adjourn, and it is probable the adjournment took place accordingly, notwithstanding the fact that a large amount of business is necessarily left undischarged.

The News from Utah is so conflicting that it is impossible to judge what is the actual state of affairs in Salt Lake City or in the camp of the invading army.

The city of New Orleans has for a week or ten days past been the scene of intense excitement, growing out of an effort to supplement the city authorities by the organization of a Vigilance Committee after the style of that which exercised authority with so high a hand in San Francisco a year or more ago.

INDIAN BATTLES.—These old enemies, the Sioux and Chippewas, have recently been scalping each other to some purpose in the vicinity of Shakopee, Minnesota.

The following from the N. O. Bulletin of the 31st, will give an idea of the state of affairs in the city about the time of the organization of the committee:

There had been an engagement with the Chippewas, who were in the immediate neighborhood of Shakopee, on the 29th of the month, and the result was a complete victory for the Sioux.

There had been an engagement with the Chippewas, who were in the immediate neighborhood of Shakopee, on the 29th of the month, and the result was a complete victory for the Sioux.

There had been an engagement with the Chippewas, who were in the immediate neighborhood of Shakopee, on the 29th of the month, and the result was a complete victory for the Sioux.

powerful democratic organization are disposed to regard this defection of Douglas as a decidedly settling the question, and he continues to stand out. On the other hand, even if he is not elected, he will be competent to bring back a tithe of the deserters who have followed him across the lines upon the Kansas abstraction of "popular sovereignty."

The universal knowledge of the fact that the democratic party stands in an apparently hopeless minority in the country has been operating since Mr. Buchanan's election, not to result in disordered elements, but to continue the work of disintegration.

The News from Utah is so conflicting that it is impossible to judge what is the actual state of affairs in Salt Lake City or in the camp of the invading army.

The city of New Orleans has for a week or ten days past been the scene of intense excitement, growing out of an effort to supplement the city authorities by the organization of a Vigilance Committee after the style of that which exercised authority with so high a hand in San Francisco a year or more ago.

EXPLOITS OF THE BRITISH CRUISE IN THE GULF.—Admiral is a bright record of the exploits of the British cruises in the Gulf of Mexico during the last few weeks: Ship Torpic Bird, fired into, boarded and searched.

NEW ORLEANS JUNE 3.—The jury having been unable to agree in the case of General Walker, were this morning discharged, when the government entered a nolle prosequi, and he was forthwith discharged.

CALIFORNIA GOLD.—It appears that from the 1st of January to the 30th of April the amount of specie shipped from San Francisco was \$15,171,423, which is \$691,369 more than for the corresponding period last year.

Another Gold Fever in California.—The people of California, were at the sailing of the last steamer, a state of intense excitement, about the finding of gold mines of unparalleled richness on Frazer River, Oregon.

AN INTENSE EXCITEMENT PREVAILS ABOUT THE FRAZER RIVER MINES, AND ALTHOUGH NOT MORE than 100,000 persons have yet been here, including those on the Columbia, who sail to-day, thousands of others are preparing to go; and, if the reports should continue to come in as favorable during the next few weeks as in the past months, there will be a grand caravan of emigrants.

THE COLUMBIAN COURIER OF THE 1ST INST. describes three lumps found in the vicinity of that place—one worth \$2,000, another worth \$1,000, and a third worth \$400.

THE VICE PRESIDENT has ordered the State rector to be closed, on account of its obvious injury to the progress of legislation. It would seem from this that drinking as well as gambling, is an accomplishment in which our Senators indulge, rather more freely than is compatible with the public interests of the people.

PROBABLE DAMAGE BY THE FLOOD.—The damage done along the Scioto Valley by the late freshet has been very great. Averaging the width of the valley from this place to Creleville at two miles, which we think is a fair average, we have 36,760 acres of corn land, all of which had been ploughed and a considerable portion planted before the flood. All of this labor is of course lost. Now suppose we put the cost of ploughing at two dollars per acre, we have \$73,520 and over.

THE WASHINGTON CORRESPONDENT of the New York Tribune, writing on the 24 of June, says: The war fever is palpably subsiding. The excitement which does not want war, but wants money, and is glad to see an excitement which withdraws public attention from home affairs, which may lead Congress to vote the appropriations for the Navy.
