## Wash Ties

For Ladies and men. We have Wash Ties that ARE wash ties and worthy of the name. That is they can be washed and worn again. Many wash ties will shrink, fade and become unwearable the first time that water touches them. Not so with ours. We have them that look neat, cool and comfortable.

## OLMITZ.

From "Citizen." Blow, Blow! Plenty of wind in Kansas.

Three drops of rain to the square inch fell here last week.

Some say what wheat is left is getting faller for want of moisture.

Farmers have a good idea now that wheat will not make a paying crop this year.

Father Mayers of this town has a patch of alfalfa clover hard to beat to grow on upland.

There are some talkers and writers who persist in reporting crops looking well in Kansas. They need banishment.

Putman White, on upper Blood creek, has 100 acres or more of wheat looking fine, and bids fair to a beautiful yield.

Several families here will change their residence this week. But it will only be a change round to better their financial interest.

Jack Frey and son are still here awaiting a building to start in business, which he expects to get as soon as Nordman gets moved into his new residence.

Robert Boyle recently purchased the N. E. 1/4 of Sec. 18, in Albion, price ten dollars per acre. But if he goes on the wheat crop of this year he will be left.

Some days ago Rob Boyle was severely kicked on his left side near his heart by a horse which came near using him up, and for several minutes friends had to work with him and drench his face with cold water before life could be noticed. This was a close call but he is better now.

Charlie Kreisel informs us he has full control of the milling business in this town, and expects to keep the mill running at its fullest capacity. And all he wants is for people one and all to give him their patronage and he will insure them fair treatment and honest work. Charlie this much is free; now don't be behind your townsmen, but do as many of them now do, advertise in the DEMOCRAT and tell the people what you can and will do for them in your profession.

## HEIZER SHOTS.

From "Bezie Tucker." Fred Warnken will be mustered in to the Woodman Camp Thursday night.

Wm Otte must have rode the Woodman goat all right, as he ordered a new wheel.

Last Saturday was a dust layer and Sunday a raiser—something similar to the wheat market.

H. Shultz reports that the wind of Sunday last nearly removed his large barn from its foundation.

The Dunkards held the annual love-feast last Saturday night, with a very large attendance; many from other counties attended.

I am very much annoyed by some of the Woodmen members to join their Camp, as Bezie Tucker is not a member. I have no particular objections, but my better half, (as they call it) is rebelling, and I am affected with the rheumatism in the limbs so I could not ride the goat by any means; would not you kindly excuse me.

## Great Bend Poultry Plant.

Still in the push. If all you hen friends want any cracker-jack stock give me a call. My birds are full blooded, clear to the bill. I breed White Plymouth Rocks, Buff Plymouth Rocks and Buff Leghorns. Eggs, White Rocks \$1.00. Buff Rocks \$2.00. Buff Leghorns \$1.50, for 15 eggs.

A. A. WEMMERGREN.

Not a year goes by but Barton county farmers miss an opportunity of making many thousands of dollars from a barley crop, by reason of the fact that the profitless, worthless, farcial prohibitory liquor law takes away what would be a home market for all the barley that could be raised.

FARMS FOR SALE—1 1/2 miles west of Santa Fe depot; Great Bend; mostly under cultivation; balance fenced. For particulars enquire of M. Buess.

A much needed stone crossing is being put down from the Kinney restaurant to the Huime building, across the alley. There are other places where crossings are badly needed, and where they will be put in during the summer.

A. H. SCHAEFFER, GREAT BEND, KANS.

Dr. Lightfoot makes a specialty of Surgery, and his office is well equipped with instruments. He also has fine electrical apparatus which he uses to aid him in the treatment of chronic diseases, of women, and piles. He has apparatus for treating catarrh and all diseases of the nose, throat and lungs by the use of compressed and medicated air. Interested persons are invited to call and investigate his methods.

John Clifton, from over on the east border of the Cheyenne, was a caller Tuesday. Mr. Clifton states that according to his observation the wheat that was put in the best and in the most farmer like manner, last fall, suffered the most from the winter freezing; while that which was just hogged in any old way now makes the best showing.

Col. Funston is evidently not a believer in the theory that the war in the Philippines will be but of brief duration. In a recent letter he says: "The worst of it is that the end is not yet, and many a Kansas home will be darkened before we see the end of this sorry business. That is the sad distressing part of it."

At the city school board meeting, Monday night, W. R. Bunting was elected president of the board. Geo. Caraway Vice President, and Chas. E. Dodge re-elected secretary of the board. Prof. Warren Baker was re-elected superintendent of the city schools for the ensuing year.

Tom Leftwich, of the Eagle Optic fell upon a defective sidewalk, at Larned, and injured himself, and has now commenced suit against the city for \$5,000 damages. Larned is a "dry" town, you know, and supposed to have no defective sidewalks.

I have received my spring and summer suitings and trousseings. Please call examine and get prices as I can make you as cheap suit as any tailor.

DIFFENBACHER THE TAILOR.

A Missouri girl punched both eyes out of a tramp's head with her parasol because he tried to hug her, says an exchange. The Missouri girls, like all other people, doubtless enjoy being humbugged, but they draw the line when it comes to being humbugged.
