CITIZENS' FAIR MEETING.

Resolved, Owing to Late Date, to Hold no Fair This Year.

After the meeting of the Commercial Club Monday evening, a citizens meeting was held for the purpose of discussing the fair situation. Expressions were called for from those present, but not much was elicited, and after some discussion it was decided for the reason mainly that it was so late now to prepare a fair for this season's dates as allotted to us, that we hold no fair this year, which seen to meet the approval of those present.

A harvest home picnic, or a local race meet was discussed to some extent, but without definite action. For various reasons we believe that the action taken at the meeting was the best thing. After a vacation of a year it is very likely that more interest will be shown in the project, otherwise there is no use taking up any person's time with the matter.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out, nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all these depressing symptoms. The Restorative of course wont bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching the "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Frank Porter.

Surprised. Sunday afternoon about 2:30 quite a number of friends of Mr. and Mrs. Ira Hogue gathered at their home with well filled baskets to carry out a very successful surprise. DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better by reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening perine "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

AN AUTOMOBILE ACCIDENT.

Mrs. Ben Hughes is Run Down By a Machine. Not Seriously Injured.

What might have been a very bad accident occurred at the corner of Forest Avenue and Main street Saturday evening about six o'clock. As usual in cases of this kind there are several stories afloat, and not having been an eye witness, we have endeavored to sift the various stories and get the facts as near as possible.

Davidson, recently located here, was coming up Main street in his auto. He claims, and the eye witnesses generally confirm the claim, that he was traveling at an ordinary gait, if anything a little slower. Just as he turned the corner into Forest, Mrs. Ben Hughes, and her four year old son, were coming across the street. The boy was several feet behind his mother. Mrs. Hughes got across, saw the auto, and turned back to get the boy out of the way, and as she turned to recross the street with the boy the auto was upon her and knocked her down, passing lengthwise over her body, neither of the wheels touching her, but the gearing of the machine bruising her head up considerably. The boy was thrown to one side and escaped with slight bruises. Just how severe the lady's injuries were no one at the time knew, but many thought she was fatally hurt. Dr. Morrison is attending her, and informed us this afternoon that she was sitting up, and that while her injuries were quite painful, they were not so very severe.

Dr. Davidson's statement is to the effect that he was running slow, sound the usual alarm, and did all he could in operating the car to prevent the accident, and this is the general statement of eye witnesses and if any person ever deplored anything, he certainly deplores this incident. He has only been in the city a very short time, and is making friends with our people rapidly. We have had no personal interview with Mrs. Hughes.

It is at best a deplorable event, and one that we hope will speedily pass from the recollection of the participants. From present indications Mrs. Hughes will be well in a reasonable time, and we trust that no more accidents will happen. We are sincerely sorry, first that the lady was injured

COMFORTING WORDS

Many a Great Bend Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Great Bend readers.

Somuel Keyser, retired, living in western part of McCracken, Kansas, says: "My kidneys caused me considerable annoyance for several years. Any exposure to damp or cold weather would cause a dull pain through the small of my back, and for several days, I could not straighten. The kidney secretions acted entirely to free one day, and the next just the reverse. Doan's kidney pills were finally brought to my attention, and I began using them. The relief I obtained from them was wonderful. The pain left my back, and the kidney secretions became regular in action. My experience with Doan's Kidney Pills proves them to be an exceptional remedy for kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the onset stage—they break or hold off these early colds. That's surely better. That's why they are called Preventics. Preventics is Little Candy Cold Cure. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Preventics may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day, Henna probably has Preventics' greatest efficiency. Hold it close for the pocket, also in the boxes of Preventics.
