Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

PERFECTION
SMOKELESS
OIL HEATER
Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Desires Everywhere. If not at yours, write for description circular to the nearest agency of the
