Late Monday evening one of the roomers at the San Jose rooming house smelled smoke and upon investigation found that the Thomas Grocery was on fire. An alarm soon brought the fire department to the scene and with the chemical engine, short work was made of the blaze. The fire apparently started among a number of packages of Post Toasties on a shelf against the north side of the store and considerable of the stock was damaged and some damage was done to the building. The loss to both stock and building were covered by insurance, but has not been adjusted yet.

Sunday morning the Church of Christ closed a whirlwind campaign in which \$800 was put up in less than a week to meet a number of expenses outside the current business. There had been expenditures for sewer connections, insurance, painting and increasing the heating plant, besides a few old accounts. All of the ordinary running expenses are met regularly. The campaign began Tuesday morning and ended with the Sunday morning service. The last \$150 was the easiest and quickest subscribed, the members responding to the call in the characteristic Hoisington way.

J. F. Stoskopf had visions of \$1.50 wheat about the time he threshed and, acting on the thought, built a granary on one of his farms and stored 2600 bushels in the said granary. One side of the granary had burst out and now he has teams busy hauling the wheat to town for less than 90c. He refused to haul it when the market was over \$1.00, but such is the experience of the wheat raiser.

LET THERE BE LIGHT.

There is to be no more darkness for Claflin. E. R. Ruch has just installed a new storage battery large enough to furnish light at the usual voltage for the whole town. There will be a twenty-four hour service from now on. No more bruised toes, tempers that get beyond control or improper words spoken for the children to hear when a man gets up now at night to get a drink for baby or drive the cows from the yard. All that is necessary is to turn a switch by the bedside and the room will be flooded with light.

Claflin small? Yes, but she is keeping pace with the larger towns. Cement sidewalks all over the town, one of the prettiest opera houses in western Kansas a new modern school house that is the pride of the community and now a twenty-four hour electric light service. Truly, Claflin is a fine place in which to live.—Claflin Clarion.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
