

LOCAL MATTERS.

Let us celebrate. Mixed paints at Scott's. Fresh cider at Sprout's. Fishing tackle at Scott's.

Arnold will trade harness for a good cow. Gray will pay cash for some nice chickens. Tennessee sorghum at Kingsley & Wharton's.

Mr. Marshall has had a porch added to his residence. You can get any kind of a saddle you want at Arnolds.

Paints at Scott's. A new crate of queensware just opened at Welch's. Arnold keeps a full line of Swinney and Norman collars.

The best place to buy shades is at S. H. Patterson & Co's. St. Patrick's Mills, the great Irish cathartic always physic.

Seed buckwheat, eastern grown, for sale by Waters & Thayer. Get our prices on wall paper before buying. Goodhue & Evans.

Finest lot of bottled pickles in the city at Kingsley & Wharton's. Hammocks, all kinds, all sizes, all prices, at Goodhue & Evans.

Sewing machine needles, oil and supplies at S. H. Patterson & Co's. The best ham for the least money at Cowan, Ausherman & Norris.

Chamberlain's Cough Remedy cures the most obstinate coughs. Try it! The Professional Breeder's Hog Remedy for sale by Goodhue & Evans.

An elegant line of ladies and children's slippers just opened at Colborn's. Let us celebrate. The county expects us to and we cannot afford not to.

Cowan, Ausherman & Norris pay highest market price for produce of all kinds. Fine assortment of shoes for ladies and gentlemen just opened at Colborn's.

The Kansas Farmer this week presents a very complete report of the condition of crops throughout the State, and it makes an excellent showing.

Dry weather has delayed early vegetation and interfered somewhat with the germination of seed, but about the middle of April copious rains fell in every county so that now wheat is growing vigorously.

Young corn covers the ground well, meadows are green and cattle are living on new prairie grass. The acreage of the wheat is small, but the prospect for wheat is growing very good.

The presence of chinch bugs in some localities is discouraging, but they are not at all general. Average crops are greatly increased over former years and corn will be immense.

Stock is in good health; and wintered on pasture in fair condition. The fruit prospect, even for peaches is unusually encouraging. The report comes nearly every county direct from farmers themselves.

Immigration continues very large and railroads are building or projected in the midst of the counties. At the annual meeting of the Building and Loan Association last Monday evening, the following directors were elected for the ensuing year.

E. L. Marsh; J. W. Coutant, D. C. Wood, H. Waters, C. E. Merwin, W. D. Scott, H. A. Ewing, R. W. Duffy, W. A. Scott. The Board organized by the election of the following officers: President, E. L. Marsh; vice-president, J. W. Coutant; treasurer, Geo. A. Bowles; secretary, C. E. Merwin; Attorney, H. A. Ewing.

The following were elected Examining Committee: D. C. Wood, H. Waters, W. A. Scott, Ewing, Merwin, and Coutant were appointed a committee to revise by-laws. Bill of R. W. Duffy for services as secretary and postage and express, \$16.00, allowed. Report of auditing committee approved. \$200 was loaned to W. A. Scott of 65% premium.

If the Leaguers had taken the REGISTER and its advice all these years, instead of boycotting and abusing it, they would be better off to-day. When the odd sections decision came this paper told the settlers that the jig was up and that they had better buy their lands while there was yet time.

Instead of doing this many of them spent their time swearing at the Supreme Court, trying to convince themselves that they could get into the courts again, and declaring that the whole thing was a mistake, until other parties had bought their lands and they were obliged to pay a higher price for them or else move off and lose their improvements. It leaves some or them in a bad box, but they have only themselves to blame for it.

And we confess we cannot stir up much sympathy for them. We understand that McCook Post after discussing the matter, have concluded not to undertake the management of a Fourth of July celebration. While we are very sorry to make this announcement, yet there is no time for regrets.

Iola must have a celebration this year, and preparations ought to be commenced at once. The principal attraction of every celebration is or ought to be, the orator; and all the good speakers available will be engaged unless we bestir ourselves. Why cannot the city council take the matter in hand at its next meeting and appoint an executive committee from among the business men to go a-rod and make all the necessary arrangements? If this will not do let a public meeting be called. It is of vast importance that it be done.

Dry paints at Scott's. J. I. C. yeast at Sprout's. The roses have come again. New spring goods at Rodman's.

20 pounds rice for 95 cts. at Sprout's. New gloves and mitts at Rodman's. We have a few houses to rent. Bostwick & Co. New Orleans molasses at Kingsley & Wharton's.

Good Japan tea at 25 cents a pound at Klausmann's. See those victor finish single harness at Arnolds. 14 pounds granulated sugar for 95 cents at Sprout's.

Bostwick & Co., take the lead in sales of real estate. Arnold has National Harness oil, the best in the world. Harnes 12 cents a pound at Cowan, Ausherman & Norris.

Take your produce to Welch's and get the best price for it. It will help our boom to have a celebration. Let us celebrate. Get our prices on wall paper before buying. Goodhue & Evans.

It is only two months till the Fourth of July. We must celebrate. Gillihan has a large stock of mixed paints which he is selling very low. House of two rooms, near Baptist church, for rent. Wm. Buchanan.

Copies of this paper may always be found on sale at the P. O. Book store. Let us celebrate. If it rains we can entertain a thousand people in the Carriage Works. People sometimes quit taking the REGISTER, but mighty few of them ever quit reading it.

Large premiums are offered for seats in the Opera House, to-night. Where are the speculators? Stock of harness, saddlery, tools &c., with a splendid run of custom, to trade for cattle. Bostwick & Co. Cummings & Jones have a business building with residence above, to rent. Also have farms to rent.

Union Stock Yards Hog Remedy for sale by Goodhue & Evans. When you want the best gasoline stove in the world buy the Quick Meal sold by J. J. Casmire & Co. E. J. Daughters was in Iola Monday. We understand he bought some dirt over there.—Bronson Pilot.

Parties having property for sale or adjoining the city may find purchasers by leaving it with Bostwick & Co. The regular monthly meeting of the W. C. T. U., will be held at the M. E. Church, Friday 13, inst. at 3 o'clock p. m. Patterson & Davies have a new advertisement on our last page. There are not many words in it but it says a good deal.

If you want to buy a new watch or clock, or have your old one repaired, go to Leffer. He warrants his goods and his work. That display of baby carriages at Patterson & Co's. is worth going to look at whether you have any use for a perambulator or not. For books and stationery it will pay you to go to Allen's, as he makes that his exclusive business, and can do better by you than anywhere else.

The south half of the Carriage Works is about ready for occupancy, and the machinery will probably be moved and put in place next week. If you want a carpet rocker of whatever style, size or price, you cannot help being suited at Patterson & Co's. They have a whole room full of them. For the next 60 days I will give an extra discount on all grades of wall paper. It will pay you to see my stock and get prices before buying. A. O. Allen. When you want to buy groceries it will pay you to go to Jacobs' North Side Grocery. His stock is fresh and complete and his prices as low as the lowest. The hard wind of Sunday created something of a panic at the Baptist church and the congregation had to be dismissed before the services were concluded. For salmon, oysters, corned beef, sardines, lunch tongue, roast beef, deviled ham, deviled tongue and all kinds of hot weather meats, go to Kingsley & Wharton's. The show Tuesday evening had a fair audience and a very delightful one to judge from the hilarity that overflowed from the hall and swept down into the streets. When you want good groceries at bed rock prices call at the Star Grocery House of Kingsley & Wharton, and you will find that you can save money by buying of them. H. D. Smith was in town Tuesday and said he was thinking of bringing the Inter-State to Iola. The more the merrier. If the Inter-State can stand it we guess the rest of us can. The Treasurer's Statement which we publish this week shows the county's finances to be in a healthy condition. We are not running behind neither are we willing up; a useless surplus. It is well. I will duplicate and allow a discount on any prices made by any reliable firm on all heavy machinery, such as engines, boilers, fittings, etc. Can always give figures on second hand machinery. A. H. Beck. If you have friends in the east whom you would like to have locate here, get them to visit you during this or the coming month. Kansas is in her glory now and he would be hard to please indeed who could look upon her beauty with an indifferent eye. Judge Leander Stillwell, at Osage Mission on the 30th ult., sentenced Morgan K. Sulpe to twenty-one years in the penitentiary for the seduction of a 16-year old girl. Judge Stillwell should be appointed circuit judge to go around the State and try such cases.—Newton Republican. The dance at the new Carriage Works Tuesday night was made the occasion of a general good time, old and young to the number of nearly two hundred being present. Most of them, of course, were there as spectators, but every body seemed to enjoy it and nothing occurred to mar the pleasure of the occasion. Judge Arnold says that if the marriage business does not take a boom pretty soon he will have to go to work on the streets to keep up expenses. Only two licenses were issued during the entire month of April. They were given to Harry T. Lanterman and Sarah Eda Kraut, and W. H. Pike and Susie Frost.

At a meeting of the Gas and Coal Company last Tuesday the following directors were elected for the ensuing year: H. L. Henderson, Geo. A. Bowles, J. W. Coutant, W. H. Richards, W. M. Knapp, W. H. McClure, A. W. Beck. Better selections could not have been made and the Company may be sure that its interests will be zealously guarded.

We are glad to note among the sales reported by the real estate agents, a considerable amount of farm property. In nearly every instance this is land held by non residents, and its sale denotes that men of means have become permanent citizens of the county, who are here to help build it up by making themselves homes.

The High School graduating class will have an inspiring audience to-night as every chair that can possibly be crowded into the Opera House has been reserved. It will be little use for any one to go who has not procured a reserved seat, as there is little standing room left and it will command a high premium. We had the pleasure of escorting L. B. Kinne and W. H. Wyckoff of Moran, through the new Carriage Works last Tuesday. They were surprised to find such magnificent buildings and spoke in high praise of the enterprise of the men whose capital and public spirit had effected the transformation.

The fact that McClure Brothers, in order to consolidate their stores, bring their Eldorado stock here instead of taking their Iola stock over there, certainly speaks well for Iola. Eldorado is a town of near 5,000 people, yet they bring their goods here because trade is better here than there. Our real estate agents report less activity in city property this week but numerous sales of farms. This is as it should be. Get the country filled up with men of means and energy and there will be no trouble about the city. Captain Stover and the "Scolopticon" and the Iola orchestra went to Hume last Friday evening to assist the W. R. C. entertainment. The Humboldt people were much pleased with the exhibition and the music. The Live Hardware is changing hands this week, the stock having been purchased by Mr. C. M. Boyd, of Buffalo, Kansas. Mr. Ewart the retiring proprietor, will continue to make Iola his home. We are glad that for once we do not have to urge people to go to the Opera House. Every seat the house will hold is already taken for the Commencement exercises this evening.

PERSONAL. T. S. Slover was in Kansas City the first of the week. Hon. N. F. Acres was at home the first of the week. Mr. and Mrs. C. E. Benton returned last Friday from their visit to Illinois. John Gants, the Leland host, has gone to California on a pleasure trip. Clarence Norton was in Moran Tuesday and made the REGISTER a pleasant call. Miss Jennie Worst, of Coal Hill, Arkansas, is visiting among her many Iola friends this week. Mr. Samuel Scott, of Chanute, was in town the first of the week to see his brother, Harmon, who is seriously ill. S. H. Patterson and his brother and sister-in-law went to Ohio last Friday, called there by the serious illness of their mother. Father Brown, who has been living with relatives in Odessa, Mo., for some months past, is here on a visit to his daughter, Mrs. Whitney. Mr. A. E. Sanderson and family started yesterday for Meade county where they will settle on a claim. They went overland and took about 60 head of stock with them. C. Schlessmayer returned Wednesday from California, where he has been for three months past. He likes California but he says Kansas is good enough for him and that it will take just twice as much to buy his property in Iola now as he asked for it last fall. He reports the Iola colony at Pasadena all doing well.

A Good Tree Wash. Kansas Farmer. A good tree wash is made of sulphur 4 pounds, 1 peck of lime slaked with hot water, old soap suds and 100,000 bolts of fine hot water soda. Mix the sulphur and half gallon crude carbolic acid. For summer wash leave out the gas tar and add one gallon of soft soap. For winter wash apply in May. It is said to be a good protection against borers, if used the summer, and against rabbits and mice in the late fall. A Missouri farmer who uses this wash says a man can wash from 200 to 300 trees in a day with a 40-cent flat paint brush.

The Poultry Yard. [Compiled by Clarence Norton, Moran, Kansas, an experienced breeder, actively engaged in the business.] We wish to correct two errors in last week's issue. When speaking of the weight of turkey poulters at Thanksgiving, we meant them to weigh 18 pounds instead of 8 pounds, and in the note about breaking up setters the word "feed" is left out and makes it read rather queer. It should read "feed especially for egg production" etc. Some weeks ago we offered a prize to the boy or girl who wrote us the best letter about the fowls about their home, and as the time is now up we publish the following as THE PRIZE LETTER.

Mr. Norton—I thought I would tell you about our fowls and try and get that sitting of Plymouth Rock eggs. In the first place, we have a good hen-house, 10x12, with slatted roof, and with door in north end and window and door in south end. There are three tiers of nest boxes on the west side and a place on the east side for little chickens. The old fowls roost on perches about thirty inches high and all of the same height. We have screens to shut up the house at night and this allows free ventilation. We have seventy good Plymouth Rock hens and four cocks one and two years old, and two hundred and thirty chicks, and thirteen hens setting. We water our fowls in a milk pan three times a day. I feed the chickens at eight times a day, and give the smallest ones hard boiled eggs, and the older ones, mash stirred until very thick. We do not use any coops and depend on our dog to keep hawks away in daytime and the hen-house at night. We break up setters by putting them in a large box and feeding and watering them every day. We set our hens on thirteen eggs each, and at 4 o'clock every day let them out to feed and water and when done, shut them up in their nests. Every week we dust sulphur over them and sprinkle our eggs with warm water sometimes. I can not tell you how much white-washing and cleaning fowls in plenty have to be cleaned every day and by the way, they are not bothered with lice. We use parts of carbolic acid. Our hens wear their chicks while very young sometimes. I always read the Poultry Yard in the Register and like it just splendid. I am just thirteen years old. JOHN H. TRICKER. Lathrop, Kans., April 20th, 1887.

The next best letter was written by Ida Howland, of Carlyle. Drunkenness or Liquor Habit can be Cured by administering Dr. Haines' Golden Specific.
