Iola people are mighty sorry to see the family leave here, but are hopeful that in due time they will return. The Missouri Pacific railway had a pile driver at work on the culvert in the west part of town last week. Nails were driven so that the culvert was enlarged. This action was taken in response to an order from the city council some time ago that the bridge must be enlarged to enable the water in Moon Creek to escape more freely. Henderson & Powell have three ears of the bronze corn raised by Mr. E. Brandenburg from seed taken from an old Indian mound. The corn is a bronze color, full regular ears, deep kernels and yielded 100 bushels to the acre. The proposition is that it is nearly as indigenous a species for this section as any kind of corn and therefore excellently well adapted to Kansas. The ears grow, two on a stalk, high in the air. Wm. Follenwider, who went to Parsons about a year ago because he couldn't find a home in Iola to live in, returned a few days ago and found conditions exactly the same as when he left. The other evening he received a telegram "Come at once," and took the 2:52 train for Pittsburg. He is full of malaria, due he says to long rains with wet clothing, blankets and everything. He is thin and yellow, and appears to be in considerable need of a stay in warm, sunny Kansas.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy. This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by Campbell & Burrell.

Mr. and Mrs. Frank Smith left Sunday for a month's visit in Maryland and the east. Frank said he would visit his old home, Philadelphia, Washington and just loaf hard for four long weeks. Mrs. Oscar Foust and Mr. and Mrs. John Foust started Tuesday to Pennsylvania for a visit of several weeks at the old family home. Mrs. Oscar Foust has been in poor health for some time and her friends hope the change and rest will fully restore her. The Messrs. Lanyon made an exception in favor of Mr. and Mrs. Martin Vargo and let them have one of their new houses in LaHarpe. Subscription papers raised money enough to start them to house keeping and they will not suffer much from the loss of their household effects. The key to health is in the kidneys and liver. Lanyon, Jr., whose family resides in Pittsburg, will move here and build if he can sell his handsome Pittsburg residence. Topeka Capital: The Iola REGISTER says that an ingenious citizen of that town, too poor to go to Kansas City to see the Carnival Crew, got up early in the morning, drove to the country, and was on deck when the cocks crew. And judging from reports out on Iola he might have remained in town and heard the popping of the corkscrew. Dame Nature is rubbing it in on Allen county in the matter of fruit trees this year. In the spring she adorned all the trees with a bloom that has seldom been equalled, and now, after the people have had about one cherry, one peach, and one apple around, the trees are blooming again. The apple and cherry trees are both in blossom and some people say that means a populistic fruit crop next year.
