A COWARDLY BRUTE.

Defeated by a Young Lady, He Calls to See Her and Baselessly Murders Her in the Presence of the Family.

ST. AUGUSTINE, Fla., Oct. 1.—About noon yesterday Mrs. Bernard Joseph and Miss Mamie, wife and daughter of a merchant, and Mrs. W. D. Allen and her baby were sitting in the hallway of the Joseph mansion, when suddenly Alexander Campbell, rejected suitor of the girl, entered without knocking.

Mrs. Joseph, Mrs. Allen and a colored servant endeavored by frantic appeals to Campbell to save the girl, but he broke away from them and fired at her, the first shot inflicting only a slight wound.

Mrs. Joseph was meanwhile running around to her front gate, screaming in terror and crying: "Don't kill Mamie." Their cries were unavailing, as the demon of jealousy possessed Campbell, and he continued, intent on the death of the victim, and as she faced him again he fired a second shot, missing her.

Then as the girl was trying to rise from the ground Campbell fired a third shot which passed through the heart of his victim. The pistol failed to respond to the fourth and fifth pulling of the trigger.

Campbell was arrested and carried to jail. Campbell is a native of Baltimore, Md., and has been here only a short time. An extra guard is at the jail to prevent lynching.

FOREIGN FAMINE.

An Appeal for the Starving in Ireland—Italy Also Suffering.

NEW YORK, Oct. 1.—The Sun publishes an appeal to the people of America for relief for the famine-stricken people of Ireland. The most trustworthy information from public and private sources in all parts of Ireland is, the paper says, that the complete failure of the potato crop makes another great famine in that most unfortunate of lands practically inevitable.

LONDON, Oct. 1.—Ireland is not the only country menaced with serious want. In Italy the Government has been informed by several prefects that there is serious apprehension of trouble in their provinces from the number of unemployed workmen, who live in the utmost misery.

The Perils of Youth.

How few have any material sympathy for youth at that period when "Standing with reluctant feet Where the brook and river meet."

They are urged forward by Nature's stern decree to assume the powers and duties of manhood and womanhood. And yet this is the most critical point in the voyage of human life. Then it is that the danger of a shattered nervous system reaches its crisis and ignorance seizes its opportunity to plant the seed of future ill-health and misery.

A GREAT mistake perhaps was made when Dr. Sherman named his great remedy Prickly Ash BITTERS; but it is presumed that at that time all remedies for the blood, etc., were called Bitters. Had he called it Prickly Ash "Regulator," "Curative," or almost anything but Bitters, it would have had superseded all other preparations of similar character.
