When Others Fail HOOD'S Sarsaparilla CURES

Three years ago my wife suffered with inflammation and soreness of the bowels, which a physician said was caused by a tumor, and that if his remedies did not help her, she would be unable to get relief. They failed to bring about satisfactory results. The tumor became larger, and finally she could only lay on one side at night. In February she had an attack of The Grip and in two weeks was reduced to a mere skeleton. The family physician did all he could and pronounced her incurable. When she completed taking the medicine he left for her, she decided to try Hood's Sarsaparilla. Its good effect was quickly noticeable. She is now taking the fifth bottle and all traces of the tumor have disappeared. She is Free from Pains and there is no soreness or swelling. She is now able to attend to her household duties. - TIMOTHY POWELL, Burke, Franklin Co., N. Y.
