

Fred Statley was recently accidentally killed by Tom Wall while gunning near Oswatoma. Both colored.

John Mileham, father of Frank Mileham, money order clerk in the Topeka post office, who was short in his accounts, paid the shortage and young Mileham's bondsmen were released from their obligation.

Returns from 75 counties of the late elections showed about an equal of gains and losses of county offices by republicans and opposition. The republicans showed a gain of 35 and the populists and opposition 30.

Mary Ellsworth, 64 years of age, living near Colwich, Sedgewick county, took her little grandchild in her arms the other day and jumped into a well. She was killed, but the child was rescued uninjured. The old lady was insane.

The new Western Theological seminary at Ateshon was formally opened a few days ago with highly interesting ceremonies. It is under the auspices of the general synod of the Evangelical Lutheran church of the United States.

The dead body of an unknown man, probably 50 years of age and poorly clad, was taken from the Kaw river west of Topeka the other day. There were no papers to indicate identity. It appeared to be a case of poverty and suicide.

Thomas C. Smith, local agent for the Rock Island road and American Express Co. at Dodge City, was recently arrested at Kansas City, Mo., on the charge of embezzling \$1,000 from the company. He is 26 years of age and married.

At Pittsburg the other day Mrs. John Edwards died from the effects of poisoning. She had been taking medicine for an ailment and through mistake got hold of a bottle of strychnine, some of which she took instead. She left a baby but a little over a month old.

The fruit growers of Wyandotte county now have upwards of 10,000 barrels of apples in cold storage. This is an experiment, and if successful hereafter apples will be stored in the fall instead of shipped, giving the growers instead of the speculators the benefit of the advance in price.

Mona McDonald, of the Oxford (Kan.) Register, was shot and killed by burglars whom she surprised while they were attempting to rob her father's house in Chicago several nights ago. Young McDonald was visiting his father in Chicago and upon entering the house alone one evening found the burglars at work. One of them shot him through the head. The men escaped.

There were six legislative vacancies filled at the late election, four senators and two members of the house. All were secured by the republicans. Senators Dennison (pop.) and O'Hoy (dem.) who resigned, and Senator Thayer (rep.), deceased, have been succeeded by Messrs. Richardson, Gordon and Bowersock, respectively, and Representatives Schlyer and Cole, republicans.

The east portion of Ryan & Richardson's cold storage plant at Leavenworth collapsed the other morning, wrecking the engine and boiler rooms damaging seriously the cold storage and ice apparatus and piling up hundreds of barrels of choice apples in a crushed and broken manner. The entire warehouse contained 50,000 barrels of apples. About 10,000 barrels were shaken up and hundreds ruined.

The committee appointed by the legislature to examine the permanent school fund of the state has made its report to Gov. Morrill. The report shows that out of \$9,000,000 in bonds held by this fund, \$283,903 are regarded as of doubtful value or worthless. They are bonds on which the interest has not been paid. These bonds are: Scott county bonds, \$142,000; Lawrence city university bonds \$100,000; Cimarron city bonds, \$15,000; Hamilton county bonds, \$10,000; Kearney county bonds, \$6,300; and Garfield county school district bonds, \$763.

According to the Topeka Capital that city was somewhat excited recently by the discovery of government post office inspectors that Frank Mileham, who had charge of the money order department in the post office at that city, was short \$3,313. Mileham had been employed in the post office for fourteen years and was universally respected and beloved. He was immediately suspended by the postmaster. Investigation showed that a clerk named Ogee was in collusion with Mileham. The accused admitted the shortage and said the money had been used in caring for two race horses.

In the two cases brought by Senator William Rogers against Gov. Morrill and O. L. Moore, to recover his position as a member of the board of regents of the state university, the supreme court recently decided against Rogers. The first was an original proceeding in mandamus to compel the governor to rescind his order removing Mr. Rogers in accordance with the report of the legislative committee which investigated the charges filed against Rogers, and the second was quo warranto proceedings instituted by Mr. Rogers against O. L. Moore, who was appointed to succeed Rogers. In both cases Chief Justice Martin delivered the opinion in favor of defendants. Associate Justice Allen dissented.

A disconnected part of a Santa Fe local freight train ran into an extra freight near Girard the other night, smashing a coach and five cars. Five persons were injured, one probably fatally.

C. F. Madras, an aged citizen, was found dead in an outhouse at Belleville the other morning. He had just returned from Colorado, where he went seeking health.

Shawnee county furnished a general surprise on election day by rolling up a majority for Bob Kepley, defeating Burdage, the regular republican nominee. Topeka gave Kepley 799 majority.

Twenty divorce suits were filed in the district court at Topeka from September 1 to November 6.

Secretary Bristow, of the republican central committee, estimates Judge Martin's majority for chief justice at 60,000.

The coal inspector at Topeka threatens to publish the names of all dealers in the city who furnish short weight.

It is stated that the strike at the Leavenworth coal mines has been settled amicably.

John Jenkins was recently convicted at Wichita of violating the prohibitory law.

THE SULTAN DELAYS.

An Answer Which Means Nothing Made to Diplomats—Immediate Action Likely. CONSTANTINOPLE, Nov. 13.—The Porte, replying to the identical notes of the ambassadors of Germany, Austria and Italy sent Sunday, simply said that information regarding the scheme for reforms in Armenia would be forwarded to the representatives of the powers "without delay." This means that these three ambassadors, at least, have obtained no satisfaction at all. It is not yet known if the notes of the ambassadors of Great Britain, Russia and France have been replied to, but it is presumed that they were also assured that their requests for information regarding the proposed reforms would be complied with "without delay."

It was stated in European official circles here that as a result of additional exchange of views between the powers through their representatives here and at the different capitals, there was reason to believe that a joint course of action involving a display of naval, and possibly military, force had been decided upon to restore order in Armenia, recent events having clearly demonstrated that the sultan had no intention of really carrying out the scheme for reform. It is believed that the sultan will not be allowed to trifle with the ambassadors many days longer, and sensational news is expected at any moment.

DEADLY FLAMES.

Mrs. Moreau, Once of Chicago, Burned to Death in Paris. CHICAGO, Nov. 13.—Mrs. Nina Moreau, wife of M. George Moreau, formerly a popular society woman of Chicago, was burned to death at her residence in Paris early yesterday morning. She was, when she lived here, Miss Nina Warren, the accomplished pianist, and was a welcome figure at many of the social functions of Chicago during her residence here. M. Moreau was on his way home from New York at the time, and had arrived at Havre on the steamer Bourgoigne only a few hours after her death.

Mrs. Moreau had fallen asleep while reading just before retiring and tipped over a lamp, and set fire to her clothing. She was alone at the time. When help arrived in response to her screams she had been fatally burned. She was in her 39th year, and had been married about six years. She was noted in the social circles of Chicago for her beauty and her exceptional musical talent. She was born in St. Paul, Minn. M. Moreau is a civil engineer, with large mining interests in Mexico.

TO ESCAPE HANGING.

Montana Convicts Take Morphine Rather Than suffer the Death Penalty. HELENA, Mont., Nov. 13.—Sheriff Jurgens has discovered a plot among the prisoners confined in the county jail, charged with murder, to defeat the ends of justice by committing suicide. By some means, as yet unknown, they had gained possession of enough morphine to kill a score of people. Eugene Stanley was first to kill himself. He died the day he was to have been taken to the penitentiary for life. Yesterday when Bill Gay was found guilty of murder in the first degree, charged with killing Deputy Sheriff Will Mackie, his cell was searched and morphine found. The plot was then disclosed by the prisoner.

PETER MAHER'S CHALLENGE.

The Irish Fugitive Wants to Fight Any Man on Earth. NEW YORK, Nov. 13.—J. J. Quinn, the manager of Peter Maher, who knocked out O'Donnell so readily Monday night, made a statement yesterday in behalf of the fighter. He said: "Maher challenges any man in the world to fight for the championship of the ring, on the terms that the stakes so high that no one except a man with 3,000,000 acres behind him can accept. Maher will fight for \$5,000 a side, in public or private, and he will go any place to do battle, South Africa not barred. Peter claims that he has as much right to the title of champion as any one man, and he is particularly anxious to meet Fitzsimmons."

THIRTY-ONE BURNED.

A School Building in West Indies Set on Fire and Many Children Incarcerated. GRANADA, West Indies, Nov. 13.—A school building here, in which 150 children were present, caught fire and before anything could be done the whole building was ablaze, and in spite of the people the building was destroyed. Thirty-one charred bodies, including the teacher, have so far been taken out. The fire is believed to be of incendiary origin, and two boys who had been severely punished by the teacher and suspended from school are believed to be the authors of the crime. They have been arrested, but so far have not confessed.

WALLER'S RELEASE.

Amnesty Likely to Be Extended to the ex-convict and Other Political Prisoners. WASHINGTON, Nov. 13.—There is a definite understanding among the attaches of the French legation that ex-convict Waller will be released before New Year's day. This, it is said, is part of the programme of the radical ministry in France, to extend amnesty to all political offenders. Waller's release will come, it is understood, as part of a general scheme of forgiveness and will be in no sense the result of any representations by the United States authorities.

CHAMPION CORBETT RETIRES.

He Sends the Belt to Maher, Whom He Offers to Back Against Fitzsimmons. DALLAS, Tex., Nov. 13.—William A. Brady to-day telegraphed to Dan A. Stuart for J. J. Corbett, saying: "Corbett surrenders championship belt to Maher and will back Maher for \$10,000 against Fitzsimmons." The telegram was forwarded to Stuart at El Paso, who this evening sent the following in reply to his Dallas representative: "Tell Brady that Corbett had better win the belt before he disposes of it."

Knights of Labor in Session.

WASHINGTON, Nov. 13.—The nineteenth annual convention of the general assembly of the Knights of Labor began here yesterday. The sessions will continue for about ten days, but all business transacted will be guarded with the utmost secrecy, not even Knights of Labor not delegates or alternates being allowed admission. General Master Workman Sovereign expresses himself as much encouraged by the present state of the order. He thinks its progress is more marked at present than ever before and that the increase of membership in the face of hard times is exceedingly gratifying.

ELECTION ECHOES.

The Result in the Several States Revised and Summarized. KANSAS CITY, Mo., Nov. 8.—The result of Tuesday's elections may be summed up as follows: In Kentucky republican claims and democratic concessions show that not only has the full republican state ticket been elected but that the completion of the legislature assures a republican successor to United States Senator Blackburn. Bradley's plurality for governor is from 16,000 to 17,000. In Pennsylvania complete returns from all but six counties in the state show a plurality for Haywood (with the vote in the five counties estimated) of 169,851, a republican gain of 34,705, as compared with 1893. In Nebraska the best indications are that Norval is elected by over 10,000. The vote of the administration or "sound money" wing of the democratic party is four-fifths of the entire party vote of the state, probably 25,000. This is a very surprising feature of the election.

In Maryland not only have the republicans elected their entire state and Baltimore city ticket, but have carried the legislature, which according to figures at hand now, will stand in the lower house 68 republicans and 24 democrats, and in the senate 15 democrats and 11 republicans. Lowndes (rep.) for governor carried the city of Baltimore by a plurality of over 15,000. His plurality in the state is about 16,000.

In New Jersey the republicans elected Griggs by a plurality of 26,960 over McGill. The legislature is republican on a joint ballot by 40 and 1 independent. In Utah returns from 215 precincts out of 320 give Wells, republican for governor, a plurality of 2,482, and Allen, republican for congress, a plurality of 1,072. The republicans have elected 10 senators, democrats 3, with 3 in doubt. The republicans elected 29 representatives, democrats 7, with 9 in doubt.

In Ohio Chairman Anderson conceded the state to the republicans by 90,000. Chairman Kurtz said Bassnell's plurality would not be less than 100,000. The vote for Coxy, populist, will be about 15,000 less than last year, when he polled 49,000. James R. Garfield, son of the late president, was elected state senator from the Twenty-fourth and Twenty-sixth districts by an enormous plurality.

In New York the total vote, unofficially compiled, gives Palmer, the candidate for secretary of state, at the head of the republican ticket, a total of 573,253, while his democratic opponent, King, polled 503,550, making the republican plurality 66,703. While this is, of course, a falling off from the phenomenal plurality of 136,103 given to Gov. Morton last year, it shows a large gain over Palmer's plurality of 24,484 in 1893, the last office year. Both branches of the state legislature will be republican by a majority of more than two to one. Although Tammany elected most of the assemblymen in the city, the republican ticket by the republicans in the state makes the total membership 102 republicans and 48 democrats, which with the present complexion of the senate gives a republican majority of 41 on joint ballot. Tammany carried New York city by about 25,000.

Iowa is republican this year by from 60,000 to 70,000 plurality. Returns from seventy-three out of ninety-nine counties show that Gen. Drake, republican candidate for governor, has gained 23,000 over the Jackson vote for governor in 1892. The general assembly is overwhelmingly republican, assuring the return of Senator Allison. In Massachusetts the corrected returns show that Gov. Greenhalge is re-elected by 63,444 plurality, which is 1,923 votes above his plurality last year. Municipal suffrage for women defeated by a majority estimated at over 75,000.

In Kansas the total vote will probably not reach more than 230,000. Chief Justice Martin received about 125,000 votes and a liberal estimate for Hilliday would be 65,000.

In Virginia, returns indicate that the democrats elected their candidates in fifteen of the twenty senatorial districts, and that the next senate will stand 34 democrats and 6 opposition. The anti-democrats elected probably 24 of the 100 members of the new house.

In Mississippi the latest returns give a democratic majority of from 25,000 to 30,000.

THE ARMENIAN QUESTION.

Comments of London Newspapers on the Ambassadors' Action in Constantinople. LONDON, Nov. 8.—Editorials in the morning papers dwell upon the gravity of the announcement from Rome that the powers have decided to take joint action in regard to Armenia. The Post (conservative) says: "The ambassadors incurred a terrible responsibility and have hinted a threat that means nothing less than the occupation of Turkey. Is England prepared to acquiesce?"

The Graphic says that it is reopening the eastern question with a vengeance. It leads to the Russian occupation of Armenia. The Daily News says: "It is the beginning of the end. The cabinet met yesterday and Lord Salisbury must necessarily have approved of this diplomatic stroke. Turkey is now within measurable distance of disruption and partition."

Almost One Hundred Thousand.

NEW YORK, Nov. 8.—Excepting in a few counties, where scattered districts are unreported, but in each of which close estimate is made, the semi-official returns of this state on the head of the ticket show: King, democrat, 501,959; Palmer, republican, 503,746. Palmer's plurality is 91,787.

Snow Puts Out Forest Fires.

BLACK RIVER FALLS, Wis., Nov. 8.—A snowstorm has been raging the entire morning and about 4 inches has fallen, being the first snowstorm of the season. The forest fires are completely quenched.

Death of a Multi-Millionaire.

SARATOGA, N. Y., Nov. 3.—George R. Sherman, of Port Henry, expired there suddenly with heart disease last night. He was a member of the firm of Sherman, White & Co., of that place, and was the richest iron man in northern New York, being worth \$10,000,000.

Shut Out of the White.

WASHINGTON, Nov. 8.—The post office department has issued a fraud order against the Biograph company, Mrs. Laura Porter, manager, of St. Louis, charged with running a concern to obtain money under false pretenses.

THE NIAGARA TROLLEY CAR.

Wild Hides That the Raging Torrent of the Cataract's Whirls. There are trolley lines and trolley lines, but the one that skirts the wild gorge through which the mighty waters of Niagara tumble and pour in a mad, unending race is probably the most unique, in its scenic attractions, of any in the world. The road has just been constructed on the American side after wholesale blasting of the noble cliffs in order to carve out the roadway. The road has its terminus at Lewiston, in the gorge below the cataract.

A long struggle with nature was necessary before the grades could be established. Parts of the canyon could not be surveyed until the engineers were lowered with ropes down the side of the precipice and within a few feet of the rapids. The cliffs on either side of the gorge are covered to a great height with broken rocks, which have fallen from above as the result of centuries of erosion. Some of these fragments are of enormous size. These masses, sloping rapidly to the river, are covered with a luxuriant growth of shrubs and trees. At the base of this heap, and in some cases carved out of the side wall of the canyon, lies the roadway. With every blast below there came an avalanche of rocks from above. This in turn had to be removed; in some instances a detour was necessary in order to avoid some of these enormous masses of limestone.

The road starts from the steel observation tower at the entrance to Prospect park, passes along the cliff, entering the gorge just south of the railroad bridge, down a grade of two hundred feet in one-fourth of a mile to the side of the whirlpool rapids. It is a magnificent sight to watch the rapids at any time, but no one can form an idea of the rapidity of this stream until he takes this remarkable journey on the trolley—a race between electricity and gravity, in which the stream rushes on with the speed of an express train.

For five miles the road winds along the river, often so close to the stream that the spray dashes against the car. At the whirlpool, where the pool makes a right angle, an enterprising undertaker has painted his business sign upon the rocks. It is hard to determine what use one would have for an undertaker if the car tumbled into the river at that point, for it is improbable that car or corpse would ever be seen again. The road is double-tracked and is provided throughout with guard rails. The electric power is generated by water obtained from the Niagara river. The trolley line represents, therefore, a portion of Niagara in harness.

It seems to be the desire of some one to invent a new sensation at Niagara every year. Usually some part of this picturesque region is sacrificed to accomplish this purpose. A few years ago the New York Central Railroad company blasted out a roadbed along the side of the lower gorge to Lewiston for their "observation train." Thousands of tons of rock were removed and great damage was done to the foliage. An old suspension bridge, now ruined, hangs across the lower end of the gorge, and it is a blot upon the scenery. One cantilever and two suspension bridges enable passengers to get the novel effect of viewing the cataract from midair, two hundred feet above the rapids. A half dozen ugly elevators spoil some of the most picturesque points in the gorge. On the Canadian line a trolley line extends along the river from Chippewa to Queenstown, through the Queen Victoria park. The waste water and refuse from a score of mills pour into the canyon, and one concern has its plant located in the gorge itself. Everywhere outside the reservation park the commercial idea of dominant and beauty is sacrificed to utility.—N. Y. World.

THE GENERAL MARKET.

Table listing market prices for various commodities including CATTLE, HOGS, WHEAT, CORN, OATS, RYE, FLOUR, HAY, BUTTER, EGGS, and POTATOES. Includes sub-sections for KANSAS CITY, ST. LOUIS, and CHICAGO.

Cultivating Bacteria.

To the uninitiated mind, it may smack of absurdity to say that at no distant day the bacteria of butter and cheese will be cultivated as we now cultivate any other commercial product. A writer on this subject says: "The fermentation of cream and cheese is already as much of an art as the fermentation of malt in the manufacture of beer. In the curing of tobacco the same activity is discovered, and the day is not far distant when commerce in highbred tobacco bacteria will be an established fact. In short, we may look forward to the day when the bacteria active in agriculture will be carefully cultivated, and the bacterial herd book will be found along with those of the Jersey cow and the Norman horse." On a par with this is the sterilization of products, which process is necessary before the thoroughbred bacteria is introduced.—N. Y. Ledger.

A Hearty Welcome.

To returning peace by day and tranquillity at night is extended by the risomous peasant who gives these blessings to Hostetter's Stomach Bitters. Don't delay the use of this fine analgesic for pain and purifier of the blood. In an instant beyond the point when the disease manifests itself, kidney trouble, dyspepsia, liver complaint, in grippe and irregularity of the bowels are relieved and cured by the Bitters.

THAT whiskey is fifteen years old. I know it because I've had it that long myself. The Colonel—"By jove! sir, you must be a man of phenomenal self-control."—Life.

SEVENTEEN THOUSAND DOLLARS is a high price to pay for a story, but that is what the publishers of The Century Magazine are said to have paid for the right to print the novel by Mrs. Humphry Ward which is announced in our advertising columns to-day.

A DEFINITION.—Anxious Versifier—"Do you pay for poetry, Mr. Jovel? sir, you must be a man of phenomenal self-control."—Life.
