IN MEMORY OF J. BARLEYCORN

Festive Cocktail Will be a Home-Made Luxury When the Old Lid Is Clamped On. Many Substitutes.

(By United Press.)
New York, March 24.—With the passing of "Old John Barleycorn," many and varied are the substitutes offered for something with a "kick in it." The humble raisin is coming into its own in the home-made mixing of the festive cocktail.

One W. S. Rogers, a sponsor for the "dissolved cocktail," is said to be organizing a company to make compressed cocktails in a laboratory in San Jose, Cal.
At no far distant date the third one will be able to take a ping out of his pocket, much the same as the village tobacco-chewer, whistle off a comfortable section, drop it into a tumblerful of water, stir it a bit, and drink to his heart's content. At least that's what the knowing ones are saying. Besides, they say there are other ways.

Special Private Stock.
Mix two pounds of hops, a peck of malt and five gallons of water. Steep for three or four hours. Then drain off water and put in keg. Cover the hops and malt with five gallons more water and heat, but don't boil. Dissolve in this two pounds of brown and three of white sugar. Allow to cool to 59 to 56 degrees and add three yeast cakes; put all in a barrel and let it stand for 36 hours. Then bring it up and set away for at least a week.

The Festive Cocktail.
A pound of raisins, a pound of brown sugar and a gallon of water make up the only necessary ingredients of a "gin-ratified" cocktail substitute, according to some. The concoction should be brought to a simmer, placed in a wooden vessel and allowed to "work" for 15 days.

Some "Kick Here."
Put two quarts of white corn in a keg of cider. Allow to ferment. The result is astounding and in keeping with the best traditions of Kentucky distillery products.

Just a Snifter.
Put two raisins in a bottle of near-beer. Let it sit a while.

It is remarkable how many banks have got into trouble the past 12 months on account of reckless management. There is one good thing to be said in favor of the state banking department, however, and that is it discovers the irregularities and mismanagements after the depositors have lost their money. MOTHERS!

should see that the whole family take at least three or four doses of thorough purifying, system-cleansing medicine this spring. Now is the time. The family will be healthier, happier and get along better if the blood is given a thorough purifying, the stomach and bowels cleaned out, and the germs of winter, accumulated in the system, driven away. Hulster's Rocky Mountain Tea is one of the very best and surest spring medicines to take. Get it and see the difference in the whole family. Their color will be better, they'll feel fine and be well and happy. Family Drug Store.—Adv.

JAP REQUEST FOR RACE EQUALITY

Senator Phelan Sends a Protest to American Delegates. Land and Marriage Domestic Questions.

San Francisco, March 24.—Pressing emphatic objection to the demand of the Japanese delegates to the peace conference at Paris for "race equality and just treatment," United States Senator James D. Phelan yesterday called the American peace delegates at Paris affirming his view that questions of immigration, naturalization, land ownership and marriage are domestic questions and therefore not to be treated in the league of nations constitution.

Senator Phelan's message follows: "Lansing, American Delegation Hotel Crillon, Paris:

"Any demarcation in constitution of 'race equality or just treatment' which may be construed to give jurisdiction to league over immigration, naturalization, elective franchise, and ownership and marriage should be avoided. An affirmative declaration that these are domestic questions should be made in consonance with established American policy, believe western senators and others will oppose any loophole by which oriental people will possess equality with white race in the United States. It is a vital question of self preservation.

"JAMES D. PHELAN."
Senator Phelan also sent all western governors and senators copies of his cablegram and suggested that in a similar manner they reinforce his plea.

SEATTLE STRIKE WITHOUT VIOLENCE

By Scott Nearing.
The capitalist press has been working overtime to discredit the workers of the northwest. They are "hold-the-viki," they belong to the "I. W. W.," they are "unruly," "rebellious," "dangerous," "un-American." For five days the workers of Seattle maintained a general strike and took charge of the city—stopping its industries, feeding it, and policing it. Tens of thousands of men were idle; the city was full of special police and soldiers, whose business it was to hunt for trouble. During the five days there was not one striker arrested; there was no riot; there was not even a fist-fight. The average number of arrests made in the city fell from 108 to 32. If the workers, in a time of abnormal strain and tension, can keep better order in the city than the masters keep in normal times, it would seem that they have demonstrated their fitness to take the job as a permanent responsibility.

BILLION DOLLARS COST OF REBUILDING RHEIMS

By Henry Wood (United Press Staff correspondent.)
Rheims, France, March 24.—(By Mail.)—The total cost for the reconstruction of Rheims, according to estimates just completed, is placed at five billion francs, or \$1,000,000,000. This is the figure of the indemnity which the Germans imposed on France at the end of the Franco-Prussian war and which they then considered sufficiently large to ruin France, commercially and industrially for years to come.

In spite of this terrific cost, due in part to the increased cost of building materials resulting from the war, Rheims is losing no time rising from its ruins. For the reconstruction of the city 20 complete plans have been submitted by leading architects of Paris, Rheims and other French cities. No one plan will be adopted but the city will pick out of each the features that seem the most desirable, and arrive at a final plan which will be approved by the city council. Amongst the details already decided upon are big, broad streets for the principal arteries; working men's quarters, with gardens, and three series of boulevards, like those of Paris and Brussels, forming complete circles, there being one inner circle of boulevards, then a middle circle and finally an outer circle.

It has also been decided that the buildings encircling the cathedral, nearly all of which are now in a complete state of demolition, will be cleared out entirely in order that the cathedral may occupy a vast open square where all of its beauty may be seen from any point.

EXTENDS HELPING HAND TO OUR BLIND SOLDIERS

(By United Press.)
Detroit, March 24.—Increasing numbers of blinded soldiers are finding employment in Detroit and other Michigan manufacturing plants through the success of William D. Dresden, himself blind, in demonstrating his contention that the sightless person is nearly normal. Dresden is employed by the Community union, which seeks to secure employment for the handicapped soldiers, to show manufacturers that the blind can, with a little training, do almost all factory work. He has worked in a number of plants and shown amazing quickness and accuracy in many branches of work. Here are some of the things this blind man has worked at with success: Tuned and rebuilt pianos, made and sold candy, planted and cultivated flowers and vegetables, raised chickens, engaged in carpentry work, cut corn and stacked it, plowed, played in an orchestra for several years and can use a typewriter, play the piano, trombone, cello and has mastered many other accomplishments.

THE BUTTE DAILY BULLETIN feels that the time has come to ask for funds to pay the expense of the three men standing trial at Helena for sedition. The Bulletin Publishing Company is hardly able to pay the expense of trial and even if it were it would not like to deny its thousands of readers the opportunity of showing that they are willing to donate for the defense of a free press. Many of our readers are unable to give anything to this fund—and we ask those not to, but if all subscribers who can will give a dollar we will have more than enough. All, of course, will not give, so give more than a dollar if you can. Show the A. C. M. that you can raise \$3,000 in 30 days.

Starting next week we may publish the daily receipts with the names, addresses and amounts of the donors. This will be added to each day and the amount to date published each day in this space. If you do not want your name used say so and we will use the name "stockholder" or "Bulletin booster." All together, now, let's go over the top once more for democracy. Make checks payable to the Bulletin Publishing Company.
