Odd Fellows by the hundreds gathered Saturday afternoon at 1:00 o'clock in St. George hall, Center-ville, for the opening exercises in connection with their observance of the centenary of the founding of the order in the United States. Beginning with the exemplification of the degrees at that hour every minute of the time until the conclusion of a dance at Columbia gardens was occupied with business sessions or entertainment. At 3:00 o'clock in the afternoon an entertainment for Odd Fellows, Rebekahs and their guests was held at the High school. The banquet began at 6:00 o'clock at the Butte grill and continued until 8:00 o'clock. The dance followed.

With the Editors

"THESE BE PLAIN WORDS, BILL." William Marion Reedy of Mirror fame has been talking out in Detroit. Here is what he said, according to the Detroit News:

Says Masses Awaken. "The great masses of common people in the world," said Reedy, "at last have come to realize what philosophers have known through the ages—that all government is either a nuisance or an iniquity. They are determined that if we are to have government that is equitable it must come from the people. They are tired of government from above, whether it descends from Olympus or Calvary. The group of governing supermen is played out. The war has abolished them."

President Wilson has promised us the league of nations will be a panacea. With I can't agree with him. The machinery of the league is defective because it does not provide a league of peoples. Delegates chosen by presidents and premiers are no security against future wars.

The president chants about the Monroe doctrine, but what good is that? It protects the nations of this continent against aggression by European nations, but not against aggression by the United States. The late Mexico franchise proves that.

Mr. Reedy conceded some good might come out of the war, but that good will not be effected by sending United States soldiers into Russia to crush the revolution there. Would Recognize Soviet. "It is no part of our duty to crush the Russians, and make them pay their debts to France and England. It is no part of our business to deride bolshevism. In fact, only the bolshevist tenor of President Wilson's speeches helped him get what little good he did get out of the peace conference. Bolshevism is nothing but the proposition that they who won't work shan't eat. And I think we all should recognize the soviet and give it a chance," he said.

Our protestations that we fought for self-determination of small nations will be flung back in our teeth unless we insist on the definite freedom of Ireland, he concluded.

RETURNING UNEARNED MONEY

(Seattle Union Record.) A shipyard worker in Pennsylvania recently was compelled by the court to return \$46.30 pay which he had drawn without earning it. Hereafter the shipyards are going to keep watch. It is announced that they draw money for work they have not performed. We wonder how far this precedent will extend. Will all men who draw any money without returning work for it be forced to return the money? Imagination grows dizzy at the thought!

THE MOONEY CASE

(The Call, London, Eng.) Notwithstanding the agitation for his release, poor Tom Mooney is still in gaol. After repeated protests and delays, the date of his execution was fixed for Dec. 13 last, the sentence being finally commuted to life imprisonment a week before that date. Last month a special national labor congress was held in Chicago, and no fewer than 1,182 bodies responding to the call on Mooney's behalf. The main resolution contained three cardinal propositions, namely: (1) remedial legislation in California; (2) appeal to congress and the president for federal intervention; (3) general strike on July 4, 1919. It is a great fight, and has gone on for two and a half years. If labor in the United States realized its power and acted on it, the fight would be over in 48 hours.

OVERLOOK \$200 CASH IN STEALING LIQUOR

Overlooking \$200 in cash concealed in a tobacco can, thieves who entered the home of Thomas Gaved, 427 North Washington street Saturday night during the absence of the family, made away with several bottles of whiskey and port wine, a woman's gold watch and chain and a diamond stickpin. The thieves presumably entered the house by means of a pass key.

CHANGES MADE

tary of the league of nations. It was also moved that Belgium, Brazil, Greece and Spain be represented on the council together with America, England, France and Japan, pending permanent organization.

(Special United Press Wire.) Washington, April 28.—The friends of President Wilson here expect him to speak out against the objectives of Japan in China. It is claimed that this action would bring the entire subject of the secret treaties before the peace conference. The question of "open diplomacy versus secret treaties would then be put squarely up to the conference for final decision."

It is authoritatively stated that President Wilson has again changed his plan of action and that he has decided to stay in Paris and fight the matter out, instead of leaving if his plans do not prevail.

On the eve of the meeting with the German delegate it is believed that the problem of collecting indemnities from Germany presents hitherto unforeseen difficulties.

ONNI TUOMI CASE

(Continued From Page One.) He has been a hard-working, estimable citizen of Butte for more than 10 years. He is an American citizen. He owns and runs a rooming house of 315 East Granite st.

He was an active Industrial Worker of the World. A strike was on in Butte. Word had gone out to the hired hounds of the A. C. M. that some money work should be done to intimidate the strikers. A raid on the L. W. W. hall was planned. Ed Morrissey was put in the lead of the band of gunmen, and the thing was pulled off in Morrissey's best manner. John Berkin personally abused this particular man, Onni Tuomi, and Berkin took a particular dislike to his victim and beat him with particular brutality; and, also, to make it all the harder for this particular worker to whom he took a particular dislike, John Berkin stated that Tuomi had a gun on his person and had attempted to draw it, but that he (the brave John Berkin) had been too quick for the little Finnish man and had knocked the latter down before he could achieve his murderous purpose. So stated John Berkin. And accordingly, Onni Tuomi was charged with carrying concealed weapons.

Mr. John Berkin, gunman, was applauded by the corporation press of Butte for his distinguished conduct in knocking the little Finn down and putting a dangerous revolutionist behind the bars. Onni-Tuomi and all Onni's friends and all the people in the hall at the time, that is, all but the A. C. M. gunmen, stoutly claimed Onni had no gun on his person and that he had made no motion to draw one.

This affair came off last September, while there was a strike on in Butte. All this time, Onni Tuomi, the respectable American citizen has been under the charge of carrying concealed weapons. Mr. John Berkin has contended that his life had been put in jeopardy by Onni, the armed revolutionist, last September when he arrested Onni in the L. W. W. hall.

The case came up in Lynch's court this morning. Gunmen in numbers assembled. There was Ed Morrissey, the stalwart leader of thugs, the chief of detectives of Butte. There was the brave and chivalrous John Berkin. There was J. F. Taylor, understudy to Berkin. There was James W. Steele, the special deputy, who on numerous instances has shown promise of advancing in his chosen profession. There were others less distinguished.

But the jurymen, who were called, to Attorney Nolan's questions, answered unhesitatingly, one after the other to the number of thirteen, that they entertained no prejudice against wobbles. It began to look dark for the gunman cause. What chance had they to prove before an honest, unprejudiced jury that this man had a gun on his person and had attempted to draw it when, as a matter of fact, he had had no gun and they all knew he had had no gun, and that Berkin's little fib about the gun had been only just a nice little joke on the Finnish working man, told by John Berkin to make John Berkin look bigger and braver to the public.

They began to weaken, those fine gunmen, those champions of law and order for Butte. Mr. Edward Morrissey, John Berkin and the rest.

"Perhaps they had better drop the case now before it went any further, before they would be obliged to get on the stand and swear before an honest, unprejudiced jury, to the lies that they had been peddling to the public."

Mr. Ed Morrissey stepped up and whispered to Rotering, deputy county attorney, in charge of the prosecution.

Mr. Ed Morrissey informed Mr. Rotering that the chief witness against Onni Tuomi, John Berkin, who had beat up Tuomi and had arrested Tuomi, could no longer identify Tuomi as the man whom he had arrested and beat up and from whom he had taken a gun. And so the brave gunmen of Butte desired to recede from the prosecution of Tuomi and desired to have Judge Lynch dismiss the charge and let him go free and utterly unpunished for the crime of carrying a gun which Berkin was now ready to admit Tuomi had not carried.

Judge Lynch was agreeable. The case was dismissed.

AIR BUSES NEXT

(By United Press.) London, April 10.—(By Mail.)—The big Handley-Page "aero-buses," which used to bomb the Rhine towns, are to be used for regular passenger service to the continent, as soon as the government embargo on private flying is raised. At present the planes are keeping in practice by carrying British officials backwards and forwards between London and the Paris peace conference, and no fewer than 740 passengers have already been transported safely.
