GOVERNMENT IS ON WRONG TRACK

Says "Ole" Hansen. Should Start Cemeteries Instead of Conferences. Would Rule By Rod of Iron.

Topoka, Kans., May 2.—In a Victory loan address before the Topoka chamber of commerce, Mayor Ole Hansen of Seattle denounced the policy pursued by the government towards anarchism and the I. W. W. as a "skim milk weak, vacillating and changeable" one and pronounced a warning of a "widespread, national effort to overthrow the government and society by violence."

He declared the government was "on the wrong track in starting conferences instead of cemeteries in dealing with the I. W. W. and in singling out brotherly love and turning loose these enemies of society."

As the revealed bomb plot in which he was one of the intended victims, the mayor said: "I trust Washington will buck up and clean up and either hang or incarcerate for life all the anarchists in the country. If the government doesn't clean up I will. I'll give up my mayorship and start through the country. We will hold meetings and have hanging places."

He declared he believed the I. W. W. was at the bottom of the late bomb plot. "The conspiracy to overthrow the government is widespread. It permeates every state in the union," he continued. "These men must be ruled by a rod of iron; kindness means weakness to them."

Concerning the pending I. W. W. convention, Mayor Hansen said: "Any mayor that will permit an I. W. W. meeting in his city should be recalled and banished from America. He is not an American."

SAFETY SMOKER SUCCESS. Members of the Safety and First Aid society were royally entertained last night at a smoker and athletic exhibition at the Army and Navy Y. M. C. A. A program of music and athletics and an address by John L. Boardman, eminent safety expert, featured the event.

Capital Has Heaviest Mail. The report of the postmaster of Washington shows that his city post office did more business during the fiscal year ended June 30, 1918, than all the post offices in any one of 26 states of the Union. The receipts for the year were more than \$3,000,000, and the states that produced a smaller amount of postal revenue were Arizona, Arkansas, Delaware, Florida, Idaho, Maine, Mississippi, Montana, New Hampshire, New Mexico, Nevada, North Dakota, Oregon, Rhode Island, South Carolina, South Dakota, Utah, Vermont, West Virginia and Wyoming. The total receipts were an increase of over 53 per cent over the previous fiscal year.—Utica Press.

PRILJA'S FATE GOES IN HANDS OF JURY TODAY

Policeman Becomes Angered at Questions of County Attorney. Is Disarmed in Courtroom.

With all the evidence in, instructions to the jury decided upon and the closing arguments by attorneys in progress, indications late today were that the fate of Officer Philip Prilja, charged with first degree assault for the shooting of Mike Burzan near the union depot last year, would be vested with the jury today.

During the trial yesterday, it developed on cross examination by County Attorney Jackson that Officer Prilja was armed. On demand of Deputy County Attorney Rotoring, Prilja was forced to turn his gun over to his attorney despite his protests. A number of witnesses were called by the state, two of whom were physicians who testified to having found two bad wounds on Burzan's head, where he had evidently been struck by blows from Prilja's gun, in addition to two bullet wounds in his legs. Prilja became angered at the question of the county attorney yesterday afternoon and in response to the question, "Why did you not make Burzan throw up his hands and take the gun away from him?" Prilja answered with asperity, "You want to make a good case of murder for yourself, I suppose." The answer was ordered stricken from the records by Judge Lynch.

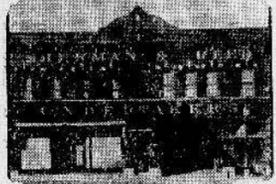

The burden of the state's efforts at the trial apparently was to prove that Prilja's treatment of the prisoner was unnecessarily brutal and uncalculated for, while Prilja attempted to prove that his shooting of the prisoner was done in self defense.

What You Are.

Never lose sight of the fact that what you do has a close, vital connection with what you are. You cannot do your best without growing better. You cannot give conscientious, painstaking attention to the most trivial task without having more reason to respect yourself. And, on the other hand, careless work, grinding work, work that is scrippled or slighted, means a corresponding loss of fitness.—Girl's Companion.

Because It Is Familiar.

If you had to travel a long distance to see the starry night sky, how we should envy the people who had money for the trip! The world is full of beauty on which we look with indifferent eyes just because it is familiar. Look about you as if you were seeing things for the first time and you will be astonished to discover how much beauty you can see, without even taking a street car.—Girl's Companion.

Edward's Best Thought.

Little Edward disliked to attend school, so one morning he thought he would play off sick. "What is the matter with you, Edward?" asked his mother. "Not knowing a whole vocabulary of ailments to select from, on the spur of the moment he replied: "Why, my teeth itch."

The testimony showed that the men were not gambling when arrested, but that the arresting officers thought they were getting ready to do so.
