Lee Crawford, American Born Celestial, Given 30 Days in Jail to Consider Error of His Ways.

According to the testimony of the officers, Crawford is a confirmed drug user, has never been known to work for his living since he has been a resident of Butte and is supported by the earnings of a woman he admitted came to Butte with him from Pocatello, Ida. Crawford has frequently been before the police court in the past.

MASS MEETING ENDORSES STRIKE

Big Parade Held. Representatives of Nearly Every Trade Union Attend the Meeting.

New York, May 1.—(By Mail.)—At a mass meeting to which 10,000 organized workers of New York city were present, a resolution which called for a general strike in three periods, five days duration each, was passed unanimously, amidst cheer and applause. The meeting was held in Madison Square Garden Thursday, May 1, and despite the pouring rain the garden was crowded.

After a few opening remarks by Edward I. Hannah, president of the Central Federated union, who acted as chairman of the mass meeting, Anton Johannson of Chicago read the resolution and explained it. He was followed by Dr. Judah Magnes and Dudley Field Malone both of whom in a very eloquent way outlined the many attempts which had been made by the Mooney defense to obtain justice through legal procedure. Mr. Malone said: "There are two ways of getting justice, one is by political action, the other by economic inaction. We have failed on the political field, our only recourse now is economic inaction."

There was hardly a trade union in New York city which was not represented at the meeting. Many organizations hired bands for the occasion and paraded from their meeting hall to Madison Square Garden in units. Among the latter were the machinists, butchers, batters, district council of marine carpenters, iron workers, window cleaners, and many others. Those organizations who could not parade because they worked too late, had boxes reserved for their committees, and among them were the joint committee of Essex Trades and Building Trade council, Women's Trade Union League, Central Labor Union of Trenton, N. J., International Ladies' Garment Workers, joint board of Cloak and Suit Makers, United Hebrew Trades, joint board of Amalgamated Clothing Workers, Letter Carriers' union, Moving Picture Operators' union, Mt. Vernon Central Labor union, district council of Butchers No. 1, Central Labor Union of Brooklyn, Atlantic District International Longshoremen's association, Port of New York district council of International Longshoremen's association, and many others.

A number of meetings that were held by different radical groups during the afternoon throughout New York city were broken up by some soldiers and sailors who took the law into their own hands. At first, the same fate threatened the Mooney mass meeting, but as the police department realized that this was strictly a trade union meeting and was held under the auspices of the Central Federated union of New York, they made a special effort to protect the audience from any unwarranted disturbance. Only those soldiers and sailors who could show union cards were admitted into the meeting.

Reena Mooney, wife of Tom Mooney, who has herself been tried in connection with the San Francisco frameup, and Israel Weinberg, who choose two years in jail and the possibility of death, rather than accept a bribe of \$20,000, if he turned state's witness against Mooney, were two of the principal speakers.

THOMAS MONAHAN WILL BE BURIED TOMORROW

Well-Known Local Coal Man Succumbs Suddenly to Effects of Electric Shock.

Thomas Monahan, manager of the Monahan Coal company, died suddenly yesterday. It is believed his death was the result of after effects of a severe electric shock he sustained some time ago and from which he never fully recovered.

The funeral will be held tomorrow morning at the home of his sister, Mrs. John Walsh, 209 Minah street, at 9 o'clock.

Mr. Monahan was 39 years of age. He was born in Ireland. He had lived in Butte for the last 17 years. In addition to his mother in Ireland, he is survived by two brothers, Patrick of Butte, and John of Nome, Alaska; two sisters, Mrs. John Walsh and Mrs. Norah Kerrigan of Butte.

NC-4 OFF AGAIN; OTHER BOATS WAITING

Halifax, N. S., May 14.—NC-4 arrived here at 2:10, completing the first leg of her flight from Chatham to Trepassy.

SAYS GIRLS

(Continued From Page One.) search of the room failed to find either the pipe which produced the smoke or opium. In an adjoining room, however, the officers asserted they found the pipe and other articles of the layout produced in court. The pipe and the spirit lamp were still hot, they said, evidence that they had been in use when the officers' presence became known.

Captain O'Donnell also declared his belief that two young women whom he said, he was positive were in this latter room when he entered the building, had made their escape through an open window, across a low roof and into an adjoining Chinese lodging house.

In relating his story to the court, the officer asserted that the police have reason to believe that girls of tender years are lured to the place and taught the opium smoking habit.

Despite the efforts of the attorney for the defense, Judge Grimes found Tom Chung guilty of operating an opium joint and assessed a fine of \$25. Notice of appeal was given and the Chinaman was released under bonds of \$50 pending the perfection of his appeal.

As a result of the spirit shown at the mass meeting in Madison Square Garden, many unions are taking up the question of a general strike immediately, who might have shown a laxity because they did not realize that the entire labor movement is determined to see justice done to their fellow workers no matter what methods they have to resort to.

CROP OUTLOOK IN MONTANA GOOD

Labor Scarce in Some Communities. Reports Say Winter Wheat Is in Good Condition.

Helena, May 14.—A much more optimistic note is in evidence in the crop reports received by Charles D. Greenfield, commissioner of agriculture and publicity, from the various county agricultural agents throughout the state. From all of the sixteen counties reporting, except one, showers are reported during the week ending May 3. These counties represent all parts of the state and all indicate that there is sufficient moisture to germinate the seed and that with warm weather the crop outlook will be very bright. Labor continues somewhat scarce. Most of the counties report winter wheat in excellent condition and spring wheat nearly all seeded. Range cattle are a little thin, but sheep are in good condition and the season has been very favorable for lambs.

Dawson county—Eighty per cent of the wheat has been sown and much of it is up. Local showers during the week. Labor scarce.

Richland county—About 2,000 acres of sugar beets will be planted this year as compared with 700 last year. Demand for seed corn indicates a 200 per cent increase. Much flax is being planted this year. Twenty new silos are being planned. One hundred men could find jobs at once. Sheep in good shape.

Missoula county—Weather conditions favorable. Showers during the week and spring rains are coming up in good shape. Farm labor scarce. Hay is high and almost impossible to find.

Musselshell county—Weather favorable with local showers. Spring seeding forty per cent completed. Potatoes and corn planting started. Labor continues scarce.

Ravalli county—Local showers followed by lower temperature. No danger of frost to the fruit reported yet. Seeding practically completed. Pea seeding well under way. Increasing demand for labor.

Valley county—Showers during the latter part of the week improved conditions considerably. Winter wheat and rye looking fine. People very optimistic about crop conditions. Grass growing good on the range.

Lewis and Clark—Local showers of slight extent. There is plenty of moisture in the ground to germinate all grains. Seeding of small grains practically completed. Practically all spring plowing finished. The same labor shortage with high wages continues.

Toole county—Weather warm and dry with no precipitation. Grasses growing fairly well and range stock in general looking fair. Over half of the farmers have finished seeding wheat. Large acreage.

Sanders county—During the past week more than half an inch of rain fell followed by a lower temperature.

Cascade county—Light showers latter part of week. Seeding is progressing rapidly and labor short.

Fergus county—Spring field work well advanced. Early planted spring grains showing up well. Winter wheat good in most places. Rain and snow latter part of week.

Prairie county—Good rains during week with one and one-half inches of rain reported. Crop conditions are looking good. Four-fifths of all crops in the ground. Corn ground in readiness for planting.

Rosebud county—Rains latter part of the week. Some wheat up and looking fine. Conditions of winter wheat 100 per cent. Condition of livestock is very good. Stockmen report a large lamb and calf crop throughout the county.

Sheephead county—A good rain over the entire county. Prospects are ideal. Wheat crop over half seeded. Winter rye is coming through in good shape.

Custer county—General rain throughout the county. Winter wheat looking good. Seeding of spring wheat completed with more than 80 per cent up in good shape. Some labor shortage.

Yellowstone county—Needed rain came Friday and crop prospects better. Spring wheat planting practically completed. Labor shortage, but not serious. Feed somewhat scarce.
