(Special United Press Wire.)
Winnipeg, May 27.—(2:06 P. M.)—No settlement has been reached in the general strike which has paralyzed the city for nearly two weeks. About 20 of the postal employes returned to work. There is no disorder and the usual calm prevails.
No attempt has been made so far by Mayor Gray to have the street cars operate under armed guard, as threatened by that official last night. At that time he declared he hoped to have cars running today and "to keep them running."

THREATS HAVE NO EFFECT.

Winnipeg, May 27.—The postal and telephone workers have refused to return to work, despite threats of the dominion and municipal officials. Strike leaders here were advised that the Calgary workers had struck and that only public utilities were remaining on the job.

A statement issued at the close of the meeting declared that 95 per cent of the vote cast was in favor of the strike. ABANDONMENT OF BIG NAVY PROGRAM

Is Recommended By Secretary Daniels. Says England Will Follow Our Lead.

(Special United Press Wire.)
Washington, May 27.—Abandonment of a big navy program is recommended to the house naval affairs committee in a communication to the committee from Secretary of the Navy Daniels. The secretary said the United States should show its faith in the league of nations' covenant by eliminating the program substituted in the last congress which would make the American navy second to none.
Daniels said he had assurances from Lloyd George and other allied statesmen that they were planning to follow the lead of the United States. "That it was the policy not to enter into any large construction program until the league of nations meets" is Secretary Daniels' stand. His latest communication is a direct reversal of his recommendations of last December. He said, "America has only two courses. We must either build the biggest navy in the world, or we must have a league of nations."
In recommending the elimination of the house program, Daniels added, "We shall still have our regular three-year program."

THE WEATHER.

Fair, cooler east.

PRESIDENT HAS NEW PLANS

Suggests Conferences to Settle Differences Between Labor and Capital and "Bill of Rights."

(Special United Press Wire.)
Washington, May 27.—President Wilson has under consideration plans for conferences which would clear up some American domestic problems. One of these would involve a call for a national industrial and economic conference at which a "new bill of rights" would be developed by capital and labor. Another would involve a get together conference of indefinite duration to be participated in by all constructive leaders in the country, such as capital, labor, suffragists, anti-suffragists and socialists, in an effort to reach a common ground that would end industrial and domestic strife, or at least minimize the possibility. The first plan has been sponsored by labor leaders and has been urged by some industrial chieftains.
The federal industrial board intends to frame a plan for consideration at the proposed industrial and economic conference. As tentatively outlined, the plan would provide voluntary agreement by both sides to eliminate compulsory arbitration. The conference also would be asked to consider the establishment of a general industrial court, the presiding officer of which is to be appointed by President Wilson, and the other members to be named by capital and labor.

G. O. P. PROGRESSIVES ALLOWED TO TALK

Washington, May 27.—Republican senate committee assignments, although approved at a republican conference yesterday over the opposition of the progressive group, will come up for discussion at another party conference tomorrow morning, which will be open to the public.
The call was issued by Senator Lodge at the request of progressive senators, who said that if they were given an opportunity to express publicly their opposition to Senators Penrose of Pennsylvania and Warren of Wyoming for chairmen of the finance and appropriations committees, respectively, they would not carry their opposition to the floor of the senate.
Senator Borah of Idaho, regarded as the spokesman for the progressive group, said in a statement that the progressives would co-operate to prevent democratic control of the senate.

Says Allies' Terms Are Unacceptable in Their Present Form. Will Not Seek Removal of Obligations.

(By GROAT, Special Correspondent, United Press.—Copyrighted.)

Berlin, May 27.—Chancellor Scheidemann today informed the United Press that Germany's counter proposals will demand the immediate admission of Germany to the league of nations; will agree to the restoration of destroyed French territory; and full reparation for the ruined coal mines. "We designated the allies' terms as unacceptable in their present form," he said. "Now, we must use our entire strength and ability in behalf of our counter proposals. They do not seek to remove our hard obligations. They place foremost the"

LISBON, Portugal, May 27.—The NC-4 has arrived.

(Special to The Bulletin.)
WASHINGTON, May 27.—The NC-4, United States navy hydroplane landed in Lisbon, Portugal, this afternoon, thus accomplishing the first airplane flight from the new world to the old. The flash received at the navy department merely stated that the plane had arrived, but it is presumed that the landing was made without mishap and the aviators will be able to continue their flight from Lisbon to London without undue delay.

HAWKER AND MATE ACCLAIMED BY MULTITUDES

(Special United Press Wire.)
London, May 27.—Harry Hawker and Mackenzie Grieve, while proceeding to London, were cheered all along the route like conquering heroes. Dispatches from the north told of their triumphal progress from Thurso, a little town where the aviators landed. There were cheering crowds at all the stations in the highlands. When Hawker left the train at Edinburgh he was seized, elevated to the shoulders of a cluster of men and borne in triumph through the streets to a hotel, while the people struggled to shake his hand.

Both official and civilian circles were overjoyed at the news of the NC-4's safe landing in Portugal and the streets were thronged with cheering crowds when the bulletins were posted.

"It is an epoch-making event," said Secretary Daniels, "and it should be a matter of pride to all Americans that it was an American airplane which first accomplished safely the flight across the Atlantic."

Lisbon, May 27.—The arrival of the NC-4, the American navy hydroplane, was the cause of enthusiastic demonstrations by the populace. Crowds had been watching for the plane since it became known this morning that the aviators had started from Ponta Delgada. The successful aviators were greeted with acclamations as heroes.

(Special United Press Wire.)
Washington, May 27.—Winging through the air at a speed of approximately 80 miles an hour, the NC-4 passed station 8, half-way between Ponta Delgada and Lisbon at 11:16, Washington time. The plane is expected to reach continental Europe at 4 o'clock, Washington time.

PERFECT WEATHER.

(Special United Press Wire.)
Ponta Delgada, Azores, May 27.—The NC-4 started on its flight toward Lisbon, Portugal, at 10:30, Greenwich time. Lieutenant Commander Head and his original crew was in the cockpit of the great seaplane when the final leg of the flight toward the mainland of Europe was begun.

Tremendous cheers from the crowd on the shore arose when the plane left the water. Guns were booming and all church bells were ringing in the little Portuguese town, which has been placed on the map since the trans-Atlantic flight started. The weather conditions were excellent. Reports from destroyers stationed all along the route between Ponta Delgada and Lisbon indicated perfect weather conditions along the entire route.

The NC-4 headed eastward at once and passed from sight of those on shore four minutes later.

HAWKER WILL TRY AGAIN.

(Special United Press Wire.)
London, May 27.—Harry Hawker will make another attempt to fly across the Atlantic, according to a statement the Daily News attributes to him.

"I'll try again and I think I can succeed," Hawker said at Inverness, the newspaper announced.

Two hundred members of the Aero club will greet Hawker this evening on his arrival in London. The King has invited Hawker to visit him at the palace tomorrow.

WE HAVE THEM HERE; THEY LEAD THE PARADES

Geneva, May 27.—The infuriated populace in Prague erected gallows in the principal streets, whither they conducted 57 food profiteers and threatened to hang them unless they took the oath that they would sell their wares at reasonable prices. All the alleged profiteers took the oath.

AFTER FIGHTING, GET SAME OLD TREATMENT

London, May 27.—Thousands of discharged soldiers and sailors out of employment, armed with stones and other missiles, marched toward the house of commons yesterday. They came into conflict with the police barring approaches, however, and were scattered.
Later the procession was reformed and marched toward Buckingham palace, but the demonstration broke up before it reached there. There were no further disorders.
Similar demonstrations were held throughout the country.
