Peace Conference Shelves Fiume and Adriatic Question

(Special United Press Wire.)
Paris, June 10.—The Adriatic question, which has been one of the hardest nuts for the peace conference to crack and which resulted in the temporary withdrawal of the Italian delegates, is now reported to have been virtually settled. The United Press is able to outline the plan. It follows:

Fiume to be made a free city under the protection of the league of nations, together with considerable surrounding territory which becomes a free state; Sabancio will go to the Jugo-Slavs; Scara will become a free city under Italian control, and certain islands in the Adriatic adjacent to the Jugo-Slav coast will go to Italy.

A plebiscite is to be held in five years to determine whether the people of Fiume and the surrounding free territory desire to remain under the league of nations or become subject to either the Italians or the Jugo-Slavs.

BANDITS STAGE A REGULAR "CARNIVAL"

(Special United Press Wire.)
San Francisco, June 10.—Three bandits today "got away" with a regular crime carnival. Stealing an automobile, the trio started on a series of holdups that covered every district in the city and brought out every available officer on a hunt. It is estimated they secured more than \$1,000 in cash and jewelry by three holdups of pedestrians, a hotel robbery, a garage holdup and three saloon robberies. Running out of gasoline they entered a garage and held up the chauffeur of another machine and escaped with it. The second car was later found abandoned, but no trace of the holdups has been found.

Winnipeg Cops Arrest Gunman, S'awful.

Winnipeg, June 10.—It is stated authoritatively here that the mayor's action in forcing the employment of a special constabulary force to take the places of the discharged policemen, was caused by pique. It is said that yesterday one of the regular police placed the mayor's body guard under arrest on a charge of carrying a gun and that later when the mayor went to the police station to secure the release of his guard, two men in a crowd struck at him without molestation from two policemen who witnessed the occurrence.

SIX DOLLARS TO SCAB.

(Special United Press Wire.)
Winnipeg, June 10.—The first serious break in the ranks of the strikers occurred when telegraphers deserted the unionist ranks, returning to their keys in the offices of the Canadian Pacific railway and the Great Northwestern Telegraph company. The return to work followed the defeat last night of opposition to the city's move to appropriate \$150,000 to hire a new police force, replacing the one discharged when its members refused to sign the city's "loyalty" ultimatum. A \$6 raise is allowed the new policemen, most of whom are said to be returned soldiers.

It is estimated that nearly 2,000 have been sworn in. They patrol the streets in civilian attire, but are wearing armlets bearing the words, "special constabulary." Each carried a new, heavy club.

The ultimatum which the regular policemen refused to sign denied all municipal employees the right to participate in sympathetic strikes. The city also declined to re-employ striking employees "without discrimination," exclusive of the policemen.

City officials estimate that 70 per cent of the striking municipal employees Mayor Stodden to reinstate Golubin as the force at once, or failing that, to appear at the courthouse on June 21, and show cause why he does not reinstate him.

Denver, Colo., June 10.—In a stirring address before the triennial convention of the Brotherhood of Locomotive Firemen and Engineers, S. F. Heberling, president of the Switchmen's Union of North America, declared that "labor will never submit to a reduction of one cent in wages in the readjustment to follow the war."

Heberling predicted that the time was coming when the workmen can "send their sons to college along with the millionaires' sons" and be assured an independent living in the years when they can work no more. He was cheered vociferously when he stated "that labor should have not a mere living wage, but the comforts and pleasures of life as well as the necessities."

German National Assembly Called to Meet in Weimar

(Special United Press Wire.)
Berlin, June 10.—The meeting of the national assembly called for Thursday to discuss the peace situation is to be held in Weimar instead of in Berlin, as originally planned, it has been announced. Real alarm is being manifested in German official circles over the possibility of movements similar to the establishment of the Rhineland republic, thus frustrating the plans for a strong cen-

tralized government. One leader told the correspondent that Prussia is agreeable to having states on the American plan, but does not want the states to become entirely independent and unprotected.

The Tagliche Rundschau editorially said the government is manifesting a "strange nervousness" over the political situation and declared the calling of students to join the guard for the possible defense of Poland is ill-advised.

Chicago, June 10.—The first sign of a break in the united stand of telegraph workers called for Monday also involves all operators, and maintenance, construction and repair men, according to copies of the order received by C. Sickman, local business agent, and J. H. Groves, financial secretary of the electrical workers' local union.
