BOZEMAN LABOR FOR CLOSED SHOP

Employers' Association Goes on Record for Open Shop and Threatens to "Can" All Union Men.

The following is taken from the Bozeman Daily Chronicle. At a joint meeting of the members of the Employers' association of Gallatin county and the Contractors' association of Bozeman, in the offices of the Bozeman chamber of commerce, the following report was given out:

The labor situation in Bozeman seems to have come to an acute head, which resulted in a joint meeting of the Employers' association of Gallatin county and the Contractors' association of Bozeman, yesterday afternoon.

The gist of the situation seems to be that the labor unions, through the activities of the carpenters' union, have been laboring diligently to bring about a closed shop in Bozeman, to which action the Employers' association and the Contractors' association seem to be unalterably opposed.

The situation seems to have been brought to a head on the job of O. E. Long, who it seems has constructed a building with the employment of non-union carpenters, owing to which fact, the job has been declared unfair by the Trades and Labor council, with the result that the electricians and plumbers have refused to wire or plumb the house, on account of the job being unfair, saying that they would be subject to fine if they did so.

The Employers' association has taken a definite stand that every American citizen is entitled to work at his craft, regardless of whether he is a member of a union or not; and that it is the right of every American citizen to employ such labor as he sees fit, regardless of whether the laborer is a member of the union or not.

It has always been the unanimous opinion of the business men of Bozeman, that in a democratic agricultural community, such as Bozeman, the conditions of a closed shop would be intolerable and not in keeping with the spirit of the community.

There seems to be no question, but what the issue has been brought to a direct head, and that all employment and construction will be discontinued until the matter is definitely settled, as to whether Bozeman is a closed shop town or an open shop town.

The secretary of the Employers' association is sending out the following communication to all members relative to the situation: "To All Members of the Gallatin County Employers' Association: Certain building jobs in Bozeman have been declared unfair by the Trades and Labor council, through the recommendation of the carpenters' union, on the basis that non-union carpenters were employed in the construction of the building. This prohibits electricians, plumbers, plasterers, bricklayers and other crafts from completing the building without being subject to a fine. This is the result of an attempt on the part of the carpenters' union to enforce a closed shop upon the city of Bozeman. The Employers' association has unanimously gone upon record as being opposed to the closed shop, as being un-American, un-democratic, unnecessary and detrimental to the economic welfare of the city.

"At the joint meeting of the executive committee of the Employers' association, with the Contractors' association, a resolution was unanimously adopted, that all members of the Employers' association will back up the Contractors' association in declaring that no employment will be given union labor, of any craft, until all jobs in Bozeman are declared fair, and are permitted to be completed by the labor unions; and that all members of the Employers' association are instructed to decline to give employment or moral or financial support to members of the labor unions, until such jobs are removed from the unfair list. It was unanimously agreed by the Contractors' association and the Employers' association that this action should become effective at 5 o'clock p. m., June 19.

"This question is one of vital interest to the city of Bozeman and its future welfare, and you are asked to regard seriously this action. "Yours very truly, "J. A. HARADER, Secretary."

The Contractors' Statement. The Contractors' association has sent the following communication to the carpenters' union: "United Brotherhood Carpenters and Joiners, Local No. 557. "Gentlemen: In view of the fact that Contractor O. E. Long's job has been declared unfair, the Contractors' Association of Gallatin county hereby gives notice, if all jobs, including Mr. Long's are not declared fair by Thursday, June 19, at 2 o'clock p. m., all union men of all crafts will be laid off at 5 o'clock p. m. on this above date.

"BOZEMAN CONTRACTORS' ASSOCIATION. "H. J. HAMILL, President."

Summer Schools Begin, Both Grade and High

The grade summer schools began this morning in four of the public school buildings of the city—the Emerson, Blaine, McKinley and Grant schools. It will continue for eight weeks.

The high school summer school will begin Wednesday morning and last six and a half weeks. It will be held in the Butte high school building.

MANY LIVES

(Continued From Page One.)

track had been removed. The coaches were deposited along the roadbed, all in an upright position. The engine, released from the train kept going about 40 rods before it was stopped.

None of the passengers were seriously injured, though several were bruised and cut by flying glass. More than 200 passengers were on the train.

For the past two days several sections of the state have reported severe electrical and rain storms and the upper Minnesota river valley today was visited by a flood, which caused half a million dollars' damage to towns along the river.

Shortly before midnight a storm struck the Twin Cities, extending the storm's sweep of the wires into the telephone headquarters in Minneapolis. Railroad and commercial telegraph wires were prostrated all through the section adjoining the Dakota line and only meager details of the extent of the damage in Fergus Falls could be gathered.

Railroad men as trains returning from the storm-swept section placed the loss of life in Fergus Falls at around 200 and said almost the entire city had been swept away. They confirmed the destruction of the Great Northern depot there with heavy loss of life.

At the request of Governor Burnquist, Lieut. S. P. Rask and G. W. Rink of the federated flyers, held a big airplane in readiness to leave for the scene of the disaster. When the governor's special left all wire communication with Fergus Falls had been broken and the airplane would be of use in communicating with the capital for relief measures, it was believed.

Minneapolis suffered considerable property damage from the storm last night. Numerous plate glass windows were blown in, trees blown down across wires, lamp posts broken off and minor traffic accidents were numerous. Hundreds of canoes were out on the lakes close to the city, but it is believed all reached shore safely.

RELIEF TRAIN LEAVES.

St. Paul, June 23.—Governor Burnquist, Adjutant General Rhinow and 75 men of the sanitary corps Fourth regiment, M. N. G., left on a special train last night, with doctors, nurses and railway officials. Other national guard units in the Twin Cities and in towns near Fergus Falls were ordered to hold themselves in readiness for guard and police duty.

The special was due to arrive at Fergus Falls at 3 a. m. this morning. Shortly before midnight, a severe electrical and windstorm, accompanied by a heavy rainfall, struck the Twin Cities, further interfering with telegraph and telephone service.

HITS OTHER TOWNS.

Brainerd, Minn., June 23.—A heavy wind and rain storm struck here at 11:30 p. m. The Minnesota & International wires are down in sections between Brainerd and Bemidji. Washouts are reported on the line at Walker. Communication with Bemidji, Walker and Backus is broken.

Fargo, N. D., June 23.—Approximately 200 persons were killed by a tornado that struck Fergus Falls, Minn., Sunday afternoon and wiped out three blocks in the business section of the city.

This report was received last night at the Great Northern railroad office here and said that train No. 1 had been blown off the track. One of the passengers, a girl, suffered a sprained ankle, but none of the others were injured. They were picked up by Great Northern train No. 4, five miles west of Fergus Falls and brought to Fargo.

A report from Staples to the Northern Pacific here said that the Grand hotel had been razed by the wind and the Northern Pacific depot demolished. The telephone operator at Battle Lake, Minn., about 18 miles west of Fergus Falls, reported that the entire town between the Grand hotel and the brewery had been wiped out. The hotel is situated in the eastern section of the city and the brewery is located in the western part. The operator also reported that 200 persons had been killed.

FAST TRAIN LEAVES TRACK; MANY INJURED

Aurora, Neb., June 23.—Several people were injured, three seriously, when the fast Seattle-St. Louis passenger train on the Burlington was wrecked a short distance east of here. The three most seriously hurt are: Mr. and Mrs. Alfred H. Swan, returning Y. M. C. A. workers in China, on their way to Omaha; Mrs. W. W. Teewell, Gillette, Wyo. These were taken to hospitals at Lincoln.

All the other injured were able to continue their journey. The train, which was behind time, was running at 52 miles an hour when it struck a defective switch, four sleepers, the dining car and chair car going into the ditch.

WILL HELP MASTER THE AIR

(By United Press.) London.—(By Mail.)—Secret experiments are being carried out near London with a view to perfecting an invention which it is claimed will be the greatest step yet made toward the complete mastery of the air with a heavier-than-air machine.

This is a "helicopter" aeroplane, capable of rising and descending vertically without "getting its nose up" and able to hover in the air. All the flying machines of the novelists have been able to rise vertically, but so far this has not been possible in practical aviation. The British air ministry is directing the tests.

Advertise that room for rent in the want columns of the Bulletin.

GREAT FALLS FOR MOONEY STRIKE

The following Great Falls unions have voted in favor of striking to free Thomas Mooney, the figures denoting the percentages of membership who voted to strike:

Table with 2 columns: Union Name and Percentage. Includes Plasterers (100%), Machinists (90%), Machinist Helpers (85%), I. B. E. Workers (68%), Cooks and Waiters (99%), Sheet Metal Workers (90%), Boilermakers (75%), B. Ry. Carmen (90%), Painters (90%), Federal Labor Union (70%), Teamsters (75%), Engineers (99%), Cooks and Waiters (99%), Electric Workers (70%), Mill and Smelters (70%), Carpenters (75%).

The carpenters and mill and smelters are taking their vote over again and it is felt that the strike will also carry with them.

THEATERS

AT THE RIALTO. "Daddy Long Legs" is a picture of infinite value in these days of social insanity, and is the kind that brings us down to earth for a little constructive thought.

Mary Pickford, as Judy Abbot, the little inmate of an orphanage (which is run as most such institutions are run, under capitalism) has indeed made another triumph.

The story of the "brune strike," in which Judy and a little representative of the "men," were the chief agitators is both pathetic and true to life. The strike is broken by the arrest of the leaders and the right of "collective bargaining" against the prun is devised by the czarina of the institution.

Finally an unknown benefactor, whom Judy fondly calls "Daddy Long Legs," sends her to college. Here she displays literary ability and finally gets a book published. Meantime she falls in love with the man who later turns out to be her "Daddy Long Legs."

The disgusting mental depravity of the bourgeois with their caste lines, family trees, etc., is portrayed in a manner which immediately shows the shallowness of the modern "aristocracy." This picture is of exceptionally high value both as an education and an entertainer.

"Elmo, the Mite-y" (perhaps it should be Elmo, the Cootie) is another serial full of sweat, blood and impossible stunts. The acting isn't so good, but the fighting is "swell." Next week Elmo is going to pull up a fir tree by the roots and brush the dust off his clothes with it.

BUTTE BRIEFS

\$100 reward will be paid to anyone proving we do not put in the best main spring for \$1. Moyer, 37 North Main street.—Adv.

Funeral services for the late Mrs. Elizabeth Barry were held Sunday afternoon at the family residence, 665 West Placer street, Rev. Dr. Walter M. Jordan officiating. Interment was made in the Mt. Moriah cemetery.

Sour stomach, clogged up bowels, pimples, blackheads, foul breath, are signs of constipation. Hollister's Rocky Mountain Tea regulates the bowels, purifies the stomach, expels decay matter from system. Nature's wondrous herbs. Positive results; 35c, tea or tablets.—Adv.

Lester Jones, who has just resigned as manager of the Billings Gazette to accept the position of secretary of the New York Publishers' association, was in Butte yesterday on his way to Missoula.

The Woman's Missionary society of the First Presbyterian church will hold its regular monthly meeting Wednesday instead of Tuesday as previously announced.

You should take a thorough, purifying laxative once each month. Decay matter in the stomach and bowels generates poisons that go to every part of your body unless removed. Hollister's Rocky Mountain Tea cleans, purifies the stomach and bowels.—Adv.

Miss Rose Brown of 803 1/2 West Placer street left Monday for Spokane, where she will visit during the summer.

J. Paul, 526 East Mercury street, reported at police headquarters Sunday morning that some time during the previous night his house had been robbed. The extent of the loot was not known.

Dr. C. M. Eddy, dentist, 204-205 Pennsylvania block. Phone 4035-W.—Adv.

A. L. Engel, who graduated from the School of Mines two weeks ago, spent Sunday here with his parents. He is now employed in Anaconda.

Washington Market. Ground bone, 7 pounds for 25c.—Adv.

Judge Ben B. Law of Bozeman arrived in town last night, having been called here to preside in one of the departments of the district court.

Mrs. A. L. Bradshaw, president of Butte Woman's Christian Temperance union, has requested every member of the organization to meet in the First Presbyterian church parlors tomorrow afternoon, Tuesday, June 24, at 1:30 o'clock, to attend a body the funeral of William Henry Thomas, son of Mr. and Mrs. William H. Thomas.

MANY FOREST FIRES RAGING

Employment Office Is Recruiting Fire Fighters for Superior District; Situation Is Serious.

The government employment office is recruiting a bunch of fire fighters for the big forest fire which is now raging in the Superior (Mont.) district. Reports from there indicate that the fire is due to the dry spell of weather.

In the Flathead forest alone, according to reports, there are nine fires, while one is burning south of Iron mountain, one on Blacktail mountain in the Lolo forest, one near Bonner in the Missoula forest, one along the Ruby river in the Madison forest, another in the same forest on Deep creek and one on Mill creek.

Of these fires the most serious, according to officials, is one which now covers a front of two miles on the south fork of the Flathead river and Spotted Bear creek, in the Flathead forest. Another in the same forest on Swan river has covered an area of two square miles.

The Blacktail mountain fire has covered one-half square mile. Fifty men are working on this fire under the direction of Ranger R. A. Phillips. It is believed to be practically under control. No definite report has been received by Supervisor Rutledge Parker on the Bonner blaze.

The Ruby river blaze is a bad one, and is raging uncontrolled, despite the efforts of a large crew of men. No definite report on the Deep creek fire, further than that it still is smoking and may break out again, has been received. The Quartz fire is reported under control, as is the Mill creek fire.

No report has been received today concerning the Haugan fire, which yesterday was reported as having destroyed logging railroad bridges and considerable property of the Mann lumber company. No report has been received from the fire which was declared last night to be burning in spectacular form in the lands of the Anaconda Copper Mining company, seven miles from Corvallis in the Bitter Root valley.

Helena, June 23.—The forest fire near Canyon Ferry, in the state forest, which burned out Helena's light and power lines, leaving the city in darkness and without street cars for many hours, flared up again Sunday afternoon, after it was thought that it was under control. State Forester C. Van Hook is on the scene in command of a crew fighting the flames. A fire in the Helena national forest near Wickes, which looked serious yesterday, is reported under control today.

That the situation was far from normal became evident when light and power lines again failed at 8:15 last night. Light company officials, however, said this lapse was only temporary, due to shifting current from overburdened wires. Helena is now being supplied with electricity from Butte, since the Canyon Ferry line has completely destroyed for nearly two miles the system of wires running to Great Falls, by which the current ordinarily is transmitted to this city.

Opening Events Are Won by Americans (Special United Press Wire.) Paris, June 23.—American soldiers and athletes made a clean sweep of the 100-meter dash at the opening event of the inter-allied track and field championships, winning all three heats. The winners were Ekersol Butler, Edward Teaschner and Charles Padlock.

DROWNS IN

(Continued From Page One.)

St. Joseph's school two years ago, and since had been working in the office of the Silver Dow National bank.

The camping party of which he was a member was composed of boy scouts, troop No. 14. The party left Butte Friday morning and walked from Columbia gardens about 16 miles. Early yesterday the companions of Fred Pissot arrived home, leaving the search for the body of Fred Pissot to those better prepared.

Delmoe lake is a reservoir forming the headwaters of the Pipestone irrigation project. It is a long, narrow body of water and quite deep in places.

Scoutmaster Rowe of troop No. 9 made an attempt to save the life of the drowning boy, but was unable to reach him in time, the boys said.

Surviving Fred Pissot are his parents, two brothers, Frank and Henry, and three sisters, Henriette, Gertrude and Anna. He was the oldest of the children. The father, H. F. Pissot, is proprietor of the Big Four Tailoring company.

At an early hour this morning the body had not been recovered. Emmet Daly and John McCormack of Columbia gardens each made 25 or 30 dives in the extremely cold water and succeeded in reaching the bottom of the lake, but because of brush they were unable to find the body. Grappling irons were used without success.

Another searching party left Daly & Shea's undertaking establishment at 9:30 o'clock this morning. An automobile of searchers were sent to the lake yesterday by Sheriff O'Rourke. In the party were Deputy Leslie Smith, Jarvas Rollmann, Thomas Shea, Emmet Daly, John McCormack, William Leecs, Thomas Manley and the Rev. Father O'Shea. All of the party returned to Butte this morning except Emmet Daly and Father O'Shea.

WINNIPEG IS PLACED

(Continued From Page One.) fused. Then they asked me to pull the street cars off the streets. This I also refused. Then they stated they would have a parade anyway. I remarked that I would have to stop it.

"I immediately repaired to the city hall and advised the chief of police. I suggested that the mounted police should patrol the streets. I drove to Royal Northwest mounted police headquarters and asked Commissioner Perry to aid the civil police. I returned to the city hall and some little time later witnessed the arrival of the mounted police, who, in open formation, advanced north on Main street. They endeavored to disperse the crowds, but were booed and jeered, pelted with stones and bottles. When I noticed that the mounted police were being hard pressed by a rabble of aliens, I read from the parapet of the city hall the riot act.

"Two or three minutes later I heard a few scattered shots and as the Royal Northwest mounted police had not received the orders to draw came from the mob. I immediately drove to Fort Osborne barracks, asked for Gen. H. D. B. Ketchen, general officer commanding military district No. 10, signed my papers for calling out the military in aid of the civil authority to quell riots and handed the same to General Ketchen.

"While in the barracks I received a report that the officer commanding the mounted police had been so hard pressed that he had deemed it advisable to fire a volley into the crowd, and that this resulted in a temporary check of close hostilities. General Ketchen at once turned out a military force."

Mayor Gray then detailed how the soldiers soon cleared the Main street district of rioters, and declared that after the trouble a delegation of strikers called on him and asked permission to hold a mass meeting Monday. He refused to grant permission for being the cause of a lamentable exhibition of lawlessness.

"Winnipeg is determined to shake off these fetters of treason and bolshevist festering, and if it means sterner measures, they will be taken," said Mayor Gray. This declaration was construed to mean that the mayor was ready to place the entire city under martial law if necessary to protect its citizens and its utilities.

Early last night the soldiers were withdrawn from Main street and the duty of patrolling this district was again turned over by returned soldier constables. Traffic is proceeding normally, except for street cars, which company officials declared would be running again tomorrow. Soldiers are held in readiness at barracks.

In the past 36 hours 22 foreigners have been arrested. Six were taken last night by the Royal Northwest mounted police and sent to Kingston, Ont., penitentiary, pending a hearing before a special immigration board of inquiry. The remainder were taken into custody by city police and will be dealt with through the civil courts on deportable charges.

SHIPS ARE SUNK

(Continued From Page One.) down with the imperial ensign flying at their mastsheads, were the crews had raised the German flag. The dispatch said: "Practically the whole German fleet, lying in Scapa Flow, has been sunk by their German crews; farmers living nearby stated the German flag was hoisted as the crews proceeded to sink the vessels."

Almost the entire German fleet was taken to Scapa Flow for internment, after its surrender to the allies, following the signing of the armistice. A small portion of the crew of each vessel, it is understood, had been maintained to keep the craft in repair. The dispatch did not state the exact number of ships sunk, nor the manner of their sinking.
