AUTO SMASHUP HAS SERIOUS RESULT

Jack Mullane is Killed and Companions Seriously Injured When Car Overturns Near Gregson.

Jack Mullane, 747 North Main street, is dead and four others are more or less seriously injured as the result of an automobile accident which occurred on the Gregson Springs road yesterday evening at 6:45 o'clock. The smashup occurred in short distance east of the Sunrise saloon, when the car, which had been driven at terrific speed, skidded and overturned when the brakes were applied suddenly.

According to stories told by the survivors, the party comprising Mullane, Edward Horgan, Flurry Harrington, Phil Sullivan and James Healy was on the way to Gregson Springs in a new auto driven by Horgan, a former Butte saloon man. Near the Sunrise saloon, it is stated, Horgan attempted to pass another car and finding the roadway too narrow, applied the brakes in an effort to stop the car. The heavy machine skidded and then turned over.

The Butte police were notified by phone and hurried to the scene in the police patrol. Mullane was found to be suffering from shock and internal injuries. Horgan sustained a dislocated shoulder and the other members of the party were bruised and cut in varying degrees. Both Mullane and Horgan were rushed to a local hospital, where Mullane died about three hours later.

Mullane was 32 years of age and is survived by his widow and a 3-month-old baby.

BUTTE MAN PRESENTS GAVEL TO REPUBLIC

In future years when the republic of Ireland is recognized as a national entity and the Irish cabinet assemblies, the meetings will be called to order with raps of a gavel presented to the republic by a Butte man.

Saturday afternoon President De Valera was presented with a gavel made in the lobby of the Flinn hotel by Mr. O'Connell, who stated to the president that the gavel must not be used until Ireland has been officially recognized by the United States and a United States ambassador has been accredited to the Irish government.

President De Valera appeared deeply touched by the sentiments which inspired Mr. O'Connell's gift and in reply expressed his thanks and declared that the conditions of the gift would be observed.

WOODMEN LODGES WILL CONSOLIDATE WEDNESDAY

With appropriate ceremonies the consolidation of Copper camp No. 797, with Butte camp, No. 152, Woodmen of the World, will be effected at a joint meeting of the two lodges at Knights of Pythias hall on next Wednesday night. The ceremonies will be public.

The service flag, containing 38 stars, each representing a member of one of the camps who saw service during the late war will formally be consecrated and recorded by Past Consul Commander Samuel P. Johnson. The flag is the handwork of Mrs. Gus S. Hess.

The stars represent the following Woodmen who saw service:
John B. Arkus, Paul Best, James Bonner, Bert F. Clark, Fred Corin, Ralph Corin, Earl E. Foster, Harry J. Grimes, Jr., Leo J. Hanley, Hayden Hewitt, J. Stanley Holman, John Wesley Honeychurch, Vincent H. Harney, Walter A. Jackson, Earl M. Johnson, John Lavelle, Edward J. Lee, Thomas C. McAuley, John Leo McMullen, Theodore K. Miller, Del G. Murray, John P. Murray, Edward O'Hearn, Patrick O'Hearn, Peter J. O'Hearn, M. James O'Neill, Thomas K. Osborn, Wearn I. Perry, Michael R. Purcell, John H. Philip, William J. Richards, Carl Schaefer, Sylvester W. Schweinfelt, Michael P. Sullivan, Ambrose H. Taylor, George H. Townsend, Elmer W. Trainer, Thomas P. Williams.

The consolidation ceremonies are in charge of a committee comprising Capt. F. W. Krabler, John Vickers, E. J. Opie, W. J. Matthews and C. S. Horton.

FORMER MAYOR DENIES MATTHEW'S STATEMENT

Taking exception to the statement made by Dr. W. C. Matthews before the state efficiency commission Friday to the effect that former Food Inspector Jack Riordan had been discharged because of his activities in forcing local food dealers to live up to the laws, former Mayor Maloney this morning asserted that Dr. Matthews either willfully misinterpreted matters, before the investigating commission, or "was talking through his hat."

"Jack Riordan was not discharged by me for the reason stated by Dr. Matthews," said ex-Mayor Maloney. "And he should know that he was not. Dr. Matthews' reported statement that Riordan was discharged because he was too active in going after the food interests of the city is false. Riordan was discharged upon the recommendation of Mr. Conroy, the emergency expert, who recommended that the city health department's force be reduced in the interests of economy and efficiency."

METAL TRADES ARE TAKING STRIKE VOTE

Representatives of Three International Unions in the City.

Complete returns of the strike vote being taken by the Metal Trades will be ready for publication Wednesday, according to local officials of the unions participating. All indications, they say, are that the vote will overwhelmingly endorse an immediate strike to enforce the unions' demands for higher wages and better working conditions.

The machinists' union, it was announced, voted 8-to-1 in favor of the strike. The Blacksmiths' union and Electrical Workers will vote on the question this evening. The Boiler Makers' union and the Machinist Helpers' union will vote tomorrow night.

Lincoln Fielding, international organizer of the blacksmiths; C. O. Edwards, international organizer of the machinists, and E. L. Jackson, international organizer of the electricians, all are in Butte overseeing the balloting on the strike question.

WAREHOUSE THREATENED.

Fire of unknown origin yesterday afternoon threatened the destruction of the Montana Transfer company's warehouse and contents, but was extinguished after an hour's work by the firemen. It was found necessary to move great quantities of heavy material stored in the warehouse in order to properly get at the blaze.

ALLIES SOMEWHAT IN DEBT.

(Special United Press Wire.)
Washington, July 28.—The United States now holds \$9,615,000,000 in credits to the allies. This mark was reached when a new loan was made to France of \$157,000,000. France now owes the United States \$2,910,000,000.

NEGROES AND WHITES

(Continued From Page One.)
frequently were attacked and beaten the police say.
At the beach, while missiles were flying, the negro on the raft was reported to have been struck with a stone and hurled into the lake. Later the body of a negro was taken from the water. A white man, a swimmer, also was reported hit and drowned. Several hours later only the negro's body had been recovered, although search of the lake was continuing.

With the police stations emptied of reserves and scores of others rushed from north and west side stations, Acting Chief of Police Alcock ordered every available policeman on duty to prevent further outbreaks, and the police soon had the situation in hand, although the negroes were in bad temper.

Housing a Problem.
Negroes flocked to Chicago, especially from the south, during the height of the war industrial activities here. Many of them received high wages for the first time in their lives. The question of housing them was a problem.

The negro district has been steadily expanding for several years. Their encroachments on white neighborhoods caused considerable trouble, but the present year has seen racial misunderstandings grow. Fights and shootings have been frequent, but attended with few fatalities.

Within the several bomb explosions within recent months have caused in large casualty lists, the negroes have charged that the bombs were directed against families of their race by white neighbors.

SITUATION QUIET.
Washington, July 28.—All the 2,000 negroes brought here to preserve order when last week's rioting and street disorders got beyond control of the police, were withdrawn last night, but the national capital still was depending on the army, which was represented by a provost guard.

Although the race rioting and the attacks by negroes on white women have subsided, street holdups have continued.
The Maryland state authorities have demanded the extradition of one negro whom they charge with an assault on a white woman. The Washington police, who say they believe the man's alibi, have refused to give up the prisoner for fear he would be lynched when taken over the Maryland line.

APPEALS FOR SUPPORT.

Chattanooga, Tenn., July 28.—Declaration that before the negroes of the country again will submit to "many of the injustices which we have suffered, the white men will have to kill more of them than the combined number of soldiers that were slain in the great world war," is made in a letter written to President Wilson by the Rev. J. G. Robinson, president elder of the African Methodist Episcopal church at Chattanooga, and made public last night.

PACIFIC COAST OIL COMPANIES UNDER FIRE

(Special United Press Wire.)
Washington, July 28.—Investigation of operations of Pacific coast oil companies, by the Federal trade commission is provided in a resolution introduced in the senate by Senator Pointdexter. He requests that every phase of the oil industry, both producing and marketing be probed, with particular reference to fuel oil.

URGENT RADICALISM.

New York, July 28.—Nearly 2,000 negroes shouted their approval today when various speakers addressing a meeting held under the auspices of the Equal Rights league urged the adoption of radicalism among negroes as a means of obtaining their "rights."

CHARLES HUGHES

(Continued From Page One.)
to a communication from Senator Hale in which the latter asked Mr. Hughes for an opinion as to what reservations to the treaty covenant should be made.
Hales said, "many of us favor the United States entering the league of nations, provided in so doing we do not sacrifice the sovereignty or traditional policies of our country." He added, "we believe the pronounced covenant now before the senate does make such sacrifices."
Hughes replied, "There's a plain need for a league of nations in order to provide for adequate development of international law for creating and maintaining organs of international justice and the machinery of conciliation and conference, and for giving the effect of measures of international co-operation, which from time to time may be agreed upon." Hughes said he perceived no reason "why these objects cannot be attained without sacrificing the essential interests of the United States," suggesting "there is a middle ground between aloofness and injurious commitments."

FOOD PROBE WILL BE OPEN TO PUBLIC

State Commission Rescinds Order for Secret Sessions and Invites Citizens to Attend.

Frank Eliel, chairman of the state commission which is investigating the high cost of living, rescinded the Bupbath today to announce that all hearings before the commission will be open to the public, and the public is cordially invited to come to the courtrooms and listen to the proceedings.

The commission held no session Saturday, but reconvened this morning. After today, however, their sessions will be discontinued for a few days while the commission reports to the legislature of its special session in Helena. Upon the return of the commissioners to Butte after making their report, the sessions will continue uninterrupted until the high price situation has been thoroughly probed.

This forenoon Mr. Merzario, a retailer of Meaderville, was called to the stand, but no evidence of any importance was elicited from him.
Thomas Scadden, manager of the Bennett's stores, also testified to knowledge of only commonplace profits in the grocery and fruit business, to no knowledge of combines in restraint of trade. He practically corroborated Bertoglio in his testimony.

Jack Riordan, for four years a food inspector of Butte, gave some extremely sensational testimony. Among other things, he claimed that he was fired from his job under Maloney, because he caused the arrest of 17 violators of food ordinances, some of whom were discharged, and some of whom fined, but later had their fines remitted. Riordan said that he got in bad by insisting on making Baskins, Case and others put food on the market before it spoiled.

He said that he always heard that there were five big firms in the fruit and vegetable business—Ryan Fruit company, Virden & Currie's, The Capital Commission company and the Robinson Brokerage company.

He said that on one occasion he tried to force seven carloads of watermelons, which were being held on the tracks, out on the market, but spoiled. They shipped them out of town. A carload of corn meal, he said, was once put in cold storage to freeze the worms, then shipped to Nebraska. He wired the food inspector in Nebraska about it. The car was sent back from Nebraska. He didn't know where it was finally sold, and eaten up by the common people.

OREGON MINING MEN SEEKING THEIR SHARE

Medford, Ore., July 28.—Chrome and manganese ore men appeared before the mineral relief commission, when they today presented their claims on the government for relief. The hearings of the federal commission may continue two weeks here. The commission will then move on to Portland.
