

TWIN CITIES RING START NEW MAGAZINE

By HARVEY FAWCETT.

Hiding under a camouflage of secrecy, anti-foreign slush fund spenders are about to issue a new magazine to take the place of those now defunct, to be known as "The American Citizen."

Minnesota editors are being deluged this week with anonymous propaganda from the hidden headquarters of "The American Citizen," urging them to get behind the new publication and thus assure it a longer life than the late lamented, "The Newpatriot," "On the Square," and "America First."

The editors are asked to print a carefully prepared and doctored press agent notice to advertise the coming of "The American Citizen."

All effort to learn the identity of the editors and financial backers have failed. The only address given is "Box 78, St. Paul, Minn.," and a letter to that address was signed "A. E. Farnsworth," a name unknown in publishing circles. This name does not appear in either the directories in Minneapolis or St. Paul.

Appeal to Editors.

Even in these messages to the press editors, the name "The Citizen" hides their identity. In one of these, addressed to the Wilmar Tribune, the following appears:

"To the editor: The middle west publishers who are behind the organization of the American Citizen magazine would appreciate the use of the attached form by all loyal newspapers and for copy of issue containing same to box 78, St. Paul, Minn., where a list of supporting publishers is being kept."

The "item" tells what "The American Citizen" pretends it will do, and in part it states:

"The cleverest detectives will ferret out the disloyalists and run down all evidence necessary to justify publication of every fact connected with their abuse of citizenship privilege, however bad the raw facts may be."

"Evidence excluded in court cases can and will be used, it is declared in the magazine. Nothing is to be left undone to make each 'case' a stay-up-all-night-to-read-it story with human interest of the patriotic order worked into every line. Exceptionally able staff writers will go into the various pro-German communities with the stetho to gather the material and 'color' for publication of the cases."

The reference to "evidence excluded in court cases" and will be used" surely doesn't refer to the Townley trial at Jackson, as no evidence worth while was excluded by Judge Dean, except all evidence which would prove Townley innocent, and, of course, "The American Citizen" won't publish the defense evidence that was excluded.

HOW IT AFFECTS THE MOVIE ACTORS

(By United Press.)

Los Angeles, Cal., Aug. 11.—Ravishing eyes vamping over a bubbling beaker of—well, say unaltered milk with an egg for the maximum kick.

Wild west heroes roping villains inebricated with nothing except imagination.

Comedians, maulin and ribald on snappy college jokes.

That's what the movies faced today. They suddenly awoke to the realization that prohibition has wiped the saloon from the wild west and the wild west films as well; that it has snatched the glass of extra dry from the lips of the vampire; and is driving the comedians to dry humor.

Some studios viewed the situation with alarm, others with complacency and even joy—perhaps in anticipation of cellar scenes.

If the matter ever came to a showdown, I imagine one could always find a friend with a cellar, was the confident remark of Major Robert Warwick, just back from Paris.

And Boris Karloff, beautiful, dark-eyed "viceroy" in "Every Woman," was equally undisturbed.

"The moon, come hither eyes, or the proper—or slightly improper—gowns does just as well as the cocktail," she opined.

"If we must have alcoholic punch for a scene, we can get it some way. The pictures are all fiction anyhow."

Doug Jess, wouldn't be disturbed, but with Bill Hart it was different. "Great Scott," wailed the two-gang man of the untutored western, "Am I to get a thrill from shooting up some boisterous soda fountain? Must I dash to the rescue with a handaxe at my throat, a knife at my side, two guns in my hand, fire in my eyes and lemon extract on my hip? Don't ask me what I'll do, but I'll do something."

Henry Lehman, comedy producer, saw the bright side.

"Well, it's sort of tough," he commented. "But don't forget the people will enjoy seeing a movie of a man drunk, before long. It will be a novelty—funny."

"Yes, sir, I think that prohibition has kicked the punch from the saloons to the screen comedies. People will enjoy getting their refreshment through the eye, by seeing a man drink, instead of through the mouth, by drinking."

So the public may look for signs: "Longest in town—five cents—a 12-minute drink" or "a reel a minute," and see lines of opiate-drunk thirsty crowding for the refreshment erebful.

REAL FACTS ABOUT THE RAILROAD CRAFTS' STRIKE

In view of the fact that the daily newspapers all over the United States have been carrying disheartening reports that the railroad workers are not supporting the strike of affiliated railroad crafts, we print below four circulars, which we believe gives the public the true situation.

BAIL IS WANTED WITHOUT FAIL FOR THE MEN WHO ARE IN JAIL

Hundreds of workers are literally rotting in the jails of this country because of their activity in the cause of labor. Many of these victims of the world-wide class war are awaiting trial—and have been waiting for many weary months for the speedy trial guaranteed them by the United States Constitution. Others were tried and sentenced to terms ranging from one to twenty years during the period of war hysteria, and appeals in their cases are now being taken from King Capital drunk to King Capital sober.

Some of the prisoners have escaped by death, others are dying, many have contracted tuberculosis and other loathsome diseases, and all are suffering untold agony from close confinement in the field atmosphere, from insanitary and unhealthy surroundings, from poor and insufficient food, and from inhuman treatment accorded them by brutalized guards. Past attempts to secure bail for all of these workers in jail have not been attended with great success because of the lack of system. Individuals sought to secure bail for their personal friends, and failing to get the necessary amount they returned what had been collected, thus making their entire efforts fruitless. This was the condition facing the delegates from all the western district organizations of the Industrial Workers of the World when they met in conference on July 3 and 4 in Seattle. The delegates solved the problem by an untailing means—Organization.

A Bail and Bond Committee was elected to systematize the work of collecting bail and a nation-wide drive has been started to secure the loan of cash. Liberty Bonds and properly sufficient to gain the release of all class war prisoners. With practically no advertising Six Thousand Dollars were raised in the first five days. More than Two Hundred Thousand Dollars are needed to release those now being held for their labor activity.

Sums of Five Dollars and up are accepted as loans, and all cash, Liberty Bonds or property is tabulated in triplicate, one copy going to the person making the loan, another being retained by the Bail and Bond Committee, and the third being filed with the Trades Union Savings and Loan Association of Seattle, with whom all funds, bonds and property schedules will be banked.

Only those who have been proved loyal and trustworthy are being sent out as collectors. Everything possible has been done to safeguard this bail and bond fund, from the selection of the committee to the choice of the bank. A portion of the fund is being set aside to return loans on demand in case persons who have made them are forced to leave the country or have other reasons for making a withdrawal.

Bail will be used to release specified persons where that is desired, but otherwise the release will take place by a blind drawing of names, thus insuring fairness to all prisoners. By common consent the men in Wichita, Kansas, jail will first be released, as they have been held the longest and jail conditions are worse there than anywhere else in the entire country. This bail has nearly all been subscribed, and the men will be made accredited collectors when released, and their speedy release will help to set others at liberty.

No necessity exists for argument. Your duty is clear. If your ears are not deaf to a call from your class, if you feel that an injury to one is an injury to all, if there burns within you the faintest spark of humanity, you will see that the men do not remain behind the bars an unnecessary minute because you withheld your support.

THEY ARE WILLING TO GIVE THEIR LIVES FOR YOU! ARE YOU WILLING TO LOAN YOUR DOLLARS TO THEM?

Send all cash, checks and bonds to John L. Engdahl, Secretary of Bail and Bond Committee, Box W, Ballard Station, Seattle.

Property schedules should be filed with Attorney Ralph S. Pierce, Room 607 Central Building, Seattle.

GIVE BLOOD

restrained from jumping from the car. An examination at the hospital developed the fact that Shaver had lost so much blood that transfusion was necessary if the wounded man was to have an even chance for his life. Shaver is an electrician, but is not a member of the local organization. However, a call was made for volunteers who were willing to sacrifice their blood this morning. Immediately more than a dozen members of Local No. 65 offered themselves. Blood tests were made from each and finally four, J. Roberts, James Buck, L. S. Thompson and J. Whitell were selected.

This afternoon Roberts and Birch submitted to the knife and had some of their blood transferred to Shaver's arteries and tonight Thompson and Whitell will submit to the ordeal.

According to the attending surgeons, the heroism and self-sacrifice of Shaver's fellow workers of the electricians' union may be the means of saving his life.

Shaver is a son-in-law of George Lann, chief of the Anaconda's fire department. He resides at 7125 Adams street.

LABOR

By BUDD MCKILLIPS, in N. Y. Call.

I've banded your ships and your railroads.

I've worked in your factories and mines.

I've built the roads you ride on.

I've crushed the ripe grape for your wines.

I've worked late at night on your garments.

I gathered the grain for your bread.

I built the fine house you live in.

I printed the books you have read.

I've linked two great oceans together.

I spanned your rivers with steel.

I built your towering skyscrapers.

And also your automobile.

I've gone out to wrecked ships in lifeboats.

When the storm loudly cried for its prey.

I've guarded your home from marauders.

I have turned the night into day.

Whenever there's progress you'll find me.

Without me the world could not live.

And yet you would seek to destroy me.

With the meager pittance you give.

Today you may grind me in slavery.

You may dictate to me from the throne.

But tomorrow I throw off my fetters.

And am ready to claim what I own.

I am master of field and of factory.

I am mighty and you are but few.

No longer will I bow in submission.

I am laborer, and ask for my due.

Great Northern Shop System Federation, Great Falls, Mont.

To all crafts affiliated with Great Northern Shop Federation, greeting.

This circular will be recognized as Bulletin No. 2.

At today's meeting of the federated executive committee the strike situation was reviewed unchanged, unless it be that the reports of the different committees showed greater signs of progress.

The work is being transacted in a manner approaching perfection.

The task is rendered doubly easy by the solidarity of the brothers and sisters in strike, these outside of labor organizations realizing that their welfare is on a par with those under the protecting shield of organization. Consequently our committee members are now mindful of the power that lies in a thoroughly organized force of workers.

On this question of labor solidarity, this federation is unanimously backing up the brothers and sisters who have come out in sympathy with us. They are determined to stand solidly against all forms of disaffiliation immediately upon SETTLEMENT OF THE WAGE ADJUSTMENT THEREAFTER. The assistance rendered by our affiliated brothers and sisters in this issue is invaluable, and when the stroke of the present battle clears away we must see to it that all bona fide wage workers must find protection inside the fold and under the canopy of solid unionism. Our eyes have been opened to the necessity of co-operation and to benefit ourselves we must cast aside all our erroneous prejudices and force ourselves to the realization that all mortals are human and worthy of respectful consideration.

When we say that all mortals are human, etc., we had in mind the organized order of scabs. Fortunately however, they are not endorsed by the circumference of humanity, and this is proven beyond a question of doubt. It was conclusively proved in this way:

When organized labor began to make its struggle for better conditions through the quagmire of oppression they found their efforts were beset in every way by some indescribable pest. In spite of this labor emerged on partially a free ground, and immediately a true labor leader was delegated to interview the great Creator to ascertain the name and origination of this monstrous pest.

The Creator was very affable towards the visiting delegate and furnished him all information to his queries. The Creator informed him that he had a surplus of raw material to inhabit this globe. He had all while they were so busy with the matter when the thought occurred to Him that He would crown His endeavors by making man. This He did, but He went on to explain that there was still a

FAMOUS WOMEN

Caroline Bartlett Crane.

In 1889 the Rev. Caroline Bartlett was called to Kalamazoo, Mich., as minister of a small Unitarian church. Within a few years she had established a large Sunday school, a kindergarten, a gymnasium for women, a manual training department, and a domestic science department. A short time later she married Dr. Crane, one of the prominent physicians in the city. Becoming interested in the civic problems of Kalamazoo, she studied the questions of water supply, plumbing, the sewage system, the cleaning of streets, the condition of grocery stores and meat markets. Other cities in Michigan—Saginaw, Big Rapids, Calumet, and Bay City engaged her for inspections and investigations. Her sanitary surveys, made sometimes in distant and southern and western cities, resulted in widespread municipal reforms.

ENJOYABLE PICNIC ON "TWO-BIT" CREEK

On Sunday, Aug. 10, a very pleasant picnic was enjoyed by a party of about 25 on "Two-bit" creek, about 11 miles from Butte. After a few blowouts on the way, the greatest blow out happened on the grounds, where the high cost of living was forgotten temporarily in a big feed of about four hours' duration, with a few breathing spells in between, which were devoted to sports and games.

The party then met at the Glen's ranch, where they were royally entertained by musical and vocal selections by members of the party. Those present were:

Mr. and Mrs. Giem, Miss Giem, Mr. and Mrs. Schoenleber and sons, Master Ralph, Palmer and Robert, and also their daughter Dorothy, Mr. and Mrs. Kaitze and their son and daughter, Master Ralph and Miss Gertrude; Mrs. Bowden and her daughters, Miss Beatrice and Miss Helen; Mr. Floyd Rice and son Earl; Mr. and Mrs. Postle and son Gordon; Miss Victoria Coen of Chicago; Mrs. Stephen Carkeek; Mr. Comfort and son Dan; Mr. McCoy, Mr. and Mrs. Robert Reid.

VOTE DEMANDS

Swan lake, his summer home, and rumor has it that John D. Ryan is on his way here from his Wall street rendezvous, but regardless of the authenticity of these various reports and rumors, the latest vote by the rank and file should prove to those who handle the industrial situation for the employing companies, that a settlement of the grievances of the workers of the hill must be made with the workers themselves here in
