### PENNSYLVANIA COSSACKS AND POLICE WHOLESOME SLAUGHTER AND REVOLTING INTERFERE WITH RIGHTS OF WORKERS ATROCITIES ARE COMMITTED BY ALLIES

### MARTIAL LAW PROCLAIMED IN CALUMET STEEL REGION

(Special to The Bulletin.)  
Pittsburgh, Oct. 7.—Persistent assaults on the leadership and conduct of the steel strike by the steel trust through the public press without a counter offensive of the labor forces are having their effect. Certain labor elements are beginning to hedge, it is believed, while the mass of the strikers are standing firm. Despite the fact that they are practically leaderless and meetings at which they can be addressed in their own language being barred, Pittsburgh is holding out wonderfully.

The production of the Jones and Laughlin plant, the largest independent mill in the country, having been cut from 125 car loads of finished product to less than 25 last week, the police have been notified to stop all meetings, it is asserted. A survey over the entire field shows that the Ohio district is the strongest and best led strike center; the Chicago or Calumet district comes next. Buffalo and Johnstown are severely crippled and far-off Pueblo, Colo., is all down.

The western Pennsylvania section is the battle ground where some development either way this week will likely decide the strike issue. Events, that transpired today at Washington will to a large extent determine this.

Scores of arrests were made Monday in Pittsburgh proper, as well as in the Homestead, Nonesson and Braddock centers. At Nonesson 20 pickets were taken in. Two boarding houses on the south side in Pittsburgh were raided by the state police and all men who were not working were arrested. About 2,000 coal miners in Johnstown, Pa., went on strike Monday over a wage difference.

#### TWO MEN SHOT.

Buffalo, N. Y., Oct. 7.—Two men were shot, several were beaten and more than 100 revolver shots were fired near the Lackawanna Steel plant here, when strikers attacked a Buffalo and Lake Erie streetcar which was en route to the steel plant with strikebreaking employees. The attack on the car followed the breaking up of a crowd of over 500 strikers earlier in the morning.

#### MARTIAL LAW IN GARY.

Gary, Ind., Oct. 7.—The Calumet steel district has been placed under martial law and order is once again restored. The rioting which has reigned in Gary, East Chicago and Indiana Harbor since Saturday evening ceased when 4,000 regular troops, under command of General Wood, assumed control of the situation. The first regulars arrived last night.

Governor Goodrich appealed for the regular soldiers when the 800 state guards and hundreds of special deputies were unable to stop the outbreaks. The troops which arrived from Fort Sheridan, brought 15 machine guns, 60 automatic rifles, trench mortars and one-pounders, which were mounted on special designed trucks. The troops arriving from Fort Omaha today, brought additional heavy arms.

General Wood has announced that the military authorities will conduct the affairs of the city through the city government, as far as possible. He issued orders against public meetings, parades and ex-soldiers wearing uniforms. The last order was occasioned by the fact that discharged soldiers, wearing uniforms, had participated in a parade of striking steel workers.

Auto trucks, carrying mounted machine guns are moving slowly through the streets and soldiers are stationed every few yards throughout the residential, industrial and business sections.

#### THE WEATHER.

Fair and warmer.

### Fire Sweeps Standard Guano Plant; Two Lives Are Lost

(Special United Press Wire.)  
Bateman, Oct. 7.—Two men lost their lives and one other narrowly escaped death when he was cut off from land at the end of a burning pier, when property valued at \$1,500,000 was destroyed by a fire which swept the plant of the Standard Guano company, at Curtis Bay early today.

The bodies of the dead men, who were both negroes, were burned in the debris. The man who was caught at the end of the pier was rescued by a tug. The master of the tug by going along the side of

### CONFERENCE IS UNDER WAY

Secretary Lane Elected Permanent Chairman. John Lewis and Frank Duffy Not Present.

Washington, Oct. 7.—The first of the round table conferences to be held was called to order at 2:30 Monday afternoon by Secretary of Labor Wilson. He expressed regret that President Wilson was unable to greet the delegates and assist them in the deliberations.

He said: "The whole world is face to face with the most difficult peace problem which it has ever had to deal with. Many countries are without a stable government and financial inflation in all of the commercial values in the whole world has played havoc with the relative value of money, wages and commodities. The effect of these things has been reflected in the high cost of living, with the consequent demand for higher wage rates to meet the increasing burden of the family budget."

Virtually every delegate was in his seat when Secretary Wilson called the meeting to order in the Pan-American Union building, the hall of the American Secretaries Wilson told the delegates they had been given opportunity for splendid God-speed on behalf of the president.

John L. Lewis of the United Mine Workers, who is engaged in wage negotiations that threaten a strike, and Frank Duffy of the carpenters, who was said to have declined to attend the conference, were the only absentees. Officials of the American Federation of Labor, however, said that as representation in the conference was not on the basis of trades, both miners and carpenters might be said to have spokenmen in other labor delegates. All of the railroad union sent delegates.

Following the appointment of committees on nominations and rules, the meeting was adjourned to meet again this morning.

Lane Elected Chairman.  
Secretary Lane was elected permanent chairman of the round table conference when the meeting was resumed this morning.

In seconding Lane's nomination, President Gumpers of the American Federation of Labor, said he wished to make it clear that the assent of the labor delegates in the election

### Chicago Comes From Behind and Wins Today

Score by Innings--

Chicago	0	0	0	1	3	0	0	0	1-5	10	3
Cincinnati	0	0	2	2	0	0	0	0	0-4	11	0

Batteries--Chicago: Kerr and Schalk.  
Cincinnati: Reuther, Ring and Rariden.

(Bulletin's Special Service.)  
Redlands Park, Cincinnati, Oct. 7.—Amidst scenes of the wildest enthusiasm the doughty White Sox battled 10 innings with their Red adversaries today and won the sixth game of the world's series by the score of 5 to 4. The winning run was brought in in the first half of the tenth after the teams had tied in the sixth. The Reds were unable to score in their half of the tenth. The Reds still have one more game to win in order to annex the world's series, while Chicago must win three.

Although the crowd numbered only 30,000, as compared with an average of 34,000 at the Chicago games, the spectators were treated to the most closely contested battle staged during the series. It marked the second time that the redoubtable Kerr pitched his team to a victory in the world's series. The break in what looked like a no-hit, no-run game, occurred in the third inning when the Reds put two runs over the plate after a single had been counted. Roush had been hit by a pitched ball and Daubert had doubled.

### MAN HOME FROM SIBERIA TELLS ABOUT CONDITIONS

Revolting stories of atrocities committed by our allies in Russia have been brought home by Herbert Allen Wilson of 314 Colorado street. Mr. Wilson returned Sunday from six months' service on a British boat in the Volga and Archangel districts.

He declared that the French allies of our own American soldiers slaughter all their prisoners indiscriminately. "When the French take any bolshevik prisoners," says Mr. Wilson, "sometimes they will start the prisoners to the rear, but never do the prisoners arrive there. As soon as a convenient abandoned trench is found the bolshevik prisoners are herded into it and a machine gun is played upon them until all signs of life in the tangled mass of slaughtered human beings has subsided. Then the shovellers get busy and fill in the trench."

"The Scotch regiments in the British army do the same, whenever they happen to take any prisoners. Generally, however, the Scotch give no quarter at all, but kill the bolshevik at once when he throws down his rifle and tries to surrender. The rest of the British army often treat their prisoners with leniency—that is the portion of the British army which is of British blood. But Czech-Slovak allies always slaughter bolshevik prisoners. They would never allow themselves to be bothered with prisoners."

Outraging Women Common.  
Mr. Wilson draws a revolting picture of the treatment to which Russian women are subjected in the towns of Volga and Archangel, held by British and allied forces. Most of his six months in Russia was spent in those two towns, said Mr. Wilson.

"The respectable Russian girls have little use for men in uniform, and will not voluntarily associate with them," he said. "Time and time again, young girls in Volga and in Archangel have been seized, dragged into hiding and misused by men in British uniforms—the uniforms of the Slovak division of the British army. Assaults on women by rough-necked English and French blood—the vile scum in all armies—are unrestrained and of daily occurrence."

Women Suicide Within Allied Lines.  
"So frequent have these kidnappings become in the towns under British and allied control that the young Russian girls dwell in a constant dread of such a fate, and it is a common practice among them to carry poison on their persons for purposes of suicide, should they be seized. And some young girls, of hysterical temperament, have become so obsessed with fear from dwelling so long in imminent danger of assault that they have taken the poison and died in the bloom of their youth, rather than live any longer in such a nightmare as life has become for them in the towns under allied control."

Saw Men Seize Girls.  
Mr. Wilson states positively that he himself has seen—not once, only, but several times—men in British uniforms pounce from behind a pile of lumber or other shelter upon some young Russian girl and drag her away, regardless of screams and struggles. He says he has seen it done on the streets of Volga and Archangel when he was stationed in those towns. He says that he himself saw two young Russian girls take poison upon the street in Volga in sight of numerous British soldiers and officers.

Russians Hate British.  
And Mr. Wilson states that the Russian citizens in those towns of Russia held by the British and allied

### FOUR PERSONS KILLED BY CARS LOADED WITH ARMED THUGS

(Special United Press Wire.)  
Oakland, Oct. 7.—The third day's rioting in the strike of the street car men was brought to a bloody climax today, when an electric train, heavily armed with strikebreakers, crashed into two automobiles, killing four persons and wounding three others.

Following the accident, the train sped on without slackening speed, throwing bodies right and left, and carrying the wreckage of the automobiles for blocks. When the train was finally stopped, the armed scabs and the crew fled. An enraged mob of citizens is searching for them.

Witnesses said the train was traveling 50 miles an hour. Three of the dead are women and their bodies were so badly mangled and mutilated that identification was difficult. Feeding is running at a high pitch over the importation of armed scabs. Eight of them were arrested yesterday afternoon after they had fired into a crowd of strikers and sympathizers.

The police predict that if the armed strikebreakers are caught, a battle will result. Meanwhile, crowds have gathered in the business section and it is now believed the officials of the San Francisco-Oakland Terminal railway will avoid further trouble by abandoning efforts to run the cars. Eighteen persons have been shot and injured in the strike so far.

The dead and injured who were riding in the automobiles have been identified as A. Markley, Oakland; J. P. Barum, Berkeley; Mrs. Alice Case, Berkeley; Raymond White, a student University of California, and Warner Van Manderscheid, a student University of California.

Believed dying, Francis Wall, Berkeley, concussion of the brain. Seriously injured, Miss Irma Warner, concussion of the brain and fractured knee.

It is reported five men were shot, one of whom was Police Captain W. F. Woods, during the rioting which broke out when the San Francisco-Oakland Terminal company attempted to resume street-car traffic Monday morning. The men who were wounded, none of whom are dangerously hurt, assert they were shot from the cars.

Eight persons were arrested for shooting and 10 were taken into custody for the throwing of stones. Rioting was resumed again in the afternoon, when the street cars again appeared loaded with armed strikebreakers. Thousands of strike sympathizers charged the cars, throwing bricks and using clubs. Practically the entire Oakland police force was busy fighting the mobs with clubs and gun butts.

### KING OF ITALY RATIFIES TREATY

All That Is Needed Now Is the Signature of King George and Acceptance by French Deputies.

Paris, Oct. 7.—Italy ratified the German and Austrian peace treaties Monday, by the issuance of a royal decree, the LeClaire reported.

New York, Oct. 7.—Ratification of the peace treaty by the king of Italy, will formally put the treaty into effect, without participation of the United States as soon as the final formalities have been taken by Great Britain and France, the other two ratifying powers. The King of England has yet to affix his signature to the treaty, which has already been passed by parliament, and the French senate has still to follow the lead of the chamber of deputies in accepting the pact.

The signature of King George and the endorsement of the French senate are now no more than routine proceedings. With Britain, France and Italy having accepted the treaty, the three approvals stipulated by the peace conference before the treaty can become operative, will have been obtained and therefore Germany will be officially at peace with Europe.

The supreme war council in Paris will discontinue its dictatorship and its principal functions will pass to the league of nations.

### PRESIDENT WILSON CONTINUES TO IMPROVE

(Special United Press Wire.)  
Washington, Oct. 7.—President Wilson is much better today, following another good night's rest, it was stated at the White House. He is still restless and desirous of beginning work. Nothing will be brought to his attention however, as it is feared that if some matters are put before him, it will not be possible to keep him from attending to others.

The president himself, does not want to leave Washington, feeling that it is unnecessary. His doctors and members of his family also believe that he can be kept as quiet at the White House as elsewhere.

### Drink and Jealousy Blamed For Death of Finnish Couple

The jury which sat in the Antila double inquest yesterday afternoon attributed the deaths of that Finnish couple to the fact that their throats were cut. Charles Antila, the husband, was found responsible for the crimes. And his act, the jury decided, was due to drink and jealousy.

Alex Thompson, the man named in the blood-stained letter which Antila left on his kitchen table as the man who had broken up the Antila home, was called to the stand. He testified that he knew the Antilas well, but that he had seen neither of them

for several months. He swore that at no time had there been any intimate relations between Mrs. Antila and himself and that Antila's statements in the letter were completely false and utterly unwarranted.

ASKS FOR FINAL DECISION.  
Washington, Oct. 7.—An expedition of the final decision in a case to determine the constitutionality of taxes which congress imposed upon the products of child labor, has been asked in the supreme court by the government.

### WHITE SOX FALL BEFORE THEIR CASTOFF

'Hod' Eller Pitches Record Game and Gains Revenge on Former Teammates. Performance Stellar.

(Bulletin's Special Service.)  
Chicago, Oct. 7.—If the old saying about revenge being sweet holds true, "Hod" Eller, who yesterday pitched the Reds to their fourth victory in the world's series is a veritable ball of honey. For Hod yesterday realized the ambition of his life when he hurled an airtight game,

(Continued on Page Two.)

### DISTRICT JUDGE JOHN DWYER RESIGNS

County Attorney Jackson Appointed as His Successor. Rotering to Be County Attorney.

District Judge John V. Dwyer late yesterday afternoon resigned from the district bench, his resignation to become effective tomorrow morning.

County Attorney Joseph R. Jackson was immediately named to succeed Judge Dwyer and handed in his resignation as county attorney. Chief Deputy County Attorney Nick Rotering was selected by the board of county commissioners this morning to fill the vacancy in the county attorney's office.

Tomorrow morning Judge Dwyer will step down from the bench. Mr. Jackson will be sworn in and will become judge. Deputy Rotering will then take the oath as county attorney.

### SAYS TOO DAMNED MUCH HAS BEEN SAID

London, Oct. 7.—The Russians can look after themselves now, General Ironsides declared upon his return from Archangel, with the last contingent of British troops. When asked about Russia, he said: "I think a damned sight too much has been said already. We have finished our job and I think the Russians can look after themselves."
