## Foreign Labor News

**MEXICO.**  
**All Immigrants Treated Alike.**  
 Mexico City.—Because of reports recently published in the foreign press that the Mexican government was disposed to encourage solely and exclusively the immigration of Germans to this country, which was said to be under way upon a large scale, Secretary Pastor Rouaix of the Department of Agriculture and Fomento has made this announcement: Although the government has the intention later on to encourage immigration, because of the benefits to be derived from foreign capital, it does not consider the present an opportune time for that object, because no law has yet been passed regulating the agrarian question. No foreigners—Germans, Americans or any other nationality—will receive any aid from the government pending the enactment of laws in regard thereto by congress.

Once for all, regarding this matter, it should be understood that the government is disposed to open its arms to the people of all the countries in the world who desire to come here, solely with the proviso that they shall agree to abide by the laws of the country. In conclusion, it was declared that it was not true that a large German firm, nor any other foreign concern, had acquired a single foot of land in the republic for colonization purposes.

**INDIA.**  
**More "Democracy" Comes to Light.**  
 London.—The latest figures on the arrests and deportations in the recent events in the Punjab have just been published by "India," London, in its September 19 issue. The report states that in the course of a discussion in the Viceroy's council it was announced that 852 persons were tried, 108 sentenced to death, 265 transported for life to Andaman Islands, the Siberia of India, 104 sentenced to prison terms over three years, 18 executed, 438 sentences reduced, 322 forfeitures remitted, and 356 new forfeitures imposed.

The same issue of "India" carries the following interesting item:  
 "Martial Law Notice No. 2, issued by the Area office at Lyallpur, runs as follows:  
 "Whereas—certain inhabitants of the Lyallpur district are habitually exhibiting a lack of respect for the (Gazetted) Europeans or civil or military officers of His Majesty's service, thereby failing to maintain the dignity of the government, I hereby

## How to Get Behind the Plumb Plan for Railway Ownership

The bill drawn by Glenn E. Plumb and backed by the 14 railway brotherhoods and many other progressive organizations, providing for the public ownership, democratic control and efficient operation of the railways, has been prepared and will soon be presented in congress. Not fewer than 6,000,000 people are behind the measure. A nationwide campaign is being organized by the railway brotherhoods, the so-called Plumb Plan league and the Public Ownership League of America, all working together. Every interested citizen in America, should get into the fight. Write for particulars to the Public Ownership League, 1339 Unity Building, Chicago.

order that the inhabitants of the district shall accord to all such officers whenever met the salutation usually accorded to Indian gentlemen of high position—that is to say, persons riding on animals or on wheeled conveyances will alight, persons carrying open and raised umbrellas shall lower them, and all persons shall salute or "salam" with the hand.

**Strikes on Indian Railways.**  
 Calcutta.—Ten thousand shopmen of the East India railway, India, recently conducted a successful strike for higher wages and shorter hours. The authorities negotiated and their request to return to work was fully refused.

**ENGLAND.**  
**Labour Won't Stand for Anti-Bolshevik Fihu.**  
 London.—Remarkable scenes took place recently outside the Clapham Majestic Picture theater, in connection with a film entitled, "Bolshevism," which was being exhibited. Many workers in that quarter of the city, on learning that the film was an unwarranted attack on their Russian comrades, tried to rush the theater and prevent the showing of the film. The police interposed, and for the next half hour a free-for-all fight ensued, in which clubs, sticks, stones and dirt flew freely.

**CENTRAL EUROPE.**  
**Children Dying Everywhere.**  
 Manchester, England.—To bring forcibly to the attention of the British people the terrible sufferings sustained by the children of Europe as a result of the war, the "Manchester Guardian," in its issue of September 18 reproduces a number of reports of eye-witnesses and investigators who have been in Germany, Poland, Austria, and Hungary. These stories, the editor of the "Guardian" assures his readers, are "all authentic and true, describing this hideous massacre of the innocents."

**ENGLAND.**  
**Clergymen's Union Urged.**  
 London.—A trade union for English clergymen, to enforce a minimum salary for the benefit of underpaid pastors, is being advocated by a Dorsetshire minister, who does not hold with the saying that "he who is called to preach is privileged to starve." This suggestion has at least had the effect of starting a widespread discussion.

**GENERAL STRIKE.**  
**Workers Locked Out.**  
 Rockaway, L. I., Oct. 15.—The plant of the Liondale Bleach, Dye and Print Works here, at which nearly all of the 200 employees have been on strike since September 9, is running with about 75 strikebreakers, most of whom are said to have come from out of town.

**PRINTERS RECEIVE SUBSTANTIAL RAISE**  
 Sacramento, Cal.—A new job scale calling for \$29 for day and \$42 for night work, has been signed between representatives of Typographical Union No. 46 and proprietors of the job shops.

**GREECE.**  
**General Strike Complete.**  
 New York.—News which has just filtered through from Greece bears eloquent testimony to the fact that, in spite of the arrest by the "Liberal" government of the executive committee of the Greek socialist party and the reign of terror it has set up, the general strike organized by the Greek Federation of Labor for July 21st in sympathy with the workers of other European countries was a complete success. Tramways, power stations, newspapers—all industry ceased at Athens. The postmen were on strike for two days.

**FRANCE.**  
**Russian Prisoners Ill-Treated.**  
 Paris.—The "Populaire" of this city has rendered an important service to the working class movement by its fearless exposition of the conditions under which Russian prisoners of war interned in a concentration camp at Souhness, near Verdun, are living. These prisoners, it develops, were captured originally by the Germans, but handed over after the armistice to the French authorities.

## Domestic Labor News

**Trimming Workers to Join A. T. W.**  
 New York.—From all indications another splendid addition to the ranks of the Amalgamated Textile Workers of America will be made soon. It is confidently expected that the Amalgamated Textile Trimming Workers' union, an independent organization centering in New York, will join the larger organization of textile workers. Already affiliation has been recommended to the membership by the executive board.

**International Labor Meets.**  
 Washington, D. C.—Delegates from Germany, Austria, Hungary and Bulgaria are expected to come to Washington next month, under permission, rather than official invitation, to attend and take part in the first meeting of the labor conference provided for in the league of nations pact.

**Labour Supports Real Prince.**  
 Seattle.—One of the humorous by-plays of the visit of the Prince of Wales to North America is the fact that the Irish workers of Seattle are organizing on behalf of a Seattle worker and union man, Victor Norman, who they claim is the real Prince of Wales.

**Normal, according to records declared to be locked in vaults in Windsor Castle and the Tower of London, is the first grandson of the late King Edward.** Edward was married to Lady Mary Montague, an Irish gentlewoman, in 1850, three years before he married Alexandra of Denmark, it is maintained. This marriage, say the Seattle men, was legal. The son born as a result of this union was King Edward's first child, and the father of Victor Norman of Seattle.

**Cossackism at Its Worst.**  
 New York.—American cossackism at its worst was shown in this city on Oct. 8, when a parade of Russian workers, the purpose of which was to make a demonstration in favor of lifting the blockade against the soviet republic of Russia, was charged by a detail of the police and the unarmed participants were ruthlessly clubbed and wounded.

**General Strike.**  
 Of All Lumberjacks in Eastern Washington, Idaho and Montana, Caused by companies raising board 25 cents a day and making a charge of \$1 per week for blankets. Majority of camps shut down and more joining out daily. This strike called by majority vote of Spokane district of L. W. U. United action alone can win. All must strike together.

**Sweden, Denmark, Holland and other countries to remain.**  
 There is a possibility that the American delegates will not get into the conference at the start. Until the treaty shall have been ratified by the senate, the United States is outside the league of nations, and hence its delegates are on the same footing with those from Germany or Bulgaria. Sessions are to begin on Oct. 29.

**Five topics are to be discussed by the delegates of the nations: Work for women, regulation of work for children, social insurance and prevention of occupational accidents and diseases.**

assembled in Washington Square in the late afternoon with banners and placards bearing inscriptions such as, "Save the Starving Children of Russia," "The Blockade Is Un-American—It Is Against All the Principles of the Constitution," etc. Scarcely had the parade begun to move up Fifth avenue in a perfectly orderly fashion, than 26 mounted police began what is described by eye-witnesses as "a ferocious hunting-down of men, women and children, a merciless tramping, under iron-sided hoofs, an orgy of clubbing, punching, kicking, head-splitting and bone-cracking, such as New York has never before witnessed." As a result, many were wounded and two children are reported in a dying condition.

Not satisfied with having dispersed the lawless crowd, the police turned their venom upon those who upon the first onslaught had fled upon the Brevoort hotel and adjacent vestibules of apartment houses. All of these were forced to run the gauntlet of the policemen's clubs before being permitted to depart for home.

In defending its position the police maintains that the parade was undertaken without permit.

Eight persons were arrested and are being arraigned on charges varying from "disorderly conduct" to "criminal anarchy."

**Printers' "Vacations" Continue.**  
 New York.—The immense printing industry of New York, which embraces 90 per cent of the entire magazine and 75 per cent of the book business of the country, continues to be tied up as the workers continue on strike on behalf of their "44-50" demand (44 working hours and \$50 wages weekly). Most of the leading periodicals have announced that their regular issues will be suspended indefinitely until the trouble is settled.

"Big Six" Typographical union, the only one of the unions involved that is not "outlawed" by its respective international, has almost unanimously turned down the proposal of the employing printers for an increase of \$6 in wages per week. This fact has considerably strengthened the position of the 1,200 or more members who have "taken vacations" in sympathy with "thel-fellow workers of the allied unions, such as the pressmen, feeders and binders.

Some 125 shops have already settled on the terms of the strikers.
