

JACKSON HOLDS FOR BONDING ISSUE

Denies Injunction Against City Administration 'in Much-Mooted Question of \$600,000 Worth of Bonds.

On the ground that the proposed issuance of \$600,000 worth of funding bonds by the city administration neither creates a new debt nor increases the now existing, District Judge Joseph R. Jackson, in district court Saturday, denied the application for an injunction against the city played for by John S. Parker.

Parker, who alleged he was the owner of more than \$1,000 worth of city warrants which could not be cashed because of lack of funds by the city, asked for an injunction against the bond issue on the grounds that the action of the city council was not legal in that an election was not held to permit the people to decide whether the bonds should be issued or not.

The argument in the matter was held before Judge Jackson July 24, and was taken under advisement. The judge's decision was not rendered until Saturday. In effect, it holds the action of the city council in contracting for \$600,000 worth of funding bonds is within the law.

WOBBLES MAY INDOORSE THIRD INTERNATIONAL

(By the Federated Press.) Chicago, Aug. 30.—Proposals that the general executive committee of the Industrial Workers of the World should endorse the complete program of the Third International met with objections, and a motion to that end was lost.

This question will be submitted to a referendum among the whole membership, who will be asked to vote also upon alternative proposals.

That we do not officially endorse the Third International program, explaining to that body that we favor an "Economic Industrial International."

That we endorse the Third International with reservations as follows: Provided that we will take no part whatever in parliamentary action, and reserve the right to develop our own tactics according to prevailing conditions."

The Third International's program, as outlined by its president, Zinoviev, includes: dictatorship of the proletariat everywhere; soviet power; massing of the population of banks, land monopolies and large capitalist establishments and industries.

JUDGES AGAINST CUT IN RAILROAD FARES

(By the Federated Press.) Chicago, Aug. 30.—Three judges of the United States circuit court of appeals, sitting en banc yesterday, temporarily restrained the state public utilities commission from enforcing the railroad passenger rate of two cents a mile.

When the railroads were confronted with the recent wage war to their employees, they asked the utilities commission for leave to increase the intrastate passenger rate. This plea was denied, the commission ruling that the roads must go back to the two-cent rate Sept. 1, when they return to private control. The two-cent fare was authorized by the statute of 1917.

The three judges are F. E. Baker, F. E. Geiger and G. W. English. Judge Baker said the evidence indicated that "a two-cent rate would be confiscatory, inasmuch as the interstate commerce commission has ruled that a rate of 3.5 cents per mile is necessary for the railroads to operate on a business basis."

ANOTHER BIG FACTORY GOES "AMERICAN PLAN"

(By the Federated Press.) Racine, Wis., Aug. 29.—The Hamilton Beach manufacturing company, which closed its plant four weeks ago, looking out 1,000 employees, announced that its factory will reopen as a non-union shop as soon as the required number of persons return for work, but that under no consideration will union labor agents be permitted to mingle among its employees.

If the unionism of the company is not accepted, the big factory will remain closed and the entire product be manufactured at Watertown, Conn. The company gives one week to its former employees to make application for work under the new rule.

URGE GARMEN TO DODGE DENVER FOR TIME

Street Railway Union There Declares Strike Still Is on and Company Advertising for Strikebreakers.

Charging that the Denver street car company is advertising in newspapers throughout the northwest to take the places of street carmen who have been on strike there since Aug. 1, and that the advertisements falsely state the strike was called off Aug. 7, the Denver carmen's union has written to the Butte Street Railway's union urging that fullest publicity be given the real facts in the Denver matter.

The letter states that the strike demands for adequate wages and better working conditions. That although the division unions did vote to recall the strike order Aug. 7, in order to comply with court orders, and that on Aug. 9 the men notified the Denver Tramway company they were ready to return to work, on two days later the company notified the men they could be employed only as individuals, a proposal which was declined by the men.

The strike is still on, declares the letter, and the men are out 100 per cent. The president and the executive board of the railway men's union are in jail serving 90-day sentences.

The Butte union is requested to advise all prospective employees of the Denver Tramway company to stay away until the present trouble there is settled.

NEW EDUCATION IDEAS FOR LABOR

Bureau of Information Is Started by New York Unions to Be Used by All Workers of Country.

(By the Federated Press.) New York, Aug. 30.—Establishment of a central bureau of information on labor education for the whole country was voted by delegates representing 70,000 workers at a conference of the United Labor Education committee.

The decision to support the information bureau was made on the basis of a report of the recent conference of labor education in Chicago. Rose Schneiderman, president of the Women's Trade Union league, and Abraham Lefkowitz, organizer of the Teachers' union, presented the report from Chicago, which recommended that a bureau be maintained by workers' educational bodies throughout the country in order to link up the various units.

An exchange system of educational literature, lecture courses, and plays in English and Yiddish, will be started by the bureau at once, it was decided. It is expected that the United Labor Educational committee will take the initiative in the work.

General officers elected at the conference were: M. English, chairman; Rose Schneiderman, J. Jakobson and J. Levine, vice presidents; M. Feinstein of the United Hebrew Trades, secretary, and Edward C. Rybicki, of "Big Six," treasurer.

MANY HAVE MOVED FROM BUTTE—MADDOCK

School Superintendent Ascribes School Attendance Be Smaller Because of Decrease in Population.

Because of the marked decrease in the population of Butte since the shooting down of unarmed miners' pickets on Anaconda last spring, members of the school board, according to a statement issued by Superintendent W. E. Maddock, expect to employ a smaller number of instructors in the schools this fall than last year.

Although the teaching staff will be smaller, the decrease in the number of teachers will not be accepted by the discharge of any now on the roll, but through the decision not to employ teachers to take the places to those who resigned during the summer months.

The decrease in the population, with its attendant lessening of the number of scholars, will be of one benefit, according to Superintendent Maddock, in that it will lessen the congestion in the schools, but the housing situation will be as bad as ever, he says. It is being planned to run the Lincoln and the McKinley schools on half-day shifts as last year, with the overflow being cared for in other buildings which will be rented for the purpose by the school board.

FRENCH COMMUNISTS TO OVERTHROW GOVERNMENT

(By the Federated Press.) New York, Aug. 30.—A French communist party pledged to the overthrow of the capitalist system in accordance with the principles of the Third (Moscow) International is in process of formation, according to a special dispatch to the New York World.

Marcel Cachin, socialist deputy, who, with L. O. Frossard, secretary of the socialist party, has recently returned from a visit to Russia on behalf of the party, is declared to be leading the movement for a communist group.

The makeup of the proposed body, according to the dispatch, will include rank and file "left wing" socialists as opposed to the adherents of the group in the chamber of deputies, who number 61. Attempts to enlist the support of the General Federation of Labor have so far had no definite result, it is reported, but a definition of the federation's policy on this point is expected at the congress to be held in Orleans early next month. Leon Jouhaux, president of the federation, is known to be opposed to affiliation with any political group.

CANNOT EVEN SIT ON HIS OWN DOORSTEP; ON STRIKE

(By the Federated Press.) Chicago, Aug. 30.—Albert Onesta, striking leather worker, has been enjoined by Judge Dennis P. Sullivan from sitting on his own doorstep. Onesta was one of many workers locked out by Stone Brothers, leather goods manufacturers, nine weeks ago. He and his wife occasionally sat outside their home, watching the Stone firm management trying to recruit non-union workers. This got on the nerves of his former employers, and they got the injunction issued against both Onesta and his wife. They are enjoined from "watching or spying upon the complainants' place of business or upon those who enter or leave that place."

Attorney W. E. Rodriguez is fighting the injunction.

TO BE DEPORTED BECAUSE HE GAVE HONEST REPORT

(By the Federated Press.) New York, Aug. 30.—Alfred Nagel, who arrived in this country as secretary to the Latvian legation, and had been held at Ellis Island by order of the state department, will return to Latvia of his own accord, it was announced by Walter M. Chandler, legal adviser of the new republic. The state department had previously announced that Nagel was to be deported because he was considered a pro-Bolshevik. From authoritative sources it was learned that Nagel got into the bad graces of the state department by an impartial report on Soviet Russia made through the United States legation in Stockholm to which he was attached during 1919.

AMALGAMATED CLOTHING WORKERS FOR SOCIALISTS

(By the Federated Press.) New York, Aug. 30.—The New York joint board of the Amalgamated Clothing Workers of America has issued a call to all local bodies affiliated with it to assist the Socialist and labor movement of Harlem in obtaining funds to be used to remodel the building to be used as the Morris Hillout campaign headquarters during the pending campaign.

OBSTRUCTIONISM INSTEAD OF STRIKE

Workers Decide to Harass Bosses on the Job Rather Than Go Out on a Long Strike.

(By the Federated Press.) New York, Aug. 30.—Five hundred thousand workmen have initiated an obstructionist campaign in all metal foundries, machine shops and naval dockyards throughout Italy, according to a copyrighted dispatch to the New York Times. The movement is the outcome of six weeks of economic betterment carried on between the Metal Workers' Federation and the Owners' association.

"Obstructionism has been adopted in preference to a formal strike because it is a legal method of protest," the dispatch says, "whereby the men avoid a drain on their union funds and, except for having to forego supplementary piece work rates and overtime remuneration, compel the masters to keep all departments working to maintain full capacity at high pressure and pay full weekly wages for a minimum of work."

"The federation has issued a new code of ten 'commandments' for the men's guidance. For instance, every man must be at his post, but unless the setting in motion of machinery be preceded by a signal most distinctly audible to all dependent departments, they must not start work."

"They must refuse to operate any machine unless all its parts are in perfect order and fitted with every prescribed menu of protection against danger."

"Supposing any hands are dismissed in consequence of such 'scrupulousness,' no strike will follow, but they will be marched into the works regularly amid their comrades and the workers' general committee will bring the necessary action to bear to nullify the authority of the industrial or foreman, in case the firm proclaims a lockout."

SOCIALIST CAMPAIGN OPENS IN NEW YORK

(By the Federated Press.) New York, Aug. 28.—The 1920 campaign of the socialist party will be opened here tonight at a mass meeting in the Central Open House, Seymour Steiman, candidate for vice president, Joseph D. Cannon, candidate for governor of New York state, and Agner Lee, running for congress in the 14th congressional district, will be the chief speakers. The purpose of the meeting will be to protest the policy of the government in supporting the war against Soviet Russia.

The local campaign for the reelection of the five socialist assemblymen who were ousted last spring has been opened by Louis Waldman, candidate in the Eighth assembly district. A vigorous drive for success in the special election Sept. 16 is now in progress.

Possible fusion of the republican and democrats in the contested districts will not defeat the socialist ticket, according to Julius Gerber, executive secretary of the New York county organization. The support of non-socialists sympathetic to the principle of representative government is expected to be a factor in the election.

BROOKLYN WORKERS TO MEET WITH EMPLOYERS

(By the Federated Press.) New York, Aug. 25.—(By Mail.) The workers of the Brooklyn Rapid Transit system who have given Receiver Lindsey M. Garrison until Aug. 28 to grant their new demands for a closed shop and increased wages, have agreed to confer with him on all questions involved in the new demands, excepting that for a closed shop.

The closed shop demand will be put up to the workers for their action at a mass meeting, the date and place of which have not yet been fixed.

The decision to confer with Garrison was arrived at in an all-day conference between representatives of the Amalgamated Association of Street and Electric Railway Employees, the union of the B. R. T. men, and Transit Construction Commissioner John H. Delaney.

The new wages asked by the union are for \$5 to \$2 cents an hour for conductors on the elevated and subway, \$2 to \$0 for guards on elevated and subway, and \$2 to \$4 cents for surface car employees.

Reactionary Iowa State Fair Officials Seek to Bar Sales of "Brass Check" But Court Enjoins Them.

The following self-explanatory telegram has been received by the Bulletin from Upton Sinclair, noted author of the "The Brass Check," "The Jungle," and other books of international fame:

"Frank E. McCarthy, president of the Iowa World War Veterans, rented a booth at the Iowa state fair, beginning last Wednesday. He stocked up with 5,500 cloth-bound copies of 'The Brass Check,' and started to sell them to the farmers of Iowa. The fair management ordered the closing of the booth and attempted to cancel the concession on the ground that 'The Brass Check' is I. W. W. literature."

"It appears there are a few progressive publishers left in America. James M. Pierce, publisher of the Pierce farm weeklies, Des Moines, engaged an attorney and obtained a court injunction at 9 o'clock Friday evening. It was served on the fair management at 1 o'clock Saturday morning."

CHAFFEURS' STRIKE TIES UP EXPRESS IN N. Y.

(By the Federated Press.) New York, Aug. 30.—Total stoppage of the business of the Westcott Express company and the New York Transfer company has followed the strike of all the chauffeurs, expressmen and helpers employed by the two concerns, who number about 1,000 men. The men's demands for the eight-hour day and for an increase of the lowest wage from \$21.60 to \$30 cannot be met by the companies unless the interstate commerce commission allows a raise in freight rates, this is declared. The only alternative is to go out of business.

TOMMY, BELOVED OF GIRLS, IS 'IN BAD'

Favorite of Female Attaches of Courthouse Falls From Grace and Puts Officers to Rout.

Tommy, beloved of all the girl courthouse attaches, has fallen from grace. After a life of virtue and sobriety, Tommy this morning lost his grip on the water wagon's sea; and fell to earth with a dull, sickening thud. Tommy was palpably drunk.

The first intimation that Thomas had fallen from the boardwalk as rectitude came when the diminutive cuss started in to "clean up" on Special Officer Jack Melia and put that doughy officer to flight. Other courthouse attaches, including Melia's assistant, Jack Duggan, also decided that discretion was the better part of valor when Tommy shook a wicked paw at them.

Then, like Alexander of old, Tommy sought new worlds to conquer. Spying a fighting bulldog across the street, he weaved an uncertain path toward the dog, intent on adding the animal to the list of the vanquished. But when the scene of his objective had been reached Tommy was seeing two dogs instead of one and was uncertain which was the one he had set out to fight. Then he quit.

Tommy is the courthouse cat. During the destruction of 19 cases of Canadian whisky, destroyed this morning by Officers Melia and Duggan on orders from District Judge Jackson, Tommy picked up a jug that would delight the bear or any bibbler. He seemed to have a decided liking for the mellow liquid that ran from the broken bottles on its way to the sewer, licking it up with gusto.

The whisky is a part of that recent seizure by the county attorney's dry squad in raids on booze runners.

MACHINISTS AND BOSSES IN FIGHT

Cry of the Masters Is "No More Unions" and Struggles Rage Over Question of Open Shop.

(By the Federated Press.) New York, Aug. 30.—What appears to be a death struggle between District 45 of the International Association of Machinists and the North Jersey Manufacturers' association is now on in Newark.

More than 1,000 machinists have been on strike for from 8 to 18 weeks in association shops in support of a general schedule of wages and conditions drawn up by the union for the district and already put into force in 35 independent shops employing between 2,000 and 3,000 men.

The strike has the full support of the international president, William H. Johnson, and the general executive board. They have ordered sympathetic strikes in other parts of the country where members of the North Jersey association have branch factories. These companies are the Oils Elevator company, the Empire Cream Separator company, Charles Borup, the Humana company, Gref Engineering company, American Can company, and the Beaver Machine company.

Demands of the machinists include the 48-hour week, increased wages, recognition of shop committees, and the setting up of permanent arbitration machinery.

A letter from a union member to the New York Call claims that the Manufacturers' association has used the blacklist, employed professional strikebreakers and gunmen, slugged the pickets, and sent agents provocateurs and spies among the men. It has also attempted to create religious and race prejudices in its efforts to get the men back to work, the letter states.

The strikers have declared their determination to remain on strike until their demands are granted.

GORKY SPEAKS TO DEPARTING ROOPS

Addresses Communist Soldiers off for Polish Front; Message Is One of Encouragement.

(By the Federated Press.) Berlin, July 15.—(By Mail.)—Through the Russian Correspondence bureau, which is in close touch with news sources in Soviet Russia, there has reached here the authentic text of the brief speech made by Maxim Gorky to a contingent of communist troops leaving Moscow early last May for the Polish front. Gorky's words, which seem prophetic in the light of subsequent events, were as follows:

"Comrades: I should like to say a few words over your heads intended to reach the ears of the honest Polish bourgeois citizens, if there be such anymore."

"In the past the Polish land owners waged a long struggle with the Russian czars for the purpose of acquiring more land and more slave labor. In the course of this struggle it happened that the Poles entered the Kremlin and the Russian Warsaw. The struggle ended with the victory of the Russian czars. Thrice has the Polish empire been cut in pieces by the embittered Russian autocracy. From the days of that bitter struggle something has remained in the hearts of us Russians, as well as in the hearts of the Poles, that threatens to give a particularly terrible and implacable character to the last war."

"That's the way things stood before. Now the situation is different. Now the workers and the peasants have the power. Soviet Russia accepts no responsibility for the sins of the autocracy. But the influence of the past is great and the after-pains of the olden days are still deeply felt in the people's soul. And this very thing can lend a national character to the war that is able to unite all classes, despite various conflicting interests."

"And now, comrades, I should like to say a few words to you about the struggle that you are waging, now after blow is falling upon your heads. And why? Merely because you want to establish life upon new principles. The opinion prevails in a section of society that you are making mistakes in your work of construction, that you are sometimes allowing perhaps unnecessary horrors in your struggle. But you are not hated because of your mistakes and your cruelties. There have been cruelties before, and plenty of them. You are hated merely because you have destroyed the old bourgeois political state and have created new life."

"Comrades, I hate war, as the most horrible phenomenon, but if anyone springs at my throat, I shall defend myself with the last drop of my blood. The pan-Poles are forcing the war upon us, despite all the efforts of the Soviet republic to find a peaceful solution; they are springing at our throats. So let it be war! Behind you stand the workers and peasants of all Soviet Russia, and you shall be victorious! Noble comrades, I salute you!"

Quotations from the last part of Gorky's speech have recently appeared in several American newspapers, credited to various sources, but the above is believed to be the first time the complete text has appeared in English.

HERE ARE SLOGANS FOR JIM COX AND HARDING

(By the Federated Press.) Chicago, Aug. 30.—Dr. E. A. King, of this city, writing to the New Majority, has a few three-word slogans to suggest to the democratic and republican parties in order to win the laboring vote in November. He says they will suit either party: "Profit, interest and rent. Money changers, money lenders, and usury. Betting, gambling and futures. Famine, high prices and profiteering. Robbery, hold-ups and murder. Arrests, trials and sentences. Police, detectives and stool-pigeons. Jails, prisons and penitentiaries. Lawyers, judges and courts. Injustice, prosecution and persecution. Life sentences, electrocution and hangings. Illiteracy, ignorance and insanity. Child labor, prison labor and wage slavery. House of correction, detention homes and lunatic asylums. Strikes, lockouts and labor slugging. Adulterated food, shoddy clothing and hovels. Misery, want and starvation. Prostitution, adultery and lechery."
