

Books for Women

Many women are industrious readers, but they read a lot of stuff that leaves very little or no impression upon their minds. They waste time as well as their vitality by reading a lot of trash. It is because so many women are habit-bound that social progress is so slow—they close their minds absolutely to the ingress of a new thought. Women must become actively interested in something beyond their clothes and social patter. How can we have world citizens unless the women are world citizens themselves? They live in a too narrow circle. Here is a small list of books that will help start a young woman in a way of reading that will soon put an end for her to the frivolous bunk that is peddled out as the best sellers.

- John Ruskin's "Sesame and Lillies," and his "Crown of Wild Olive."
- Emerson's Essays.
- Bjornstjerne Bjornson's "The Fisher Maiden."
- Henrik Ibsen's Plays.
- Voltaire's "Candide."
- Bernard Shaw's "Man and Superman."

or any of the books that are for sale by the Bulletin, the list of which is to be found herewith. We must start from where we are and these and similar books will help to build up the mind. Women have been thrown headlong into the hopper of puritanical commercialism. This is a generation of rebels—it could not be anything else. Literature cries out against economic injustice, and against tyranny. I have written this, the closest possible connection with what I have lived through, even if it has not been my own personal experience; in every new play or poem I have aimed at my own spiritual emancipation and purification—for a man shares the responsibility and the guilt of the society to which he belongs. Hence, I once wrote the following dedicatory lines in a copy of one of my books:

To live is to war with fiends
That infest the brain and the heart;
To write is to summon oneself
And play the Judge's part."

HUNGARY AND FRANCE TO UNITE FOR AGGRESSION

Reactionary Elements of "White Terror" in Close Co-operation With French Imperialists.

(By the Federated Press.)
New York, Sept. 25.—Details of the new alliance between France and Hungary for the purpose of carrying on the war against Soviet Russia, and the belief, for aggressive purposes against Germany, have been revealed in a special telegram from Budapest to the New York Times. The dispatch follows:

"I learn from an excellent source (which) the appointment of Count Emich Csaky as Hungarian foreign secretary is most probable. Csaky is one of the most zealous supporters of the alliance between Hungary and France.

General Balthasar Lang, chief of the military cabinet of Admiral Horthy, will arrive in Paris with several Hungarian staff officers, it is said, for the purpose of the complete equipment of the Hungarian army at the disposal of the French government, but the task of the delegation in all probability will be of greater political than military importance.

"Dr. Dvorzak will leave for Paris. Dvorzak is the leader of the Slovakian party which seeks separation from Bohemia and reunion with Hungary. Those facts indicate the character of the new political policy of Hungary and the attitude of France."

ESSAY INTO CAPITALISM BY CZECH CO-OPS FAILS

(By the Federated Press.)
Prague, Sept. 1 (By Mail).—Within a year after its foundation, the co-operative society organized with considerable eclat by the Czech National Socialist party finds itself in financial trouble and is on the point of going out of existence. The various organizations combined in the co-operative society were run along almost purely capitalist lines, buying and selling everything possible, regardless of anything but making profits.

This method did not suit the majority of the members, who began to withdraw their invested savings by the wholesale, and so many complaints were made that the courts had to intervene. Now it is reported that the stocks of the co-operative have been sold to Kriebel and Rosenkranz, a pair of millionaire businessmen, and the end of the venture is at hand.

In the meantime, the genuine co-operatives operated by the Czech Social Democrats and by the German speaking Social Democrats are flourishing and are likely to take over thousands of the former members of the Nationalist organization.
