

SUPER-PATRIOTS SAVE US FROM SOVIETISM

Group That Started Spy Hysteria During War Devotes Tactics to "Saving" America From "Reds."

By LAURENCE TODD. Staff Correspondent Federated Press. Washington, Dec. 4.—The American Defense Society, which discovered and "sold" to the American public in 1917 the gentle art of hating the people of Germany and of discovering a Prussian spy in every wage-worker born with a German name, is now saving us from Sovietism.

Dr. Hornaday, whose sensational views on the Kaiser used to be front-page stuff, is one of the moving spirits of this undertaking. Other officers of the society are William Gungor, Perry Belmont, David Jayne Hill, Charles S. Fairchild, Charles J. Bonaparte and Henry B. Joy. Richard Washburn Child is their prophet. They quote him:

"Up America! Wreck her! Put us under a reign of terror! Do this for a few adventures with a new pattern form of government! Drive us to swallow their will! Expose my wife and babies to mishandling! No! Give me a policeman's night stick. You say there is already enough volunteers to keep order? But not enough emergency workers to keep life going? Then away with questions of capital and labor! They're hurried out of sight now under something else. This is a question between the community and chaos. Work must be done. Give me overalls, and a number on my hat, and put me with the gang!"

Then the society adds to this outburst: "In Wartime Everybody Helped by Filling the Jobs Where They Could Be Most Useful. Will You Volunteer to Do It If STRIKES AND REVOLUTION Come to Your City?"

A detailed scheme for breaking strikes in all the public utility services, newspapers, etc., is offered by the society in a leaflet entitled "How to Prepare." How patriotic is this strike-breaking endeavor is disclosed by * * * "It is not advisable in forming a nucleus for a volunteer force, to call in the aid of local newspapers at too early a period." It suggests that some of its leaflets be inserted in the front of newspapers. One leaflet for the workers bears this legend, the very essence of fact: "Are You an Unintentional Friend of Bolshevism?"

Spy-catching and red-catching has so affected the American Defense Society that it sees Bolshevism in every trade union activity, revolution in a strike, and—apparently—a pitiful claim in every wage-worker. It even tightens itself to the extent of sending this circular, dated from 116 East 24th street, New York, to Indianapolis to be mailed.

And while it hisses into the ear of the American public, in these circulars, that "Prevention of a universal strike by the One Big Union depends upon preparedness efforts by every loyal citizen in every community" the New York Times prints on its front page on Nov. 23 this comment by Washington D. Vandierlip head of the Russian trade syndicate, called to the Chicago Tribune: "President Wilson now is endeavoring to balk trade with Russia by engineering a Bolshevik scare in the United States. If he succeeds in hoodwinking the public, it will be a most colossal blunder and a fitting climax to the most idiotic administration ever indicted on the American people."

But the American Defense Society knows better. It knows that there is, or ought to be, a terrible One Big Union which will pull off a revolution by general strike, and it is going to enlist all the golf club gentlemen to drill in their nightgowns, if necessary, in hot-footing to the street car barns, the electric light and gas plants, the water works, the newspaper offices, and the coal yards, to save us from "Strikes and Revolution." But you mustn't let the papers know about it until you are all organized and trained in heaving the coal in the gas plant. Somebody might misunderstand. They might mistake you for a mere foolish strike-breaker.

FEDERATION OF WORKERS IN METAL TO REORGANIZE

Washington, Dec. 4.—Reorganization of the International Federation of Metal Workers' unions, with headquarters in Berno, is under way, and the American delegates to the first conference—probably to be held in the summer of 1931—will present a program of world-wide cessation of the making of munitions and armaments, according to E. C. Davison, general secretary-treasurer of the International Association of Machinists.

Correspondence with Secretary H. G. Berno, shows that the Italian, German, French, Spanish and even the Japanese metal workers are ready for such a program. The British, organized in the great Amalgamated Society of Engineers, are likewise sympathetic. They have a discussion with the federation at present, as to back dues, but will doubtless be in full affiliation by the time the conference meets.

Metal workers in most of the continental countries are now affiliated with Berno.

LABOR PARTY WAGING AN ACTIVE CAMPAIGN IN B. C.

By H. W. WATTS. Special Correspondent for the Federated Press. Vancouver, B. C., Dec. 4.—The first active Labor party campaign waged for many years is now taking place in British Columbia, under the auspices of the Federated Labor party. The party is contesting 10 constituencies out of 39. The date for nomination was fixed by the government for a date only 20 days previous to the election which took place December 1. This gave the party but very little time to make the necessary arrangements and to obtain suitable candidates.

When one realizes that this province is a veritable wilderness, with towns few and far between and constituencies covering hundreds of miles in some instances, the difficulties of campaigning are apparent. The Federated Labor party, however, expects to obtain a foothold in the provincial legislature, and in that event efforts will be made to build up a machine strong enough to contest every seat in future elections.

MILWAUKEE TO LOSE PART OF POPULATION TO EUROPE

(By the Federated Press.) Milwaukee, Dec. 4.—With each steamship ticket agent here reporting between 10 and 15 applications a day for passage to countries in Europe, and with the internal revenue department stating that a veritable run on their offices is being made for income tax clearance certificates, it is presumed that Milwaukee will see the largest exodus of dissatisfied foreigners in its history within the next two months.

Ever since the ban on immigration to Europe was lifted by the government, a steady stream of aliens, disgusted with working conditions and political ostracism in this country, it is said by the agents, have been moving toward the eastern ports.

At times local agents reported that they had singly made as many as 300 and 400 reservations in a month.

It is estimated that about 2,000 persons will leave before Christmas. "The total number of Milwaukee aliens who departed for their home lands during the past year is calculated to be in the neighborhood of 10,000, according to the agents."

LUMBER CAMPS REDUCE WAGES; LENGTHEN HOURS

(By the Federated Press.) Seattle, Wash., Dec. 4.—Logging companies of Washington are using the bonus system to force long hours and increased production, as well as to break down, if possible, unions. To be entitled to a bonus, most employers require that men stay on the job at least six months. It is figured that the lapses due to men quitting before the six months are up will more than make up the sum paid in bonuses to the men who stick it out.

Men are being worked 10 hours daily, seven days a week, some of the camps as a result of the bonus system. With the 10-hour system firmly established, wages will be forced down, according to plans of the logging operators.

Closing down of a lot of shingle and sawmills was done with the object of reducing wages, union officials assert. Some of the mills are re-opening, but with a cut of about 25 per cent in the wage scale.

STRIKING BROOM MAKERS MAY START OWN FACTORY

(By the Federated Press.) Milwaukee, Dec. 4.—Members of the Broom and Whisk Makers' union, which is promoting a strike in protest against the alleged attempt of the Milwaukee Broom Makers' association to establish the open shop policy, are seeking a building in which a co-operative broom factory, representing an investment of \$10,000, will be started.

The union's decision to open a factory was reached in a meeting attended by 25 members, in which \$2,000 was subscribed, according to President G. W. Peterman.

"We decided operation of a co-operative factory would be our best course. In view of the fact that the employers in this particular line throughout the country are endeavoring to disrupt the union and organized labor generally, by adopting the open shop policy."

DEBS VOTE INCREASED 100 PER CENT IN CONNECTICUT

(By the Federated Press.) Hartford, Conn., Dec. 4.—The board of canvassers has announced that the official vote for Debs in this state was 10,335, an increase of 100 per cent over the Socialist vote for 1916. The Debs poll was equal to that received by Charles T. Peach, Socialist candidate for governor.

FRISCO OFFICIAL WILL SHIFT CHARGES

District Attorney Brady Will Shift Charges of Perjured Evidence in the Mooney Case.

(By the Federated Press.) San Francisco, Dec. 4.—District Attorney Matthew Brady and members of his staff in a formal statement have announced their determination to go to the bottom of the charges that Tom Mooney and Warren K. Billings were sent to prison in the premeditated day bomb cases on perjured testimony. Brady has asked the grand jury to make a thorough investigation of the charges made by Patrolman Draper Hand in his recent recital of details of frame-up to Mayor James Rolph, Jr.

At the same time it was announced that one of the most important clues yet developed in disproving the long assailed testimony of Frank C. Oxman, "the honest catleman," had been given to the district attorney by a man whose name Brady withheld. The information, contained in a letter written by a Californian who claims he is not interested in the case one way or another, was that Oxman, chief witness against Mooney, admitted after the trial, without qualification, that he had lied on the stand and said he intended to set the case right, Oxman, according to the letter, made the statement to Cameron Bristol of Philadelphia, friend of one Carlo Tomba of Philadelphia, a graduate of Columbia university.

On this information Brady sent out to have Tomba, now a San Francisco visitor, brought to the Hall of Justice to pass upon the testimony in the letter. Oxman denied having any knowledge of the alleged confession of perjury by Oxman.

In the midst of hope for the emancipation of Mooney and Billings revived by the Hand confession, a letter from Folsom Prison shows that he is not letting too great hope prepare him for a bitter disappointment. Billings has been allowed to cultivate a garden in an abandoned quarry, and spends much time out of doors. "I do not expect to eat Thanksgiving dinner in freedom," he writes. "But perhaps we shall all meet again by Christmas."

ABDUCTION CHARGED IN ZOLA McNINCH MATTER

Orville Paige and Ralph Redfield, accused of having abducted Zola McNinch, 14, from her home near Whitehall on November 17, were arraigned yesterday at Boulder and given preliminary hearings, at which they were bound over for trial before the district court. Bonds in each instance were fixed at \$1,000.

The disappearance of the McNinch girl created a sensation, and for several days searching parties scoured the vicinity of Whitehall. Following the arrest of Redfield, he confessed to Sheriff Locker that he and some others had engaged in a plot to assist the McNinch girl to escape from the home of her parents and go to Salt Lake City, where she was to await the arrival of Paige, to whom she was engaged, despite the opposition of her parents.

On statements of Redfield the McNinch girl was found at the home of one of Redfield's relatives in the Utah city. Paige had been unable to join her. The girl was brought back to Whitehall and Paige and Redfield were charged with abduction.

JAPS ENTER DENIAL OF ATROCITY ALLEGATIONS

Tokio, Dec. 3.—The Japanese war office issued a communique denying categorically charges made by missionaries of atrocities in Korea.

The communique declared mission buildings reported destroyed had been burned because they were headquarters for Korean insurgents. The statement characterized the charges as pure propaganda.

Missionaries recently brought reports to Tokyo that Japanese troops had been engaged in systematic destruction of houses of Christians, as well as schools and churches, at Chientao, Korea, and declared Christian men were killed without investigation and that the alleged atrocities had been committed with great brutality.

CHINESE TONG MAN DIES WHEN REPRIEVE IS DENIED

San Quentin Penitentiary, Cal., Dec. 4.—Ong Mon Foo, Chinese tong man, was hanged at 10:18 this morning and pronounced dead at 10:30. Until the last moment, friends of the condemned man worked for his reprieve and up to the very moment the trap was sprung. The telephone line was kept open from the prison to the governor's house, Sacramento, to receive any orders for a last minute reprieve.

METAL MARKET.

New York, Dec. 3.—Copper, nominal; electrolytic, spot and nearby, 13 1/2@14; first quarter, 12 1/2@14 1/2. Tin, firm; spot and nearby, \$35@35.00; futures, \$36@36.75. Antimony, \$5.75@5.87. Zinc, steady; East St. Louis spot, \$5.75@5.90. Lead, \$6@5.50. Bar silver—Domestic, unchanged; foreign, 65 1/2c.

YANDERLIP SAYS

(Continued from Page One.)

wants to throw the Pacific ocean wide open, so he says, and in combination with Canada, Australia and Russia he wants America to work out such policies as will keep the ocean free.

Although he does not say in so many words that America will have to contend with Great Britain in this plan, unless she "gets in on the ground floor" speedily by establishing full trade relations, his appeal is fervent.

"France and England are demanding payment of the war's debts. Russia does not refuse, but is asking how to pay Russia for the support of an army of 1,000,000 men used for two years to repel invaders who have never declared war. These include the United States."

Russia has had seven years of war, and does not want to fight any more. Vanderlip reminds his American hearers neither does she like to be shot down by American-made bullets, he says.

"The Russians are fighting against American machine-guns, rifles, poisoned gas, airplanes and all that magnificent equipment which America sold to France."

They have beaten England, France and Poland on the Polish front and France in the Crimea. They are driving the Japs back to the sea. In a few months the latter will have been cleared away from the Siberian littoral, and this with no help from America. I can also assure you that the Japanese will soon be cleared off the mainland of Asia, and this includes Korea. The Japanese are at last caught between the upper and nether millstones represented by Russia and China on the one side and America on the other. Russia is grinding."

"The open door" for which America has clamored for 30 years, will soon be a reality. The Russian people do not ask your sympathy. Their message to you is: Tell the American people to send us locomotives and our own steel will rest until every Jap in Siberia is under the ground or in the sea. They do not seek conquest, but are determined to back their own."

Vanderlip said that he saw nothing in communism to terrify him. "I do not regard a citizen. There is free speech in Russia such as does not prevail in America, and the government ownership of the land simply prevents the recurrence of the great landed estates that held the land under the czar, he said."

Something of the sound common sense in a recently rumored phrase of Lenin is echoed in the Vanderlip appeal. Lenin is reported as saying: "Our nation, which for three years resisted imperialism everywhere, has become an international factor by granting mining and industrial concessions to America, we shall gain further material success over the capitalist countries because, instead of fighting us, they will be compelled to watch over our security."

Now Vanderlip is saying: "All that is necessary to bring peace and reconstruction to Europe is that congress restore trade relations with Russia they will be compelled to back away in Downing street certain seasoned British ministers are realizing that instead of fighting Russia they will be compelled to watch over her security."

MINE OWNERS

(Continued from page one.)

the aisle of the car where the shooting occurred and was slashed across the face. As he turned to leave the car he was shot by one of the guards and badly wounded. He is now in the tent colony under medical care."

Under arrest, the guards were lodged in the county jail in Wilkeson. One of them is declared to have said that he received \$8 a day and expenses for crushing the union, says the telegram.

On Nov. 24, the day after the shooting, a conference was held between Judge Bailey of the circuit court of Minyo county, prosecuting Attorney Brown and his assistant, the incoming sheriff, Pinson, Keoney, and Dave Fowler, financial agent of the international organization of the union, the telegram goes on.

"At the conference it was stated to us that martial law was contemplated by reason of the operation of our officials and members in assisting the federal authorities in preserving law and order. We urged Judge Bailey to arrange a conference between us and the operators, pledging all our power to settle the unfortunate situation, but the operators refused our request and Judge Bailey would not meet."

The operators also refused to confer with Judge Bailey and co-operate in maintaining order, said Keoney. Instead, approximately 100 operators and business men met in the courthouse and voted by a majority of 8 for martial law, many of the men refusing to vote at all. This was merely a vote to take the responsibility of declaring martial law off the shoulders of the governor, Keoney declared.

"The railroad men and miners, constituting a majority of the taxpayers of the county, were denied a vote upon that question," Judge Bailey and the prosecuting attorney acquiesced in this arrangement. It is plain that in establishing martial law the governor has answered the call of the operators. The real citizenry of that county is almost unanimously opposed to this unnecessary step."

MARKET REVIEW
