WAR LAW REPEAL FAVORABLY REPORTED

WILSON DODGES MENTION OF TREATY OR LEAGUE IN MESSAGE TO CONGRESS

(Special United Press Wire.)
Washington, Dec. 7.—The resolution repealing all war laws was favorably reported by the house judiciary committee.
Action on the resolution may be taken by the house Friday.
The laws exempted from the repeal are the Lever food and fuel control act, trading with the enemy, corporation and Liberty bond acts.

PRESIDENT'S MESSAGE.

(Special United Press Wire.)
Washington, Dec. 7.—President Wilson called upon congress to enact a program of legislation which, he said, would put the United States to the forefront of the movement to make the spiritual power of democracy prevail throughout the world.

In his final message to congress, which was sent to the two houses by messenger, the president said there were two ways in which the United States may lead in establishing the doctrine of "right makes might." These ways, he said, are:

"First, by offering an example within her borders of the will and power of democracy to make and enforce laws which are unquestionably just and which are equal in their administration."
"Second, by standing for right and justice as towards individual nations."

The president declared "display of an immediate disposition on the part of congress to remedy any injustice or evils that may have shown themselves in our national life will afford the most effectual offset to the forces of chaos and tyranny which are playing so disastrous a part in the fortunes of free peoples in more than one part of the world."

Wilson did not mention the peace treaty or the league of nations, but submitted the following program to carry out the aims he outlined:
Immediate passage of the budget bill with strictest economy in government appropriations; immediate revision of the tax laws; adequate provision for disabled soldiers and sailors; a government loan to Armenia, and the granting of independence to the Philippines.

SOME BILLS INTRODUCED.
Washington, Dec. 7.—Among the (Continued on Page Two.)

MAKES SEVERAL LITTLE TRUSTS OF LARGE ONE

(Special United Press Wire.)
Washington, Dec. 7.—The supreme court ordered the dissolution of the Lehigh Valley railroad coal combine on the grounds that it has existed in violation of the anti-trust laws.
The decision is a complete victory for the government.
The Lehigh Valley combine was alleged to control the anthracite coal supply of the middle Pennsylvania field.
As a result of the decree the Lehigh Valley Railroad company, the Lehigh Valley Coal company, the Lehigh Valley Coal Sales company, Cox Brothers, Inc., and the Delaware, Susquehanna and Schuylkill Railroad company must sever their interlocking connections and become separate business units.

Alleged Robber Thanks Detective for Shooting Him in Heel Instead of in Back While Making Getaway

Detective Frank Mitchell qualified as a marksman and a "good fellow" yesterday afternoon, according to the statement of Monte Harris, alleged robber, while Harris was on the operating table at the city emergency hospital having a bullet wound in his heel, inflicted by Mitchell, dressed. Harris praised Mitchell's ability as a marksman and thanked him for choosing his heel instead of his back as a target.
Harris was shot yesterday afternoon while attempting to make his escape from Detective Mitchell, while that officer was attempting to telephone for the patrol wagon from the Oxford soft-drink establishment on South Main street.
The detective placed Harris under arrest at Wyoming and Platinum streets on a charge of having been implicated in the robbery of Pedlar's store on South Arizona street, the Delovage jewelry store on West Park street, and a room in the Curman block.

Nation-Wide Drive on to Unionize Plants of Bitter "Open Shoppers"

WOULD BAR ALL IMMIGRANTS FOR TIME

Drastic Bill Introduced by Representative Johnson Would Keep Relatives of Aliens From Country.

(Special Federated Press Wire.)
Washington, Dec. 7.—Pursuing his chase of the "undesirable alien," Chairman Johnson of the house immigration committee yesterday introduced a bill to exclude all aliens from the United States during the next two years. The law would go into effect 60 days after enactment and thereafter would exclude relatives of persons already in the United States; parents, grandparents, unmarried sons under 21, unmarried daughters, grandsons under 16 and unmarried or widowed granddaughters.
This drastic bill came in the first day of the new session of congress with the endorsement of the immigration committee. Two members of the immigration committee, Sainath and Siegel, are said to have a substitute and less drastic bill in preparation. It is rumored tonight that Johnson wishes to have his bill brought up for immediate action with a fair prospect that it will be snapped through the house with very little debate.

By LAURENCE TODD, Staff Correspondent Federated Press.
Washington, Dec. 7.—As a counter offensive against the autocratic industrial interests and commercial bodies that are spreading throughout the country for the non-union shop, announcement is made by Frank Morrison, secretary of the American Federation of Labor, that a nation-wide drive has been ordered for the organizing of employees in those establishments especially which are run by conspicuous opponents of the labor movement, in order that through their own employees they may learn the benefits of collective bargaining.
Details of the plan laid by the recent session of the executive council to make this drive effective are outlined. Morrison admits that the federation desires to make answer to the "open shop" enthusiasts in their own plants and offices, and that the federation executives stand ready to make a real effort to carry the scheme through. When asked whether Gary would be one of the first targets of this conservative attack, Morrison said: "We are not sure of that, but we are sure of the fact that we are going to make a real effort to carry the scheme through."

EAST HELENA SMELTER EMPLOYEES' WAGES CUT

(Special to The Bulletin.)
Helena, Dec. 7.—A general wage reduction of 50 cents a day for all employees at the East Helena smelter became effective yesterday. The management ascribed the low price of lead as the main factor in the wage reduction and attempted to justify the cut on the grounds that living costs also had decreased.

CALDER SCHEME IS UNFAIR TO MINERS

Catholic Church Denounces Calder Scheme as Not Granting Miners a Living Wage.

(By the Federated Press.)
Washington, Dec. 7.—In a statement upon the proposed federalization of coal mines, suggested by Sen. Calder of New York and backed by a committee of the American Institute of Mining and Metallurgical Engineers, the National Catholic Welfare Council's Department of Social Action, says:
"The position of those working in the industry is given scant consideration in the suggestions, none of the recommendations in the Bishop's program of social reconstruction being included. No assurance of being wages for coal miners is predicted. The introduction of the workers into the councils of the management is not included in the plan, and no hint is given of any application to the real wages of the principle that the workers should become owners at least in part of the instruments of production."

THE WEATHER
Probably snow.

Steps Taken to Organize All Men Engaged in Oil Industry to Union

WORLD SOVIET MAY INCLUDE CANADA

President Canadian Labor of the Opinion That Canada May Go Over to Bolshevism.

(By the Federated Press.)
Montreal, Que., Dec. 7.—"Canada is more likely to fall a victim to the world menace of Bolshevism than any country outside of Russia because the possibility of conflict is greater here." This is the prediction made by Tom Moore, president of the Trades and Labor Congress of Canada, in an interview here.
Mr. Moore, who holds the highest position in Canadian circles of the American Federation of Labor, has made several trips to Europe within the last few years and recently issued a statement attacking the Third Internationale and Lenin and Trotsky.
"The workers have no roots here as yet and have the pioneer mind," he said.
The A. F. of L. leader asserted (Continued on Page Three.)

By LAURENCE TODD, Staff Correspondent Federated Press.
Washington, Dec. 7.—Decision by the executive council of the American Federation of Labor of the dispute between the California and the Texas groups in the Oil Workers' union as to their general presidency has been settled by all parties, and the way is cleared to create in the oil industry one of the most aggressive, complete and constructive labor bodies on this continent. Three hundred thousand men handling a larger output per man than is the case in any other industry, are to be formed into a modern industrial union.
The official title of this "baby giant," which claimed only 30,000 members last year, and less than one-third of that number three years ago, is the International Association of Oil Field, Gas Well and Refinery Workers of America. Its moving spirit is Walter Yarrow, who formed the first local unions in the California.

NEW ZEALAND GOVERNMENT QUILTS PERSECUTING REDS

(By the Federated Press.)
Wellington, New Zealand.—Beginning Nov. 11, all prosecutions against conscientious objectors to the war were dropped, according to an announcement made by the prime minister in the house of representatives here.

BRITISH LABOR LEADER BEARS FLAG OF TRUCE FROM IRISH OFFICIALS

(Special United Press Wire.)
London, Dec. 7.—Arthur Henderson, bearer of a flag of truce, will present Sinn Fein peace proposals to the British government.
The British labor leader came direct from Ireland, where he talked with the Sinn Fein leaders. Other important intermediaries hastened back and forth with peace messages.
No flat declaration that a truce impends was made by authorities on either side, but the atmosphere is clearer than in months.
It was indicated fighting would continue to the hour of the armistice, if it comes. The government will continue to raid and arrest, and the Sinn Feiners to continue their campaign of guerilla warfare.

GOVERNMENT JOB OFFERED LABOR OFFICIAL

Senator Lodge Strongly Supports Duncan for Secretary of Labor in the New Cabinet.

(By the Federated Press.)
Washington, Dec. 7.—Gossip at the capital is to the effect that James Duncan of Quincy, Mass., first vice president of the A. F. of L., is strongly supported by Senator Lodge for the job of secretary of labor. Duncan was appointed by President Wilson, last spring, to be a member of the interstate commerce commission. A republican senate has never taken steps to confirm the nomination. During the campaign Duncan, though a close personal friend of Samuel Compers, supported Harding. Nevertheless the brand of President Wilson's approval is upon him, and for that reason his chances for confirmation in the commission post, to say nothing of selection to the cabinet, are not considered good.
Duncan is president of the Granite Cutters' international union, and was the labor member of the Roosevelt mission to Russia in 1917. He made a speech to the Petrograd soviet, during that visit, on the subject of the union label.

A lorry load of police bearing Brandon was surprised in the darkness by attackers hidden in the bushes last night. The police hastily took to cover, apparently without injury to any one. They were rescued shortly afterward by soldiers attracted by the sound of gunfire.

ORGANIZED LABOR FORCES SCAB BAND FROM PARADE

(By the Federated Press.)
Detroit, Dec. 7.—Union musicians won round two against the Detroit News when the scab band of the News was ordered out of the recent Masonic parade after representation in behalf of the union was made to the lodge officials.
Recently the Detroit Federation of Labor, the Webb Pressmen's union and the Musicians union declared a boycott against the Detroit News because the News fostered a scab band and discriminated against a union pressman. The first round was won by organized labor when the News band was forced out of the Armistice day parade.

WOBBLY CASE DISMISSED IN SOUTH DAKOTA COURT

(By the Federated Press.)
Aberdeen, S. D., Dec. 7.—John J. Garpland, member of the Industrial Workers of the World, who has been in the county jail here since July charged under the state criminal syndicalist act, was released. The state has been delaying the case on the plea that they were unable to get in touch with valuable witnesses. This morning Garpland's preliminary hearing took place and the case was dismissed. It appeared that the prosecution had given up hope of obtaining their valuable witnesses.

CANADIAN GRAIN CONCERNS MAKE MILLIONS IN WHEAT

(By the Federated Press.)
Calgary, Alta., Dec. 7.—United Grain Growers, Ltd., the grain growers' co-operative movement of Alberta province, had a business turnover of more than \$112,000,000 during the year ending Aug. 31, 1920, according to T. A. Crerar, president of the association and leader of the farmer labor party in the house of commons. The combined profits of the company and the subsidiary companies which it owns totaled \$594,770, a little more than one-half of one per cent upon the turnover.

MOONSHINERS NOT WANTED.

(Special to The Bulletin.)
New York, Dec. 7.—According to "Tusky-Golos," a Russian paper in this city, the Russian Educational Society, New Britain, Conn., has excluded from its membership three men, who, though formerly honest laborers, have recently established a "moonshining" business. The society has decided that there will be no drunkards and no exploiters among its members.

Argument Heard in Cases of Five Socialists Who Want New Trial on Grounds That Judge Landis Unfair

By PAUL HANNA, Special Federated Press Wire.
Washington, Dec. 7.—Argument was heard in the supreme court of the United States yesterday afternoon in the case of Victor L. Berger and his four socialist co-defendants who have appealed for a retrial, because of the alleged prejudice and consequent unfairness of the original trial judge, Judge Kenesaw Mountain Landis.
It is the belief of Attorneys Steadman and Coehms that the argument

in the case will be heard later this week. The case of the five socialists, all of whom face long prison sentences for alleged violations of the espionage law, was the last of six on yesterday's calendar and the readiness of the other litigants to proceed with their argument created an unavoidable delay.
Attorney General Palmer and Assistant Attorney General Nebeker, who prosecuted the Industrial Workers of the World in 1918, were present in court today.
