

Daily Appeal. BY McCLANAHAN & DILL. GRENADA, MISS.

MONDAY EVENING, AUGUST 18, 1862.

TO OUR FRIENDS. Gentlemen who arrive from the United States with late papers, will confer a favor by leaving them at the counting room of the APPEAL office...

MEMPHIS. All the news we receive from Missouri comes through Federal sources, but it is nevertheless of the most cheering character. It indicates an almost general uprising of the people of that State to resist the authority of the Federal Government...

HONOR TO WHOM HONOR IS DUE. The Vicksburg Circle generously corrects the impression that is prevailed that the honor of defending that city is claimed exclusively by Mississippians...

THE FEDERAL ON THE UPPER MISSISSIPPI. The reinforcements sent to McClellan, on the Potomac, has left in the West only a small portion of the Federal forces heretofore engaged in the Mississippi valley. We have information from the various points between St. Louis and Cincinnati...

MEMPHIS INTELLIGENCE. We have the Bulletin of the 16th, but find in its local items little worthy of note. A few business notices and a number of reports of robberies and other crimes make up the principal portion of this department of the paper...

RETIARMENT COMMENCED. The Richmond Enquirer states that the Federal officers were twenty-three in number, and five inflicted to the amount of \$71.60.

THE MILITARY DEPARTMENT OF SOUTH CAROLINA has resolved to place negroes on the works of the harbor of Charleston, and to impress them into the service when it is absolutely necessary.

HIGH PRICES. A letter from Columbus, Miss., mentions the following list of prices in that city: Flour is \$40 per barrel; sugar is 12 to 30 cents per lb.; whisky \$20 per gallon...

INSTRUCTIONS FOR DRAFTING IN THE NORTH were forwarded to the Governors of the delinquent States on the 12th, but three to be issued from the War Department were not to be made public until after the 15th.

NORTH CAROLINA ELECTION. We have not sufficient number of returns, says the Wilmington Journal, to decide the question of the election, but we must admit that the complexion of those received so far, would seem to indicate the very probable election of Col. Vance.

THE PROVOST MARCHAL OF KENTUCKY, MIRA, has been engaged in trying an individual charged with stealing bacon. He evidently has not read the letter of the Secretary of War, recently published, relative to the special mission of provost marshals.

THE STEAMSHIP MEMPHIS. This ship, captured at Charleston, had on board a valuable cargo, consisting of about 1200 bales upland cotton, 250 bales Sea Island cotton, and about 500 barrels rosin. She will prove a rich prize to the Yankees.

LEACH & RIGDON, Novelty Works, Columbus, Miss., are manufacturing a superior revolver, on the same plan as the celebrated "Colt." They are prepared to fill orders to the extent of fifty per week.

THE MINISTERS. The Commercial is informed that the steamer Lady Pitt, on a recent trip, put off four hundred barrels of salt at Mitchell's landing, a point between Island No. 10 and Fort Pillow. This salt was taken at once by the Confederates and transported into the interior.

IT IS STATED THAT STONEMAN JACKSON is a major-general in the regular army—not a provisional. It is not likely he will return to civil life again, as field duty agrees with his health, which has been very feeble at times from dyspepsia.

FROM TUPPER. The correspondent of the Mobile News, writing on the 13th, says I am indebted to Captain J. M. Loughborough, of General Price's staff, for the following official account, the substance of which has already been telegraphed you.
