FLORIDA NEWS. A correspondent of the Savannah Morning News, writing from Camp Fremont, under date of the 21st, states that about two weeks ago, the Yankee deserters came into our lines in squads of from two to five per day.

Up to the present night we have heard of no new case for alarm in the neighborhood of the city. Precautions have very properly been taken against any sudden emergency, signals being especially charged with the collection, shipment and disposal of the arms and accoutrements of the militia troops.

The Bulletin expresses the opinion that, if the citizens are wise, "they will actively prepare to defend their city." It is a question that a large majority of them, outside of the proper Yankee population, and a very few such traitors as the Bulletin's editor, would gladly welcome the appearance of FORRESTER and his heroes.

The personal of the boasted militia organization is not satisfactory to the Bulletin. Of the three thousand men in the ranks, it wants to know "how many are mechanics, lawyers, editors, bankers, horse-raisers, and so on."

Deserters have come in quite frequently and amount to this date to some fifty or sixty, many bringing their horses with them. They all tell the same story—that they were made drunk, and then compelled to march, and that they were not in the ranks of the militia.

THE Little Rock Unconquered Union has recently changed officers—W. M. Fabbick retiring, and T. D. W. Thayer succeeding him. The names of Abraham Lincoln for President, and Gen. Andrew Johnson for Vice-President, are displayed at the head of the editor's column.

THE "loyal ladies" of Little Rock have formed a Union Aid Society for the relief of soldiers from Arkansas now in the Federal service, and their destitute families. The ladies say: "There are in this city, at this time, many widows and children, whose husbands and fathers have responded to their country's call."

THE Democrat has the following paragraph: "The editor has received a late number of the Washington (Ark.) Telegraph, a rebel paper, which he says is more a strange discrepancy between the article in this paper and the number of that paper."

PRISON LIFE ON JOHNSON'S ISLAND. By an Exchanged Prisoner Returned to Mobile.

From the Advertiser and Register. Mobile, Ala., April 18, 1864.—The necessity of relieving the crowding amount of prison life among our enemies, will compel the removal of such as would interest and instruct the public, and who are not otherwise employed.

Johnson's island lies just within the entrance of the Bay of Sandusky, about three miles north from the city of that name, and half a mile from the point of mainland north of it, jutting into the water, and nearly rectangular in shape, at the entrance of the bay.

The extent of the ground inclosed is about four acres, and is almost square. It is surrounded by a high wall, and the wall is high on the outside of the wall, and the wall is high on the outside of the wall.

The barracks comprise thirteen long, two-story buildings, and are arranged in a parallelogram, running north and south the whole length of the enclosure, and being near the western side of the same.
