

RUSSIANS SMASH TEUTONIC LINES, PETROGRAD SAYS

Capture Two Lines of Enemy Trenches About Postavy

GERMANS BOMB DVINSK

Hostilities Are Developing Along Entire Front in Baltic Provinces

LONDON, March 28.—More Teuton lines have been captured before the Russian offensive in the Baltic sector, according to a Petrograd official statement issued last night.

"Our troops captured two lines of enemy trenches after desperate fighting in the region of Postavy, which is in the district between Lakes Naroc and Vichnevoike has encountered obstinate resistance.

"The enemy bombarded Stolbitz station and Koidanovo, southwest of Minsk. Along the remainder of the front hostilities are developing."

"German aeroplanes are making more frequent flights along the entire front. Twenty bombs have been thrown into Dvinsk."

Today's official report from Berlin says that heavy Russian reinforcements were thrown against German lines near Postavy. They withstood all the enemy attacks and checked repeated onslaughts. Two Russian divisions suffered severe losses. Repeated enemy attacks in the darkness, near Mokhrayev, were also repulsed.

VIENNA, March 28.—Admission of a withdrawal from the Danube Railway, in Galicia, by Austria-Hungarian troops, is made by the Austrian War Office, but it is stated that the main positions of the Teutonic forces remain unshaken.

Following is the official report: "Fighting near La Tacez on the Danube River, described in the Russian reports as engagements, has constituted only vanguard actions and skirmishes. Austro-Hungarian troops engaged on reconnoitering withdrawal to the main positions, when strong Russian forces advanced. The Russians did not attempt to attack the main position of the armies of General von Pflanzer and General von Dahlen."

BERLIN, March 28.—Bent on saving themselves from a forced retreat on a front of more than 100 miles, the Russians are renewing their attacks against von Hindenburg's armies with great fury. It is admitted that the Russian losses since the memorable retreat from the Danube, began nearly a year ago. But German officers pointed out today that it is absolutely necessary for General Kuropatkin to continue the attacks or else admit defeat.

The German field marshal halted his drive when the Czars' troops had fallen back to lowland positions, knowing that nature would come to his aid this spring. Within a few weeks the spring thaws will set in in the northern country. Russian trenches in the lowlands will be flooded and it will be necessary to withdraw the whole Slav line. The Germans will suffer somewhat from the floods, but will not be forced to give ground to any considerable degree. For this reason the Russians are wasting ammunition extravagantly in an effort to seize positions on higher ground before the spring freshets begin.

Hospital Fund Campaign Ends Today. Today will close the campaign of more than 350 workers to raise \$150,000 for the erection of the Osteopathic Hospital of Philadelphia on the site of the Reynolds property. Yesterday it was announced that the contributions for the day were \$522.75, and that the total receipts were \$60,343.75. Announcement as been made that in the first campaign ever conducted by the osteopathic profession in the city will be engaged.

THE WEATHER

Official Forecast. For eastern Pennsylvania and New Jersey: Rain tonight; Wednesday partly cloudy; moderate to fresh northeast to north winds. The storm that was central over Ohio yesterday has moved very slowly southward and is over the Virginias this morning. It caused rain throughout Maryland and most of Pennsylvania yesterday and again last night, although it did not begin in Philadelphia until this morning. The temperatures have fallen slightly at most places from the Mississippi River eastward and are unseasonably low in the South, with front reported from the central and eastern Gulf States. Fair weather and rising temperatures are reported generally from the plains States.

U. S. Weather Bureau Bulletin

Table with columns: Station, 8 a. m. Rain, Wind, Velocity, Weather. Lists weather conditions for various cities like Atlanta, Boston, Chicago, etc.

PINKERTON advertisement. Text: 'The scuff and pounding of the little ones' shoes make hardwood floors desirable in every home. Their hard wearing qualities—apart from the extraordinary durability and beauty—make them well worth the little extra they cost.' Includes logo and address: 3034 West York St.

USE OF RAILWAYS IN MEXICO HELD UP BY CARRANZA ORDER

Continued from Page One

WASHINGTON WITHOUT NEWS OF CARRANZA'S REFUSAL

WASHINGTON, March 28.—There was no official confirmation in Washington today of the dispatches from El Paso that General Carranza had decided to bar American military authorities from using Mexican railways for the transportation of supplies to the punitive expedition. It was stated, however, in official circles that such a move on Carranza's part would occasion a great surprise. It was pointed out that if the First Chief had intended to allow the use of the railways he would have done so immediately upon the entrance of American troops into Mexican territory. Such a move on his part at that time, it was said, would have done much to relieve the apprehensions existing throughout the United States as to his attitude and would clarify the whole situation.

U. S. TROOPS IN HOT PURSUIT AS VILLA FLEES TO SOUTH

EL PASO, Tex., March 28.—The latest official advices from the American expedition to the north, full flight toward the foothills of the Sierras, with American detachments in his wake. General Gacira, of Juarez, made public the following message from Colonel Francisco Bertani, commander of the Carranza garrison at Madero: Villa at El Oro. Believes that Colonel Carranza is one of our chiefs closest to Villa. Both ours and the American forces harass Villa constantly. The Mexican residents of this section, which has been ravaged time and time again by Villa bandits, are freely giving information concerning Villa's flight, supplies, armament and strength to the American military authorities.

While much of this information has been too indefinite to be of value, it is presumed that the knowledge that the Americans are kept informed as to his movements has influenced the bandit chieftain to the greatest haste in his retreat.

Although the United States troops are following closely in his wake, so far, it is stated, no fighting has taken place.

FUNSTON MUM ON MOVE TO SEIZE MEXICO RAILWAYS

EL PASO, Tex., March 28.—Major General Funston today refused to comment on the dispatches from El Paso stating that General Carranza had refused to let American troops use railways in Mexico, but it was intimated at his headquarters that the Mexican situation had become more serious.

The present truck service is already overburdened, and it will become more inadequate the farther General Funston's forces proceed southward. Many tons of provisions have been sent to El Paso in anticipation of a favorable response from Carranza.

Overnight reports from the Columbus base to Fort Sam Houston brought no news of any clash between General Pershing's pursuing columns and the wily Villa. Nevertheless, General Funston is aware that American troops will be able to turn the fleeing bandit chieftain before he escapes into his mountain den, and force him to give battle.

U. S. REFUSES TO FURNISH ARMS TO ARIZONIANS

WASHINGTON, March 28.—Senator Ashurst was informed by the War Department yesterday that it could not under the law furnish citizens of Arizona 2000 rifles requested by the Governor for purposes of self-protection against raids from Mexico.

Senator Ashurst made public a telegram from Secretary Baker to Governor Hunt, explaining the department's refusal. It said: "There is no authority of law for this issue of arms. In the present apparent panicky state of mind of citizens along the border, I do not think that arms should be placed in the hands of any bodies of men except those who are under the severest discipline. The presence in border towns of armed bodies of citizens is liable to result in some unfortunate incident which might precipitate the very troubles that all wish to avoid. I cannot recommend the indiscriminate arming of the civilian population. Consular reports indicate that there are few Mexican troops along the border. General Funston is aware of conditions and is believed to be taking such steps for protection of citizens as conditions demand."

Acting on the suggestion of General Funston, General Scott, chief of staff, has directed that a limited number of Indians in Arizona be enlisted as scouts and guides with the American force in Mexico. About 8 or 10 will be sent.

VILLISTA-AMERICAN PLOT UNDER SEARCHING U. S. PROBE

WASHINGTON, March 28.—Investigation of the raids on Columbus and various developments in Mexico—parts of a reported plot on the part of an American to bring about intervention by the United States—is in progress by this Government, according to a dispatch from the State Department.

The investigation will include the summoning of Bernard Gallani, a former Villista, to the United States.

Senator Ashurst made public a telegram from Secretary Baker to Governor Hunt, explaining the department's refusal. It said: "There is no authority of law for this issue of arms. In the present apparent panicky state of mind of citizens along the border, I do not think that arms should be placed in the hands of any bodies of men except those who are under the severest discipline. The presence in border towns of armed bodies of citizens is liable to result in some unfortunate incident which might precipitate the very troubles that all wish to avoid. I cannot recommend the indiscriminate arming of the civilian population. Consular reports indicate that there are few Mexican troops along the border. General Funston is aware of conditions and is believed to be taking such steps for protection of citizens as conditions demand."

Acting on the suggestion of General Funston, General Scott, chief of staff, has directed that a limited number of Indians in Arizona be enlisted as scouts and guides with the American force in Mexico. About 8 or 10 will be sent.

"Seize Mexican Railways Anyhow," Urges Senator

EL PASO, Tex., March 28.—"Ignore Carranza's arrogant refusal to permit American troops to use the Mexican railways," take them at once," send troops into Mexico and treat every armed Mexican, Villista or Carranzista, for what he is—an outlaw and a bandit. If President Wilson could forget his pride of opinion and see the truth, the Mexican problem would find a ready solution."

Thus United States Senator A. B. Fall, of New Mexico, spoke his opinion of the Mexican situation today, while supplies for the American troops of the punitive expedition were blocked by order of the de facto Government.

BANDITS RAID FABENS RANCH OF EX-MAYOR OF EL PASO

EL PASO, March 28.—Villista bandits last night raided the Fabens ranch of C. E. Kelly, ex-Mayor of El Paso. They were routed by two small detachments of the 8th Cavalry, of the attack. About 100 shots were exchanged in a running fight before the Mexicans escaped across the border in the darkness. The raiders obtained nothing.

The bandits crossed the border under cover of darkness, raided the ranch and beat the superintendent. This man, though badly injured, made his way to the T. M. Wingo ranch and informed a detachment of Troop K, 8th Cavalry, of the attack. Sergeant Burns immediately led a "flying squad" of ten cavalrymen in pursuit of the bandits.

The Mexican raiders had disappeared by the time the troopers reached the Kelly ranch at midnight. It was believed they had recrossed the Rio Grande, but to be doubly sure of this, two other cavalry detachments were hastened to the vicinity to scour the border.

The bandits were unquestionably Villistas. It is in this district that supplies have been smuggled into Mexico to help "Pancho."

Sheriff Peyton Edwards, after an investigation, announced today that he was unable to locate the bandits, but he was sure of this, two other cavalry detachments were hastened to the vicinity to scour the border.

Kelly insisted that his foreman, L. M. Baker, saw bandits in the act of rustling cattle about dusk yesterday and summoned troops stationed at the nearby Wingo ranch. Kelly said his Mexican caretaker was assaulted by the raiders.

FINES FOR FALSE REPORTS ON WAR AT "HOME OF LIES"

NEW YORK, March 28.—Juan T. Burns, Mexican Consul here, today received word from Mexican Consul Garcia, stationed at El Paso, that authorities of the border town, disgusted with alarmist reports sent from there, have passed an ordinance making it criminal to send out obviously false statements. The penalty, Burns is advised, is a fine of \$25 to \$200. The ordinance becomes effective April 5.

Since the Columbus massacre, El Paso has been a hub from which starting reports have come with regularity. Many of these have been found without foundation. In Washington last week officials termed El Paso the "home of lies."

AMERICAN MINE OWNER SHOT IN MEXICAN RAID ON BORDER

AUSTIN, Tex., March 28.—A dispatch from Terlingua, Tex., near the border, says the border military patrol is in control today of a situation created there as a result of a raid from which starting reports have come with regularity. Many of these have been found without foundation. In Washington last week officials termed El Paso the "home of lies."

The only details contained in the dispatch was that Roberts was in a serious condition and that the border patrol was in control.

Villistas Take Town, Is Report

EL PASO, Tex., March 28.—News that General Carranza's forces had captured Villista, 30 miles from Terlingua, was reported to have caused a panic among the foreigners. Terlingua's Carranza garrison numbers 400.

Calm Mexicans in Chihuahua

WASHINGTON, March 28.—The Governor of Chihuahua has issued a proclamation to his people which has had the effect of maintaining calm in the State, according to a message from Consul Letcher today.

Trolley Crew Beaten By Strikers' Friends

Guards at Axle Works in Wilkes-Barre Also in Clash. Many Riot Calls

WILKES-BARRE, Pa., March 28.—Strike sympathizers today stoned a trolley crew at the Georgetown division of the Wilkes-Barre Railway Company. The attack was made by mill workers, men and boys. The motorman and conductor were dragged from the car and beaten. One of the injured men frightened away his assailants by drawing a revolver and firing into the air.

Trouble also occurred in the eastern part of the city, when employees of the Shelden Axle Works and guards in the employ of a strike-breaking agency clashed at an early hour. The mill workers drew up to the sidewalk and three guards with riot clubs and revolvers attacked the men. The guards say the mill workers hurled iron bolts and stones through the windows of two cars.

For a few hours the police were busy answering riot calls. A squad was sent to the Georgetown section to break up the trouble there. Another squad was sent to East Side to stop disorders in that section.

John Burke, 18 years old, was admitted to a hospital here today, suffering from injuries sustained in a fist fight with one of the employees of the traction company. He says he was assaulted without cause.

Traction Company employees issued a statement today, in which they call for the men in Wyoming "with red blood in their bodies" to come to their support in suppressing riots and the fight to ride trolley cars without molestation.

U. S. TO QUESTION BERLIN DIRECT ON THE SUSSEX

Continued from Page One

George H. Crocker, one of the three American seriously injured in the Sussex disaster, is in a serious condition at the Dover Hospital today and may not recover.

The American survivors landed at Dover and Boulogne lost part or all their personal effects in the crash. Several remained in London and cabled home for funds before resuming the journey to Paris.

The text of the partial report of Captain Monte of the Sussex, which is now in the hands of the British Admiralty, was telegraphed here today. The Sussex's commander said he saw the white flash of a torpedo on the port bow an instant before the channel liner was struck.

Ambassador Page is forwarding to Washington affidavits taken from American passengers who were on the Sussex. Some of these deponents quote officers of the ship as saying she was torpedoed without warning.

Fund of \$50,000 for Negro Children

The Christiansburg Industrial Institute's campaign, conducted by the Friends of Freedom's Association, for \$50,000 for the training of negro children, netted \$49,254 at its close, according to an announcement today. The campaign ended last night. It was also reported that \$100,000 is on its way in letters not yet received.

AUSTRIANS WIN GORIZIA BRIDGEHEAD FROM FOE

Italians Driven From Podgora Heights Position—Attack in Tyrol Fails

VIENNA, March 28.—The capture of an Italian position near the Gorizia bridgehead, together with 13 officers and 512 men, and the repulse of counter-attacks was announced today by the Austrian War Office in the following official report:

In the Sugana Valley enemy artillery has bombarded Colonel Donato. On the Tyrol front there has been an artillery duel of moderate intensity. In the Plocekt sector the enemy used reinforcements in an effort to win back lost trenches, but failed. The attacks continued throughout the night.

Near the Gorizia bridgehead the Austro-Hungarian troops captured a whole position of the enemy north of Podgora Heights. Five hundred and twenty-five Italians, of whom 13 were officers, were captured.

The engagements in various sectors of the front were very violent. On the Balkan front, east of Durazzo two Italian field guns and a quantity of ammunition have been found.

Hatfield Paperhanger Attacked. LANSDALE, Pa., March 28.—As he was locking his chicken house last night, George Garner, a paperhanger, who lives in Hatfield township, near the borough limits, was knocked unconscious by a blow from a blunt instrument. His assailant then left the place, for only one blow was struck. Garner does not know who attacked him.

Union League Employees Form Club

Union League employees now have a club of their own. It is due to the Billy Sunday revival. It was noticed that the men in their "time off" wasted their time and money, so it was suggested by some of the trail-hitters that club quarters be fixed up in the basement. Superintendent Homiller took the matter up with the House Committee of the Union League and the plan went through. About 165 employees now play pool or use gymnasium apparatus under their own roof.

L. B. reaches every kind of business

Consider what it means that ten of the Federal Reserve Banks are equipped with Library Bureau card and filing systems. You may not be interested in bank records and equipment; that isn't the point. This is: forty years' contact with all sorts of business has given Library Bureau expert knowledge in the handling of business details.

This has been applied to develop and standardize all L. B. methods and equipment. In any case, be your business large or small, Library Bureau is qualified to tell you a lot about the right kind of files and card records. It will pay you to invite L. B. in on your proposition, because our ideas are helpful to a man seeking the best methods of filing.

Write for catalog, "Card and filing supplies," "Unit wood cabinets," or "Steel filing cabinets."
