

BLOOD SHED
BRITAIN TAKING JERUSALEM
Army Which Captured Holy City Composed Largely of Jews

JEWS HERE REJOICE
News Declare Victory Will Mean Realization of Hopes for Nation in Palestine

Have read in the newspapers that British have taken Jerusalem. It is what we have not read so much, though it is almost literally true, is that Jews have taken Jerusalem. Philadelphia Jews, and particularly those who are rejoicing today in common with Jews all over the world, in the news of the Holy City from the British. They see their dream of a country of their own, coming nearer, much nearer, to realization. The hopes of Jews religious, political and economic are now—freedom to develop Jewish art and Jewish science, Jewish commerce—which Jewish hearts have so long cherished, seem to be coming to fruition.

English Flag Flies Again in Jerusalem

has been given some aid to permit their return home. Jerusalem—now once again restored to us from Turkey's ruthless grasp of centuries—is an ideal spot for a capital. It could be the site for a great commercial or trading city. "But my plan would not be to bring to Jerusalem the Jews who have prospered throughout the world. Rather, I would have drawn to the new capital, and the new nation the oppressed of other nations. "Most important of all, with a Jewish nation established Jews throughout the world would feel they had a home once more, and this even if their condition and circumstances did not enable them to emigrate to Palestine. "My suggestion for a temporary protectorate is based on a desire that its Jewish nation and the interests of its people should be permitted to grow under the fostering care of some great power which has no self-interest in Palestine. "Thirteen million Jews throughout the world look today to Jerusalem—the Holy City restored. What could be more fitting than a Jewish nation reborn after centuries of Jewish travail?"

NEWS AND CHRISTIANS REJOICE
In Philadelphia today is the unusual situation of Jews and Christians uniting to rejoice in what is the victory of the Allies and for the Jews and for the Christians.

Charles Cowen, member of the executive committee of the Zionist Organization of America, who has headquarters at the Lafayette Building, said: "The victory is fraught with the highest significance for the Jewish people and particularly for the Zionists. We are all overjoyed. As you know, there are many Jews in the British army to which the Turks have surrendered Jerusalem. They wanted to fight in that army because in fighting there they were fighting for their own country, Palestine is their country and Jerusalem is their city, and we believe it will be restored to them. It is not unfeeling to say that this restoration should be effected at the hands of the British and Christian peoples. Most of the Christian peoples favor that restoration. Christ was a Jew and the Jews are His people."

LOOK FOR JEWISH NATION
"We can now look for a Jewish nation in Palestine. You remember the British declaration, made by Mr. Balfour with the approval of the British War Cabinet on November 2:

"His Majesty's Government views with favor the establishment in Palestine of a national home for the Jewish people, and will use its best endeavors to facilitate the achievement of this object. It being clearly understood that nothing shall be done which may prejudice the civil and religious rights of non-Jewish communities in Palestine or the rights and political status enjoyed by Jews in any other country."

Thirteen Negro Soldiers Hanged

Continued from Page One
The court-martial which tried the Houston rioters had been carefully selected. It consisted virtually of general officers, in order to make the trials fair and avoid injustices which might aggravate the race issue. The Inspector General and the Judge Advocate General's departments worked together to see that full justice was done. The Houston riots, in which at least thirteen white men and two negroes were killed, started as a result of trouble between the negro soldiers regarding construction of a camp for Illinois recruits and the Houston police, the soldiers complaining that the police treated them disrespectfully and cruelly. About 9 o'clock the night of August 23 the rioters who had resolved to fight it out assembled in their camp and started a march on Houston. The police said the trouble originated with the arrest of a negro woman in the downtown section. A negro soldier demanded that she be turned over to him, and when the police refused he remonstrated so insistently that he, too, was arrested. Major Shaw attempted to control the angry negro soldiers, but failed and was himself almost killed. Fifteen National Guardsmen were rushed to the scene of the trouble. The colonel was killed and his body mutilated; the negro soldiers had begun firing at all white persons they could see and also emptying their guns and revolvers into houses. Police and citizens joined the guardsmen and finally the negroes fled, except those that were killed or wounded or taken prisoner. Later other suspected of participation in the rioting were arrested. A controversy between the civil and military authorities as to jurisdiction followed.

FISH PRICES FIRST ON FOOD SCHEDULE

Jay Cooke, New Administrator, Will Announce Cost to Public on Thursday
The first official action of Jay Cooke, the new Federal food administrator for Philadelphia County, will be to announce prices for fish on Thursday, according to a statement made at his office in the Finance Building today. A field investigation, coupled with a series of conferences with producers, wholesalers and dealers of fish, is being made by the administrator. Beginning Thursday the prices will be announced in advance for each meatless Tuesday and Friday to prevent the fish man from profiting unduly from the patriotic abstinance from meat.

TWO CAMDEN SAILORS LOST ON JACOB JONES

Relatives of W. T. Laskowski and Henry P. Favreau Give Up Hope
Relatives of two Camden men, members of the crew of the torpedoed United States destroyer Jacob Jones, whose names are among those missing, have about given up hope that they were saved. The men, who are believed to have been the victims of a German submarine, are William Laskowski, known in the navy as William Lasken, 1151 Hadden avenue, and Henry P. Favreau, 1207 Lansdown avenue. Laskowski has been in the navy eleven years, and Favreau seventeen years. Both young men ran away and enlisted under false names to prevent investigators learning where they lived, friends say. The former is declared a hero by his friends, who recalled how he closed the scuppernocks of the Jones as she sailed out to sea for the first time a little more than a year ago, at the risk of his life. During the American occupation of Vera Cruz, Mexico, in 1914, Laskowski was shot by insurgents. He was struck in the arm and in falling fractured both legs, spending several weeks in a hospital. Revised lists by the Navy Department show that twelve Philadelphians instead of ten, as first reported, were on the destroyer. The names of the two men not previously reported are those of Walter J. Morrisette, 2921 Edgeport street, and Thomas Emmons, 2507 South Lehigh street. Those men are included in the list of the eight Philadelphians still unaccounted for.

TWO CAMDEN SAILORS LOST ON JACOB JONES

Relatives of W. T. Laskowski and Henry P. Favreau Give Up Hope
Relatives of two Camden men, members of the crew of the torpedoed United States destroyer Jacob Jones, whose names are among those missing, have about given up hope that they were saved. The men, who are believed to have been the victims of a German submarine, are William Laskowski, known in the navy as William Lasken, 1151 Hadden avenue, and Henry P. Favreau, 1207 Lansdown avenue. Laskowski has been in the navy eleven years, and Favreau seventeen years. Both young men ran away and enlisted under false names to prevent investigators learning where they lived, friends say. The former is declared a hero by his friends, who recalled how he closed the scuppernocks of the Jones as she sailed out to sea for the first time a little more than a year ago, at the risk of his life. During the American occupation of Vera Cruz, Mexico, in 1914, Laskowski was shot by insurgents. He was struck in the arm and in falling fractured both legs, spending several weeks in a hospital. Revised lists by the Navy Department show that twelve Philadelphians instead of ten, as first reported, were on the destroyer. The names of the two men not previously reported are those of Walter J. Morrisette, 2921 Edgeport street, and Thomas Emmons, 2507 South Lehigh street. Those men are included in the list of the eight Philadelphians still unaccounted for.
