### 4 KILLED, 30 HURT IN WRECK

#### Heavy Toll Taken When Buffalo Express Leaves Rails

Albany, N. Y., May 14.—Four are dead today and more than thirty persons injured as the result of the derailment of the Buffalo Express, west-bound, on the New York Central lines near Schodack landing shortly before midnight. The locomotive turned over, killing the fireman instantly. The engineer was badly burned, dying later. The dead are: Alwyn Josiah Hensseler, Vincent Hughes, Chicago, Richard Sherwood, engineer, and C. G. Drummond, internal revenue inspector, Brooklyn. The injured include: Harry Scott Kearney, N. J.; John Munroe and L. S. Greenwood, Newark.

### PLAN AFOOT TO ASSURE NEIGHBORS OF AUTOCRATS

#### American Allied Pledge to Small Countries of Central and Southern Europe Urged

Washington, May 14.—A strong movement is afoot to bring an American Allied extension of direct assistance and aid if possible—to the small countries of Central and Southern Europe, growing increasingly bold and restless under Austrian-German rule. Following official reports that the Slav element in Austria has openly defied the Government and declared its allegiance to the Bohemian-Slovak union, it developed today that this country and the Allies are now informally espousing the cause of the Czech-Slovak country and working with Bohemians, Rumanians, Serbians and others to hasten the day when the iron heel of the Teutons may effectively rise up in revolt. Strong representations, however, have been made to this Government by official Slav representatives, urging that the Government should not encourage the Slav element in the small nations bordering the Black Sea and their

### GODSOL TO STAY IN JAIL

#### Motion to Dismiss Complaint Against French Agent Is Denied

Washington, May 14.—Motion to dismiss the complaint against Frank J. Godsol, French ex-soldier, accused by the French Ambassador of accepting \$1,500,000 in commissions on French war orders, was denied by Justice Hitz in the District Supreme Court here today. Godsol will have to remain in jail until the date of hearing unless other means can be found to release him. Godsol, the French Ambassador alleges in his complaint, represented to American automobile manufacturers that he was the only one who could get contracts from the French.

### Baron Courtney Dead

London, May 14.—Lord Leonard Henry Courtney, of Penwith, political economist and deputy Speaker of the House of Commons from 1886 to 1897, is dead in London.

Leonard Henry Courtney, first Baron Courtney, of Penwith, was born in 1832 and studied law. Lord Courtney, who was a Liberal, was raised to the peerage in 1906.

### DEFENDANT'S ILLNESS DELAYS I. W. W. TRIAL

Jury Dismissed When Physicians Report Patient's Condition to Court

Chicago, May 14.—Illness of another defendant delayed the trial of the Industrial Workers of the World in Judge Landis's court today. Charles Jacobson was reported unable to come to court. Physicians were sent by Judge Landis to examine him and reported his exact condition. The jury was dismissed until tomorrow.

Even without interruptions the minimum duration of the trial, it is believed by counsel, will be ninety days. This will take it to August 1.

Reproduction of the sabotage pamphlets which have been read to the jury, which have counseled the use of any tactics, regardless of right or wrong so long as they were successful, is to be attempted by the defense when their turn comes.

The prosecution, on the other hand, intends to back up the pamphlets by physical proof that the tactics preached were put in practice by members of the I. W. W.

### Japan to Float \$25,000,000 Loan

Tokyo, May 14.—The Japanese Government has decided to float a \$25,000,000 loan.

### AIRCRAFT PROBE UP TO PRESIDENT

#### Thompson to Ask Wilson's Wishes Regarding Probe by Senate

Washington, May 14.—The congressional aircraft investigation struck a new snag today and a bitter fight over its scope multiplied. Senator Thompson, chairman of the Committee on Audit and Control having charge of the Chamberlain resolution giving broad powers to the Military Affairs Committee to conduct the inquiry, made an engagement to confer with President Wilson this afternoon and learn the administration's wishes in the matter.

### GLASS FACTORY BURNS

#### Quentinmont Plant Damaged, With Loss of \$100,000

Uniontown, Pa., May 14.—The Quentinmont glass factory, at Fair Chance, employing 162 men on the night shift, was almost destroyed by fire at 5 o'clock this morning. The employees had a narrow escape when the roof collapsed and fell on a tank, breaking it open and releasing tons of molten glass. The loss is estimated at between \$80,000 and \$100,000.

### PROPOSES FARMERS' AND WORKERS' UNION

#### Plans Call for Program of Legislation From United Forces

Pittsburgh, May 14.—A movement to unite 2,000,000 organized workers of America with 4,000,000 organized farmers originating from the State Grange of Pennsylvania was laid before the Pennsylvania Federation of Labor, which opened its annual convention in the labor temple here today, by Clifford Pinchot, chief forester of the United States under President Roosevelt. "The great combinations of capital opposing the farmers are the same as those opposing labor," said Mr. Pinchot. "Nine-tenths of the legislation you men of labor want the farmer needs. The interests of the farmer and worker are identical."

Out of the union of the two forces, the farmer and the worker, according to the present plans, a great program of legislation is to be presented at the next Legislature to simplify the distribution of foodstuffs produced by the farmer. One plan is to have the distribution of food products by State-owned motor-trucks.

A resolution to endorse the Federal prohibition amendment is scheduled to go before the convention before adjournment. This resolution will meet with opposition by eighty-seven of the 300 delegates, the eighty-seven opposing delegates being members of the Trades Union Liberty League, composed chiefly of brewery workers and bartenders.

Coincident with Chairman Dooling's call, members of the Military Affairs Committee received letters from Secretary of War Baker denoting the Liberty

### SOCIALISTS OUT FOR WAR VICTORY

#### Disappointed by German Brethren and Failure of Russian Experiment

Washington, May 14.—The Socialist party of America is for the war. It will hold a national convention shortly, repudiate the St. Louis platform and adopt a new one declaring the war is the people's war for the liberation of mankind. Having come out in support of the war the Socialist party, in the opinion of some of its more influential members, probably will not nominate a candidate for President in 1920, but will support the Republican or Democratic candidate—whichever is more radical. It is virtually certain not to name candidates for Congress next fall, except in a few districts where it is especially strong and likely to win. The present attitude of the Socialist party is expressed in a signed article by Eugene V. Debs, published in his paper, the Social Builder, printed in St. Louis.

### PLATFORM AS A BLUDGEON

Debs then points out that the platform would be used as a bludgeon by enemies to strike down the party.

### DISILLUSIONMENT FOR PARTY

The St. Louis platform was adopted just after the declaration of war by this country. The Socialists were in convention at the time and before they adjourned they passed resolutions in opposition to America's position. They

### FOR CONGRESS AT LARGE

Subject to both Prohibition and Democratic Primaries, May 21, 1918. I stand for: Prompt, permanent National Government in the War for Liberty and Peace, extending and protecting Laborers' Rights, suffrage and more Rights for Women, and the present Democratic leaders putting their effect on a scale of Front-benches, if nominated by both parties. I shall probably be elected.

### SOCIALISTS PUT KAISER FIRST

The Kaiser first and socialism next expresses their attitude in fact, if not in words. They are so completely covered and paralyzed under Prussian militarism that they dare not take a revolutionary stand on any issue in the present war. If the rank and file venture out on a strike to paralyze industry as a beginning of social revolution then the frightened and intimidated leaders hastily order them back again for fear of being shot like dogs by their own Socialist comrades, the military henchmen of the brutal Kaiser.

### IT IS NO USE, SAYS MR. DEBS, TO TRY TO EXCUSE AND MAKE EXCUSES FOR GERMAN SOCIALISTS—LENINE AND TROTSKY HE PROUNOUNCES VIRTUALLY THE AGENTS OF GERMAN IMPERIALISM.

Get together and hold a convention, he advises otherwise it will be fatal to the party.

### MR. DEBS IS THE MOST INFLUENTIAL OF AMERICAN SOCIALISTS. ONE OF THE PARTY DESCRIBED HIM TODAY AS THE "SPIRITUAL LEADER" OF AMERICAN SOCIALISM. AND THAT HIS VIEW IS REPRESENTATIVE IS SHOWN BY THE UNANIMOUS VOTE OF THE EXECUTIVE COMMITTEE OF THE SOCIALIST PARTY IN CHICAGO LAST WEEK, REPUDIATING THE ST. LOUIS PLATFORM. AMONG THOSE WHO VOTED THIS WAS MORRIS HILLQUIST, OF NEW YORK, WHO HAS NOT YET COME OUT OPENLY FOR A PLATFORM SUPPORTING THE WAR, BUT WHOSE FRIENDS IN WASHINGTON SAY HE SHARES THE VIEW OF MR. DEBS AND VICTOR BERGER, OF MILWAUKEE, WHO IS NOT THOUGHT TO AGREE WITH THE OTHER SOCIALIST LEADERS REGARDING THE PLATFORM THAT IS TO REPLACE THE ST. LOUIS PLATFORM.

### THE ST. LOUIS PLATFORM WAS ADOPTED JUST AFTER THE DECLARATION OF WAR BY THIS COUNTRY. THE SOCIALISTS WERE IN CONVENTION AT THE TIME AND BEFORE THEY ADJOURNED THEY PASSED RESOLUTIONS IN OPPOSITION TO AMERICA'S POSITION. THEY

I SHALL PROBABLY BE ELECTED.

# Kelly-Springfield

## BIG—STURDY—OVERSIZED

# CORD TIRES

No manufacturer ever before made tests like these, probably because no manufacturer ever before had a tire like this.

When 500 Clean, white, brand-new Kelly-Springfield Cord Tires were delivered by our factory workmen, did we consider our job done? We did not.

We took those tires and put them on the heaviest cars we could get, and loaded those cars to weigh 5200 pounds. We ran those cars day and night over some of the worst roads that Ohio—with the help of the worst winter known to the weather department—could produce.

When we got those tires back they were no longer spic and span. They were mud-splashed, dragged, scratched and torn. But in our eyes they were the prettiest tires that ever graced milady's brougham. For each tire wore a badge of honor, a ticket showing the actual mileage made before giving out. The average of this mileage for the 500 tires was 12,000 miles.

Then we knew that we were through inventing Kelly-Springfield Cords, and ready to sell them.

Two treads—grooved and non-skid.
