BIRO NAMED HUNGARIAN FOREIGN MINISTER

BASEL, Switzerland, Nov. 23.—Ludwig Biro, a writer, has been appointed Hungarian Minister of Foreign Affairs, according to a dispatch from Budapest.

MORE SHIP LINES DECLARE STRIKE

2000 in Kensington Mills Quit When Pay Increase Is Refused

ASK 25 PER CENT RISE

Two additional ship lines with New York terminals are contemplating opening service from this port.

Representatives from the lines were in the city and made a tour to inspect the port facilities with city officials.

This was announced today by Director Webster, of the Department of Docks, Wharves and Ferries, who said the ship line officials declared themselves well pleased with the advantages of this port.

This makes a total of four New York lines, disaffected with the congested conditions at the port of New York, who are considering removing their terminals to Philadelphia.

Director Webster refused to disclose the identity of the prospective lines for Philadelphia. He said:

"There are several very good reasons why the names of the ship companies should not be disclosed at present. One reason is that it would affect the business plans of the lines involved."

Just as soon as the steamship lines have their vessels returned from the Government they will begin commercial operations. Meanwhile they are mapping out their plans for the business of the future and it is interesting to know that they are seriously considering this port.

Trade Greater Than Ever. Director Webster stated the ship trade to and from this port was greater now than ever before and that he would have figures to substantiate his statement ready for publication within a few days.

There will be a meeting of the port committee in Director Webster's office next Monday at noon, when further plans will be laid for the development of the port.

Although the coastwise commerce of Philadelphia has shown a material increase since the Federal embargo diverting shipping which formerly went by way of New York to this city, went into effect several weeks ago, the Philadelphia port will not be used to its capacity until local business men recognize its advantages and use them and induce their friends to do the same.

236,117 U. S. CASUALTIES, SAYS MARCH

Total American Losses Include 36,154 Soldiers Killed in Action

53,169 MET DEATH. 179,625 WOUNDED

Pershing Announces Divisions Slated for Speedy Return Home

NO NEARBY MEN LISTED Yankees Captured 44,000 German Prisoners and Took 1500 Guns

By the Associated Press. Washington, Nov. 23.—American casualties in the war totaled 236,117, General March announced today.

Killed and died of wounds, 36,154. Died of disease, 53,169. Deaths unclassified, 2,904. Wounded, 179,625. Prisoners, 2,163. Missing, 1,160.

Total, 236,117. Forty-four thousand German prisoners were captured and 1400 guns taken by the Americans, March said.

He added that the casualties among the American forces in northern Russia were not severe, contrary to reports, and that encouraging accounts of the situation of the forces there had been received.

To Send Troops Home. General March announced today that authority had been given to General Pershing to send back home all such troops as will not be needed in making up the army of occupation. He said that General Pershing had indicated that the following units would not be so required:

Divisions 31, 34, 38, 39, 76, 84, 86, 87. Coastal Artillery Regiments 46, 47, 49, 50, 75 and 76. In addition General Pershing indicated that the following general classes of troops will be returned:

Railroad artillery troops, army artillery, 22nd Infantry, one Handley-Park detachment, one Handley-Park detachment, and those divisions which broken up to be used as replacements for other divisions which had seen active service.

Air Squadrons Returning. Troops returning immediately from England, General March said, will include practically all of the air squadrons, sixteen construction companies, one mail maker's company, one company of engineers, one company of signers, one company of photographers and several photographic and radio sections. Orders for the return of these troops have already been issued.

The composition of the units designated for return, so far as known, is as follows: Thirty-first (Georgia, Alabama and Florida), Thirty-fourth (Alabama, South Dakota and Minnesota), Thirtieth (Indiana, Kentucky and West Virginia), Seventy-sixth (New England). The strength of the American army will be maintained in France was indicated beyond the demobilization plans announced. American troops in Italy, including the 28th Infantry, will be stationed for the time being at Florence, Rome and Trieste, one battalion of the infantry being located at each place.

To Hurry Home-Coming. Movement of troops from France will be expedited in every way, the chief of staff said, and he added that they will not "mush" into the country either. Taking up the present advance of the Allied forces, General March pointed out that the American army is heading for the front in the west, the bridgehead on the Rhine, where it should arrive about December 1. The British forces will occupy the bridgehead to the north at Cologne, and at the same time the bridgehead to the east of Mainz.

Demobilization of the forces at home is proceeding steadily. On arriving at Camp Dix yesterday General March said he would send home a day being released. Several of the present camps will be abandoned as soon as they are cleared of their occupants.

Cancellation of War Contracts. Cancellation of war contracts abroad has been left in the hands of Assistant Secretary Edward H. Steinhilber, now in France, and designated as the special representative of the War Department. On this side Major General Goethals will have charge of cancellation of all supply contracts and Major General Jersey of contracts having to do with construction for the army.

Regarding the shipment of Christmas packages to the expeditionary forces, General March said the steamer Manchuria sailed from Hoboken yesterday with 16,000 sacks containing 500,000 packages. In addition to the 3,000,000 packages which will be handled, the steamer will carry 10,000 more for men who do not receive the packages sent to them or who have no one at home to receive them.

Tank Battalions Abroad. General March disclosed that there are in France thirteen American tank battalions, equipped with the French light type of tank and four training companies equipped with the British heavy type. These are among the units which can be spared at any time. The French tanks include the 301st, 302d, 303d, 304th, 325th, 326th, 327th, 328th, 331st, 332d, 344th and 345th battalions and the 376th, 377th, 378th and 379th training battalions.

General March deferred answering all inquiries as to the reorganization of the regular army until the bill which the General Staff is preparing has been approved and laid before Congress. He said, however, that there are only 20,000 men now in the army bound by the provisions of the 1917 law, which provides that every six days now, where only one such trip was made every month before. The increased trade between Philadelphia and Houston is but an example of what will be a wife and two children.

Police believe his death was accidental.
