Attorney General Schaffer Presides at Opening Session at Bedford Springs

COMMITTEES GIVE REPORTS

Bedford Springs, Pa., June 24.—The opening of the twenty-fifth annual convention of the Pennsylvania Bar Association here this afternoon was featured by an address by Attorney General William C. Schaffer, president of the body. Scheduled for discussion during the meeting of the association are the league of nations, enemy property, reform in court-martial and other topics connected with the war and the making of peace.

The annual meeting of the executive committee, at which Robert S. Gattethrop of Chester county is chairman, was held this morning. Shortly after the regular session of the convention opened in the afternoon, reports were read by Hampton L. Carson, of Philadelphia, chairman of the law reform committee; Francis H. Kohlen, of Philadelphia, chairman of the committee on legal education; Harmon Yerkes, of Bucks county, chairman of the committee on legal biography; George Westworth Carr, of Philadelphia, chairman of the admissions committee, and Frank C. McGill, of Pittsburgh, chairman of the grievance committee.

Following these came the report of Chairman William M. Hargest, of Dauphin county, of the committee on uniform state laws. Particular interest was attached to the reports of special committees on contingent fees, of which John B. Colahan, Jr., of Philadelphia, is chairman; revision and unification of the statutes, Russell Duane, Philadelphia, chairman; revision and amendment of penal laws, Edwin S. Abbott, Philadelphia, chairman; and the committee to present resolutions concerning modernizing and making uniform the procedure of the courts and to cooperate with the American Bar Association's committee on uniform judicial procedure. William W. Ryan, Northumberland county, chairman.

Following the reports of committees were scheduled the reports of the delegates to the American Bar Association, the comparative law bureau of the American Institute of Criminal Law and Criminology, and the special conference of representatives of the American Bar Association with delegates from the state and local bar associations.

DE VALERA DOESN'T FEAR TROUBLE HERE

Will Obey Government "of the People, by the People, for the People"

New York, June 24.—(By A. P.)—Eamon de Valera, "President of the Irish Republic," declared today that he expected no trouble with the American Government over his appearance here.

"When I came here," he said, "I had all the intention of observing the laws of a government of the people, by the people and for the people, and he added, "an Irishman will only refuse to obey the laws imposed upon him in his country by a foreign power."

These statements were made when newspaper dispatches, quoting Washington officials that he would have to observe the laws of the country in making his appeal for the Irish republic, were called to his attention.

"I am certain," he said, "that the American people will not stand for any interference by British troops." The Sinn Fein leader continued to refuse to discuss the method in which he entered this country.

In a formal statement, Mr. de Valera said: "The Irish desire the closest possible political and commercial relations with the people of America. I have come here at the request of the elected government of the Irish people to endeavor to establish these relations. I was selected because the sending of the nation's chief representative would mark in a conspicuous manner the esteem in which the Irish people hold

the people of America. My personal connection with this country and my known affection for it were additional considerations.

"My presence here also cannot fail to remind the people of America that in Ireland there is set up a government elected by the democratic and peaceful machinery of the ballot, answerable to the will of the Irish people, but kept in suppression and prevented from functioning by the armed vigilance of England. It cannot fail to remind them that in their nearest neighbor in Europe, already only sixteen hours distant, there is established an autocratic military despotism which outrages every principle for which the American entered the recent war and that in a document to which the people of America are to be asked to set the seal of their approval it is now proposed to maintain this despotism in perpetuity.

"While here I shall endeavor, in so far as I may do so within your laws, to call the attention of the people of America to the interests of party or divisions to these facts."

LAWYER IN FORD SUIT HURT IN AUTO MISHAP

Complainant Is Likened to Benjamin Franklin and Ralph Waldo Emerson

By the Associated Press

Mount Clemens, Mich., June 24.—Elliott G. Stevenson, of counsel for the Chicago Daily Tribune, defendant in a libel suit filed by Henry Ford, was limping slightly when he came into court today.

Mr. Stevenson's car was turned sharply into a ditch last night and he was badly shaken up.

Prof. J. S. Reeves, head of the department of political science at the University of Michigan, was recalled for cross-examination. Last Friday he testified that many of Henry Ford's utterances were similar to those of well-recognized anarchists.

"Some of Mr. Ford's ideas are held by others who are not anarchists," asked Attorney Alfred Lucking.

"Some of them, yes," replied Professor Reeves. Internationalism as opposed to nationalism, the witness said, is an anarchistic belief.

"Isn't the brotherhood of man a Bible teaching, also?" asked Mr. Lucking.

Anarchy, the witness said, contemplates the immediate or the ultimate disappearance of government.

"Do you call Dr. Lyman Abbott, the preacher, an anarchist?" asked Mr. Lucking.

"No, he is rather strong for preparedness, I believe."

Mr. Lucking read from a book by Doctor Abbott on the brotherhood of man.

"Is that not a fundamental of the Christian belief?" asked Mr. Lucking.

"I believe that it is, but in it there is no attack on nationalism."

Mr. Lucking asked if Ralph Waldo Emerson was an anarchist.

"No, he was transcendentalist—an idealist."

Mr. Lucking quoted Benjamin Franklin as writing that "there never was a good war nor a bad peace."

"Was Franklin an anarchist?" "He certainly was not."

"But if Mr. Ford had said that, you would have called it anarchistic."

"But Mr. Lucking, the statement isn't true anyway, who ever said it," protested the witness.

"I am certain," he said, "that the American people will not stand for any interference by British troops."

The Sinn Fein leader continued to refuse to discuss the method in which he entered this country.

In a formal statement, Mr. de Valera said: "The Irish desire the closest possible political and commercial relations with the people of America. I have come here at the request of the elected government of the Irish people to endeavor to establish these relations. I was selected because the sending of the nation's chief representative would mark in a conspicuous manner the esteem in which the Irish people hold

'INNOCENT,' CRIES DOCTOR WILKINS

Physician Swears Burglars Killed His Wife—Breaks Down in Court

Mincola, N. Y., June 24.—Dr. Walter Keene Wilkins, charged with the murder of his wife Julia, at their home in Long Beach February 27, went on the witness stand today in his own behalf and declared that "burglars killed my wife."

The physician testified that the relations between his wife and himself were "very affectionate indeed." After describing incidents that occurred on the night of the tragedy, Doctor Wilkins broke down and was unable to continue his testimony, the court ordering a recess to allow him to recover his composure.

"Counsel for the defendant before the latter went upon the witness stand, made a motion to dismiss the indictment because of insufficient evidence, but the court denied it."
