For Thursday

More and more Philadelphians have proved the advantage of shopping at Gimbels.

When your brakes squeak—beware!

It means that the brake lining is gone and that every time you apply the brakes you are wearing away the metal brake band. If this is not attended to, you can figure the result for yourself.

Free Inspection Service
Bring your car here—our experts will inspect it and advise you without charge or obligation.

Our 24-hour service for removing carbon, relining and adjusting brakes, and grinding valves keeps your car in a safe, healthy condition. Bring your car here before 9 A. M., all this work is done, and you drive your car away the same day.

Why take chances?

High Prices Seem to Be Conquered—Gimbels \$10,000,000 Adjustment Sale is Enabled to Continue by the Receipt of Fresh New Goods at Material Savings

Don't expect too much. Prices cannot go back to the level of pre-war days—nor would you be served by such a drop, with all sorts of changed conditions in the train. We can work out considerable easement of living conditions for much of the population without making it harder for some other part of the population to live. We do not expect prices to continue quite as low as offered during this sale.

There is distinct and real scarcity in some lines of goods—and that condition will be cured slowly.
