

# REPARATIONS PACT PROTECTS BERLIN

Limits Deliveries to France So Germany May Maintain Economic Life

## FRENCH INSURED PAYMENTS

By the Associated Press  
 Paris, Oct. 7.—France is assured reparations payments and Germany is given a means to avoid possible bankruptcy through the agreement signed yesterday at Washington by Louis Loucheur, French Minister of Liberated Regions, and Dr. Walter Rathenau, German Minister of Reconstruction.

The agreement is regarded here as of extreme importance, and will permit Germany to pay the equivalent of 7,000,000,000 gold marks in the next five years. First reports indicated the agreement would run but three years, but it is found upon examination of the pact that it does not expire before May 1, 1926.

The text of an annex to the agreement was published here today. It reads:

"Germany engages to deliver to France upon her demand all machinery and materials which would be compatible with the possibilities of production in Germany, and subject to her limitations as to supplies of raw materials. Such deliveries will be in accord with the requirements necessary for Germany to maintain her social and economic life. This agreement shall date from October 1, 1921.

"In any case, the present contract excludes the products specified Germany must turn over to the Allies in Annexes 3, 5 and 6, Part VIII, of the Treaty of Versailles. The cumulative value of the payments in kind which Germany will supply France in execution of Annexes 3, 5 and 6, as well as deliveries Germany makes to France under the present contract, will not exceed seven billion gold marks from October 1, 1921, to May 1, 1926.

"It is expressly stipulated that all deliveries shall be devoted to the reconstruction of devastated regions in Northern France.

"Although the text of the agreement was only partially made public, an unofficial summary gives some of its important features. A French buyer may negotiate directly with a German producer as to the amount of deliveries and the prices to be paid, provided he is able to come to terms with the Germans, but the agreement contemplated that transactions will be arranged between organizations created by the French and German Governments.

If these respective organizations should be unable to create an agreement respecting prices, transportation and acceptance, question as to disputed points will be left to a commission of three.

This commission would be made up of one Frenchman, one German and a third person chosen by common accord, or appointed by the President of the Swiss Confederation.
