

## CLUBS TO HELP CITY PICK SITE FOR FAIR

Engineers, Realty Board and  
Architects Accept Invitation  
to Study Problem

### START SEARCH FOR PLACE

Recommendations as to a site for the Sesqui-Centennial Exhibition will be made by the Engineers' Club, the Real Estate Board and the Philadelphia Chapter of the American Institute of Architects.

A letter was sent to these organizations by Edward Robins, secretary of the Sesqui-Centennial Exhibition Association, asking that they make such recommendations to the Executive Committee. Serving on this committee are Mayor Moore, Alva B. Johnson, J. S. W. Holton, John Frederick Lewis, Colonel John Gribble and John H. Mason. All three organizations have responded to the letter. William F. James, president of the Engineers' Club, wrote as follows:

"We will proceed immediately with the engineering investigation of the question of a site for the coming exposition. Our members enter upon this opportunity to promote the Sesqui-Centennial with enthusiasm."

"We thank the Executive Committee for its expression of confidence and assure you the Engineers' Club of Philadelphia is at your service."

The president of the Philadelphia Real Estate Board, John G. Williams, wrote that he had referred Mr. Robins' letter to David E. Dallam, chairman of the Sesqui-Centennial Committee of the board.

"Our board," wrote Mr. Williams, "is intensely interested in promoting this enterprise and Mr. Dallam is enthusiastic in the matter, so I am confident that he and his committee will appreciate the opportunity of helping to select a site as suggested by your letter."

George I. Lovatt, president of the Philadelphia Chapter of the American Institute of Architects, replied:

"I am forwarding your letter to John T. Wadsworth, chairman of the special committee appointed for such service, who will not doubt call a meeting to take the action you desire."

### LONELY ISLAND GIRL

Sailor's Letter in Quest's Mail Sack  
May Hold Romantic Story

Romance lies hidden in a parcel sent to the Shackleton-Rosett exploration ship quest for delivery at the lonely British island of Tristan da Cunha, in the South Atlantic, to which the quest is taking mails, says the London Daily Mail. It is being sent to a young woman by a sailor who formed a strong attachment for her during his stay on the island. He is anxious that a photograph of her should be taken and sent to him. This will probably be done.

Among other parcels sent to the island are some addressed to "The Old-est Inhabitant" and "The Principal Lady." It is believed that the oldest inhabitant is by common consent the moral ruler of the island, but there may be a delicate conference with regard to "The Principal Lady."

### GARMENT STRIKE SETTLED

Union Officials Say All Workers  
Will Be Back by Monday

Officials of the Garment Workers' Union said today that by Monday a majority of the 5500 workers, striking against the piecework system, will be back at work. Settlements have been made with most of the individual employers and one member of the Manufacturers' Association has given in to the union demands.

Settlements are being made every day by the Settlement Committee of the union. The remaining members of the Manufacturers' Association have given no sign of acquiescing in the union demands.

### E. S. Berry Seriously Ill

E. S. Berry, president of the Sales Managers' Association, is seriously ill at the Jefferson Hospital. He was stricken with appendicitis at his home, 226 South Seventeenth street, about ten days ago, and since then blood poisoning has set in.

Man at Desk—"Say Jim,

is it all right for a man to give him-

self a Christmas present? Yester-

day I ordered a Moon Car for

my son—that La Petite Sedan

model y'know?

"It's a wonder! Now I'd like to

have one for myself. Come to

think of it, it would be the econ-

omical thing to do. Really it's a

nuisance and an expense to take

the heavy car out every little run.

"That's the logic we use in the

business here every day. Why

not apply the same thing to the

home business?

"That tells me, I think I'll order

another Moon for myself."

## SHY BILL HART PROPOSED BY MAIL

Bold as he is in depicting Wild West types for the screen, William S. Hart lost his nerve when it came to popping the question to Miss Winifred Westover, "movie" actress. He poured out his love in a letter and the "yes" came back by wire. Mr. Hart and Miss Westover, shown in the photograph, were married Wednesday night.

## CAMDEN VICE PROBE MAY HIT OFFICIALS

Criminal Action Looms as Re-  
sult of Investigation by  
U. S. Agents

### REPORT HANDED TO POLICE

Criminal action against certain Camden officials who are accused of protecting vice may result from the vice probe made there recently by Government agents at the request of Mayor Ellis.

An adjourned meeting of Camden Council was held last night, and reports on vice were handed the Police Committee. It was unanimously agreed by Council that immediate action was necessary to curb the alleged evils that exist, and, if necessary, officials responsible will be prosecuted.

All evidence at hand has been given to the legal department of the city, which has been instructed to make its own investigation, and if sufficient evidence has been obtained to make out a prima facie case to draw up a complaint and present it to the Police Committee as a prelude to further action.

The papers are now in the hands of City Solicitor Bleakly, and when he is through with an examination of them he will make his report. This action is expected in the early part of next week.

Conditions are particularly bad in South Camden, according to the report, and the entire section, it is determined, must be cleaned up.

### FIRE SWEEPS HOSIERY MILL

\$20,000 Stock Destroyed by Flames  
Starting in Wet Stock

Silk and wool hosiery, valued at \$20,000, was destroyed last night by fire in the three-story brick building occupied by the Jasper Hosiery Co., at the northwest corner of Hope street and Montgomery avenue.

The fire was discovered about 7:30 o'clock on the first floor, where it is thought to have started spontaneously in piles of wet stock.

The flames quickly spread and the silk and wool hosiery was nearly all destroyed before the fire engines arrived. The firemen were able to extinguish the flames before the machinery was burned.

## SEE BODY ON RIVER BANK THEN TIDE CARRIES IT AWAY

Workmen Make Discovery on Flats  
Below Palmyra

The body of a man is floating in the river near Palmyra, N. J., and as soon as the tide falls efforts will be made by Chief of Police Maurice Eck, of Palmyra, to find it.

The man may either have been murdered or drowned. The body was lying on the mud of the flats below Palmyra yesterday, when it was noticed by employees of the Loveland Submarine Corporation. These men are building a ferry slip. The tide had fallen, and the launch in which some of them were working was blown by the high wind upon the flats.

Frank Powell, foreman of the divers

and laborers, and his men in the launch, were making their way ashore through the thick mud when they saw what they thought to be a log. Closer inspection, according to Powell, established the fact it was the body of a man, in a badly decomposed condition.

Powell notified the police of Philadelphia by telephone, and they told County Detective Ellis Parker, at Mount Holly. Parker ordered Chief of Police Eck to recover the body. By this time the tide had risen again, and the body could not be located.

## MacDonald & Campbell

Men's Suits  
of Unequalled Merit  
\$30 to \$48

Every one of these suits exhibits the distinguishing MacDonald & Campbell style, tailoring and good taste, that have kept our clothing the favorite, with smart young men and conservative men. ## \$45 Men's Suits

An object lesson.

Our standards of merchandising do not deviate—we have developed a business policy which brings results, and one of its fundamental features is to constantly and consistently give full value for the price received.

As an impressive object lesson of our value giving, we are specializing this week on our splendid quality Ready-to-Wear Suits at \$45.00.

They are made in both single and double breasted standard models, affording a variety of shapings and styles that will adequately meet the physical requirements of men of varying build and proportions.

The fabrics used are splendid quality unfinished worsteds and chevrons in pin stripes and mixed effects. The tailoring is Reed's Standard—which means unequalled workmanship, appearance and fit.
