### CALLS GIRL "PLAIN THIEF"

Judge Sentences Shoplifter After Exposing Fanciful Story

When called for trial a week ago, the young woman said she came from an excellent family in Boston and that she formerly lived in the city of New York. She pleaded to be sent home so she would be away from temptation.

Judge Rogers deferred sentence until the girl in the Eastern Penitentiary. He said inquiry showed she is "just a plain, ordinary thief."

In the girl's apartment in New York City were found several letters from men known to be thieves. One from a convict in jail asked her to "elout a neersbaum pipe for me as they are soft to get."

Two men caught in a store here with the young woman have been sentenced to prison.

# CIVIL SERVICE BODY RECEDES IN ROW

## Would Comply With Council's Request to Eliminate Tests in Salary-Raised Jobs

### SEES MISUNDERSTANDING

Replying to a tart attack made on its members by Councilmen yesterday, the Civil Service Commission today offered to exempt from promotion tests the holders of several jobs whose salaries have been raised recently.

Dr. Hubley B. Owen, chief police surgeon, and Seth M. Van Loan, deputy chief of the Bureau of Water, are the principal officeholders who would be affected by the exemption offer.

The commission in a statement explained that promotion tests to which some Councilmen objected were required by the civil service law. It also stated that Council had not been adequately informed about the facilities departments have for obtaining laborers for emergency purposes.

### Explains Stand

The statement follows: "Judging from the reports in the newspapers, members of City Council apparently have not been adequately informed by the city departments as to the method of hiring laborers for emergency work such as snow removal.

"In any event it is evident that there is a misunderstanding. The director in the case of snow removal, as in all emergency cases, is at liberty to employ laborers either from the civil service lists or he may pick them up wherever he can find them.

"It is not necessary to go through the procedure of certification in any way in other words, there is absolutely no red tape to it. It is a question of employing the men just as a private contractor would employ them.

"This clause of the emergency employment of laborers has been in our rules since the present Civil Service Act went into effect and the departments are certainly familiar with it.

### Specific Provisions of Law

"The specific provisions of the law in this matter are as follows: "In case of emergency where it is not practical to secure laborers through the appropriate labor registers with sufficient promptness, or in case the list is temporarily exhausted, the appointing officer may employ, subject to the approval of the commission, such persons as may be required, but such employments shall not exceed thirty days and shall absolutely cease as soon as appointment can be made from the labor registers.

"After quoting this provision from the rules the statement went on: "Referring to the promotion examination, the only restriction is on the special schedule and especially those of Dr. Owen and Mr. Van Loan, the provisions of the city charter and rules stipulate that where an advance in salary exceeds 30 per cent of the salary for which the examination is taken, the commission must hold a promotion examination.

### Those in Line for Promotion

"Such promotion examination, of course, is open only to those in line for promotion in the same department. They are never open to outsiders in such cases.

"It might be stated further that to exempt these positions so long and only so long as occupied by the incumbents, but the commission was given no discretion to do so. The law is absolute in this regard.

"However, the sole object has been the serious consideration of the commission in its desire to arrive at a common sense and fair conclusion and yet act within the act of Assembly which provides for an advance in salary beyond the limits fixed for the grade shall constitute promotion.

"Meanwhile there has been no interference in either side of the law, as all the men involved have been continued in their work by the commission at the higher salaries provided by Council."

# MOTHER VS MOTHER IN ELOPEMENT SUIT

## Parent of "Sunrise Bride" Gets Evidence in Elkton Against Intoxication Charge

### ALL SOBER, SAYS PARSON

Special Dispatch to Evening Public Ledger, Elkton, Md., Feb. 17.—"My Peggy don't want money, but she does want her good name, and I'm going to get it back for her," declared Mrs. John Uerlitz, mother of pretty Peggy U' Dell, whose husband of nineteen days has sued to have his marriage annulled on the grounds that he was drunk when he was wed.

Peggy eloped from Philadelphia, when the show with which she is now appearing in Baltimore was in that city. Her husband is John W. Montgomery, of New York, called the "boy banker."

Young Montgomery's mother has established a "residence" here, to take charge of her son's suit. The young husband asserts the wedding took place as the climax of a "party," and that he had been "dared" to go through with the ceremony by other youths and their maidens of the chorus when he was "steved."

Now, the two mothers are in town, one bent on getting the marriage dissolved, the other equally determined to show the world that her daughter married for love and not for money, and that the only intoxication from which the bridegroom suffered was that of romantic happiness.

Mrs. Uerlitz, a handsome woman of forty, is from Milwaukee, where her father for many years has been first marshal, and where her husband, Peggy's father, is city veterinarian.

She called, as soon as she arrived, on the Rev. Daniel F. Lockebrie, the aged "unhappy parson," who performed the ceremony. She was crying when she entered the room where the minister sat.

"Be brave—don't give up," said Mr. Lockebrie comfortingly. "We all have God to help us."

Mrs. Uerlitz dried her eyes and sat down. Mr. Lockebrie assured her, and his statement in writing, that the wedding party has been entirely sober when they came to his house.

"Mr. Montgomery had not even had a drink," said the minister. He told Mrs. Uerlitz that he would "hold himself bound to her as a witness wherever she may go for love and not for money."

William Mahan, local litigator, added his testimony to that of Mr. Lockebrie, declaring solemnly that there had been no sign of drunkenness the day of the marriage. There a visit was paid to the courthouse, and the records consulted. Montgomery's signature, Mrs. Uerlitz pointed out, was as "stately and as sober as a judge."

Mrs. Uerlitz then visited Joshua Clayton, a local attorney, and retained him to handle the case. He will file an answer to the petition for annulment by March 15.

### DODGES FREE BUS RULING

Commissioner Benn Puts Problem Before Full Board

Whether a motorbus operated by a theatre for the convenience of its patrons is a common carrier must be decided by the entire Public Service Commission, Commissioner Benn stated today at a hearing.

John M. Drew, who operates a bus between Lansdowne and Sixteenth street and charges fifteen cents for each passenger, complained against the Killegarney Amusement Company which runs a bus between the same points.

The company runs a motion picture theatre and offers free transportation to Sixty-ninth street for residents of Lansdowne. A theatre ticket, bought on the bus, entitles the holder to free rides to and from the showhouse.

Drew has a certificate of public convenience for his bus. The amusement company has no certificate.

The deliveries at 7 o'clock in the morning were first made through a test period of thirty days.

Mr. Kemp said that he has received reports from the superintendents of thirty-seven substations, all favoring the continuing of the early deliveries.

He has also received a letter from the Girard Avenue Business Men's Association praising the innovation.

### COLLEGE FRATERNITY HOME BREW PARTIES ARE HIT

Tufts Delegate So Says at Delta Tau Delta Conference

College fraternities "used as a vehicle for home brew parties and midnight orgies" are harmful and should be abolished, Albert Davis, a delegate from Tufts College, Boston, declared today at a conference of the eastern division of the Delta Tau Delta Fraternity in the Bellevue-Stratford.

Mr. Davis said there are fraternities that think that the "wild parties" are the important feature of fraternal life, that is, those fraternal orders that are poorly organized and have no men with high ideals at their heads.

Mr. Davis declared that when fraternities are properly conducted they create a spirit of fellowship among college men that continues to exist after their college days are over.

Dr. John A. Bolard, a widely known physician of Philadelphia and a delegate at the conference, declared that many fraternities, because of extravagance, have gotten into debt and subjected members to all sorts of unjust criticism. These members are forced to appeal to their fathers, who are not college men, for money and many of the fathers who do not understand the value of the fraternity refuse to give their sons the money. Dr. Bolard said the mission of the fraternity is to develop scholarship and character.

### PRICE-CUTTING TO MEET FOREIGN COMPETITION IS FAVORED

Manufacturers, jobbers and retailers in all lines were urged to bring prices down as sharply as possible, so as to meet foreign competition, in one of a series of resolutions passed today by the Pennsylvania and Atlantic Seaboard Hardware Association, which has been holding its annual convention at the Commercial Museum.

Another resolution condemned the soldiers' bonus, though urging that every care be taken of wounded veterans.

Officers were elected today as follows: President, Ernest Johannessen, of Baltimore; vice president, Hugh F. McKnight, of Pittsburgh; second vice president, B. Frank Axtman, of Camden; third vice president, John A. Britz, of Clarion, Pa.; secretary, Sharon L. Jones, of Pittsburgh; and treasurer, Charles W. Scarborough, of Pittsburgh. Members of the Executive Committee elected were Robert J. Murray, of Homestead, Pa.; E. C. Stinson, of Ellwood City, Pa.; George C. Brown, of Piquette, Pa.; F. W. Warriner, of Orange, N. J.; Harry D. Kaiser, of Philadelphia; and Charles Bogar, of Harrisburg.

# WIFE OF ASBESTOS KING'S SON WINS DIVORCE SUIT

## Thomas E. Manville, Jr., Simply Had to Run Around With 'Chickens'

Pittsburgh, Feb. 17.—The master appointed to hear evidence in the divorce suit brought by Mrs. Florence E. Manville against Thomas E. Manville, Jr., son of the asbestos king, has recommended that the petition of the libelant be granted.

The pair were married June 8, 1911, in City Hall, New York, by a magistrate, in the face of a threat by the young man's father to disinherit him if he made the former chorus girl his wife. After the marriage, Mr. and Mrs. Manville came to Pittsburgh where he obtained employment in his father's establishment.

"There is no woman I love as much as Florence, but I can't believe myself," Mrs. Margaret Davy, 205 Beechwood Boulevard, declared Manville told her when she attempted to effect a reconciliation between the wife and her husband, when she was called as a witness in behalf of Mrs. Manville.

"What did you do that for and why are you running around with women and entering on like that?" I asked him. I said you are breaking Florence's heart. He said that he knew it and then he rolled. I can't help it. I can't be any different. I have got to run around. I love the chickens and I have to do it. I called him the next day and begged him to stop associating with other women for Florence's sake. He said he couldn't."

Philadelphiaans are eagles who insist on living in hen houses, the Rev. John McNeill, of New York, declared today at the midday evangelistic meeting in the Garrick Theatre, held in connection with the city-wide revival of the Presbyterian Church.

Dr. McNeill said that every one could soar high on the wings of faith, but that many kept dangerously close to the ground. Faith, he thought, would make all men and women eagles, too high up for the devil to reach.

"Who ever heard of any one shooting an eagle?" he asked. Then added: "They are too high up for the sportsman. But those who could be eagles and yet live in hen houses are within easy reach of Satan."

So far there have been six liquor cases tried and six verdicts of guilty have been returned. Today another liquor case is on trial and Judge Heck and the other officials laugh at the blackmail letter, which they state resembles a poor specimen of a threat. The letter was not signed and was poorly written.

Chicago, Feb. 17.—(By A. Mrs. McCormick's secretary gave out the following statement: "Mrs. McCormick has nothing whatever to say concerning these reports either one way or the other."

Miss Mathilde McCormick, according to the published reports, was said to have obtained the consent of her father, Harold McCormick, to the marriage, and to be planning to come here from New York to seek her mother's consent. Mathilde's husband-to-be is a scion of a family noted in Basel, where he is an amateur painter and "devoted to the simpler, finer things of life."

### POLICE HALT COLLECTION OF FUNDS BY WAR VICTIMS

Methods of Charity Solicitation Caused Complaints by Public

Assistant Superintendent of Police Kenny today ordered Chapter No. 2, Disabled American Veterans of the World War, Room 201, Shubert Building, to stop its present method of collecting money.

It is asserted that disabled veterans were sent to all parts of the city, some in motorcars, to ask for contributions, taking with them cards which would be attached to show the amount of each gift. These soldiers received commissions and also prizes for successful work. A woman directed the campaign.

Complaints were made and Kenny said the office of the chapter visited by Disabled Veterans and Brandy, both veterans of the war.

Cards carried by the ex-soldiers when they solicited money showed that the officers of the chapter are E. H. Wright, commander; J. E. McPartridge, vice commander; J. F. Sloan, treasurer; and C. F. Long, adjutant.

### GETS 17-YEAR-OLD LETTER

Written in Washington in 1905, is Addressed to Coroner Now Dead

A letter received at the office of Coroner Knight this morning was written in Washington, D. C., seventeen years ago and addressed to Coroner Thomas Dugan, now dead. Where the letter, now old and musty, has been will probably remain a mystery.

The most probable theory propounded in the Coroner's office is that some one in Brooklyn has established a new record for carrying a forgotten letter in his pocket before mailing it. The supposition is based on the fact that the only postmark on the envelope is "Brooklyn, February 16, 1922."

The date at the head of the letter in May 26, 1905. It was written in Washington by E. D. Bassett, Jr., 927 N. street, N. W. It reads: "Be kind enough to let me know if a letter sent you several days ago has been received."

### PHILA. URGED TO SOAR AWAY FROM DEVIL'S WILES

Revivalist Says Many Human Eagles "Live in Henhouses"

Philadelphiaans are eagles who insist on living in hen houses, the Rev. John McNeill, of New York, declared today at the midday evangelistic meeting in the Garrick Theatre, held in connection with the city-wide revival of the Presbyterian Church.

Dr. McNeill said that every one could soar high on the wings of faith, but that many kept dangerously close to the ground. Faith, he thought, would make all men and women eagles, too high up for the devil to reach.

"Who ever heard of any one shooting an eagle?" he asked. Then added: "They are too high up for the sportsman. But those who could be eagles and yet live in hen houses are within easy reach of Satan."

### LETTERS THREATEN COURT

Judge and Others Warned to Desist From Liquor Prosecutions

Meadville, Pa., Feb. 17.—(By A. P.)—Judge Albert S. Heck of Conduersport, who has been assisting Judge T. J. Prather in holding Criminal Court this week, District Attorney August Delo and other attaches of courtroom No. 2, in which liquor cases are being prosecuted, have received a threatening letter promising bodily harm unless they desist in the prosecution of those charged with liquor violations.

So far there have been six liquor cases tried and six verdicts of guilty have been returned. Today another liquor case is on trial and Judge Heck and the other officials laugh at the blackmail letter, which they state resembles a poor specimen of a threat. The letter was not signed and was poorly written.

Fisher was arrested February 1, as he was speeding to the Embassy Hotel to be married.

### MISS IN COMMON BETROTHAL DENIED

Father Says He Has No Idea Where the Rumor Originated

Chicago, Feb. 17.—(By A. P.)—Mrs. Edith Hockefeller McCormick today refused to confirm or deny reports published here quoting her sixteen-year-old daughter Mathilde as saying that she would marry Max Ober, forty-eight years old, railroad teacher in Zurich, Switzerland. Mrs. McCormick's secretary gave out the following statement: "Mrs. McCormick has nothing whatever to say concerning these reports either one way or the other."

Miss Mathilde McCormick, according to the published reports, was said to have obtained the consent of her father, Harold McCormick, to the marriage, and to be planning to come here from New York to seek her mother's consent. Mathilde's husband-to-be is a scion of a family noted in Basel, where he is an amateur painter and "devoted to the simpler, finer things of life."

### POLICE HALT COLLECTION OF FUNDS BY WAR VICTIMS

Methods of Charity Solicitation Caused Complaints by Public

Assistant Superintendent of Police Kenny today ordered Chapter No. 2, Disabled American Veterans of the World War, Room 201, Shubert Building, to stop its present method of collecting money.

It is asserted that disabled veterans were sent to all parts of the city, some in motorcars, to ask for contributions, taking with them cards which would be attached to show the amount of each gift. These soldiers received commissions and also prizes for successful work. A woman directed the campaign.

Complaints were made and Kenny said the office of the chapter visited by Disabled Veterans and Brandy, both veterans of the war.

Cards carried by the ex-soldiers when they solicited money showed that the officers of the chapter are E. H. Wright, commander; J. E. McPartridge, vice commander; J. F. Sloan, treasurer; and C. F. Long, adjutant.

### GETS 17-YEAR-OLD LETTER

Written in Washington in 1905, is Addressed to Coroner Now Dead

A letter received at the office of Coroner Knight this morning was written in Washington, D. C., seventeen years ago and addressed to Coroner Thomas Dugan, now dead. Where the letter, now old and musty, has been will probably remain a mystery.

The most probable theory propounded in the Coroner's office is that some one in Brooklyn has established a new record for carrying a forgotten letter in his pocket before mailing it. The supposition is based on the fact that the only postmark on the envelope is "Brooklyn, February 16, 1922."

The date at the head of the letter in May 26, 1905. It was written in Washington by E. D. Bassett, Jr., 927 N. street, N. W. It reads: "Be kind enough to let me know if a letter sent you several days ago has been received."
