Farmers and Workers Urged to Retire Servants of "Privilege" to Private Life

SEPARATE PARTY FORECAST

By the Associated Press

Chicago, Feb. 20 .- A program of non-partisan political action which "will result in retiring from public life the servants of plutocracy and privi-lege" was urged before a conference of more than 100 labor and farm move-ment leaders by William H. Johnston, president of the International Association of Machinists, in convening the conference today.

The organizations and groups represented, he declared, should "get to-gether in the several States and work unitedly in the approaching primaries and in the fall election and elect men who believe in fundamental American

ical party.' 'Let us work through existing organizations," he urged the conference.
"The politicians are on the defensive.
Let us keep them there." He expressed the hope that a new party might be organized in time to participate in the 1924 elections.

Lack of understanding and lack of confidence, said Mr. Johnston, had en-trenched the "forces of reaction in government. If the worker accepted them, he is "doomed to a groveling de-pendency." The forces threatening free speech and free action, he declared, "had sanctioned wholesale corruption of the electorate by seating in the Senate Newberry, its most notorious bene-ficiary," and had used the Federal Reserve system as an instrument "to de-flate and crush farmers and independent business men and cause nationwide unemployment.

Mr. Johnston declared that "special years has run like this: 1916, \$2.98 privileges enjoyed by great corpora- a day; 1917, \$3.60: November, 1917, tions" had extinguished equality of opportunity, many farmers being unable 1920, \$7.50. to meet the expense of harvesting their crops while "the C.
