The Globe leads all other Boston papers in the volume of business carried, as well as in the number of individual advertisers. An enormous percentage of all the business done in Boston through advertising is done through the columns of the Boston Daily and Sunday Globe.

First in Total Advertising, first in Department Store advertising, first in Want and Classified advertising, first in Automobile and Accessory advertising, first in Real Estate advertising-the Boston Globe should be first on any Boston list.

The bulk of the Boston Globe's circulation is in Metropolitan and Suburban Boston - Metropolitan Boston, the real Boston, which is made up of 39 cities and towns all within ten miles of the State House, having a population of 1,651,497 - and Suburban Boston, all the territory including Metropolitan Boston, within 30 miles of Boston, having a population of 2.531,267. In the Boston Trading District the Daily Globe circulates one to every 2.3 families, and the Sunday Globe one to every 2.4 families.

When you place advertising in New England, put it where it will count, in the columns of the Boston Daily and Sunday Globethe newspaper that is used by the discriminating purchasers of Advertising space, who are on the ground and who know the conditions.
