# What a Wonderful Place of Plenty This Busy Wanamaker Store Is!

# Even Robinson Crusoe Had to Have a Dog for a Friend

It is a species of pride or insanity for any one to think that they can go through life alone without a friend.

No man should feel that he is cast upon an island. even in a big city.

A great philosopher once said: "Friendship . . . doubles our joys and divides our griefs."

### Are These Women's Suits Two-Piece Or Three-Piece? Certainly They Are Lovely and Fashionable

MITHEN you have an entire frock with its charming coat to match, how many pleces have you—two or three?

There seems to be a difference of opinion.

Some people, remembering that the upper part of the frock is usually of more delicate material than the lower, and also that the earlier forms of such suits were actually in three pieces, declare for calling it the threepiece suit.

Others, who stand for accuracy, insist on saying two piece, or-perhaps better-the coat-and-frock suit.

There are hardly two alike, but each is distinguished. Incidentally all the coats are interlined, and sizes run
