Hargrove's for Quality A Bear Can Sleep 8 Months Without Food

But who wants to be a bear—a dead one, 8 months out of the year?—Surely not you.

If humans could do that tho'—the living problem would be greatly simplified.

But we don't—and can't. People must eat and they must wear clothes—good clothes.

Good clothes, in the interest of economy.

Where can I buy, so that my purchases will be uniformly satisfactory, day by day, week by week, one purchase after another, year in and year out and thus show the greatest saving in the end?

When a man starts reasoning to himself in this manner, he is on the highway to find the right store and actually do, successfully buying, the fact is, when men begin to consider spending their money in the above light, the answer to the question is obvious and plain.

They look for a store that has achieved a character and reputation, for dependability and stability.

A store where they pay for what they get—and where they get what they pay for.

The price and worth of an article is not always gauged by the amount of money exchanged for it.

The real answer comes out in the wash—the wear and service it gives.

You know—for you have had that experience.

Sensible buyers choose their store like they choose their doctors, not primarily for the fee charged, but for their ability to serve.

If you wish to make a satisfactory purchase—look up a good store.

We await your coming with pleasure.

Particularly pleasing to you, will be the fine suits we are selling, starting at— \$32.50 and ending at— \$70.00.

All that remains to put the agreement into effect is the official approval of the various league representatives as a whole which probably will be given Wednesday afternoon, after the presentation of the agreement to the club owners will be a "mere formality" and that action of the drafting committees virtually constituted formal acceptance by all parties concerned.

BUFFALO HUNTERS TO PAY \$200 EACH FOR ANIMALS SLAIN

Antelope Island in Great Salt Lake to Be Cleared of Bison Herd.

Salt Lake City, Jan. 11.—Two hundred and thirty-five buffalo, which now run wild on Antelope island in the Great Salt Lake, will be exterminated by hunters, who will pay \$200 a head for every bison they kill, according to J. W. Thornley, president of the Buffalo Island Livestock company.

The hunting began Tuesday when hunters from California reached the island. They are expected to be followed by others within the next two weeks.

The reason assigned by Mr. Thornley for the granting of permission to kill is that the company desires to put cattle to graze on the island. He asserts that the bison are ferocious and that some of the hunters are likely to have stiff battles.

The buffalo were brought here more than 20 years ago. They committed a great deal of damage and the J. E. Hovey estate, which acquired the animals, decided to ship them to Antelope island. In turn the Hovey estate leased the island and the animals to the Buffalo Island Live Stock company. The company wants \$200 a head for the animals and, according to Mr. Thornley offers to buy the stock as a whole at that price having been received, as a consequence he states that the company must exact the \$200 a head from the hunters.

Recently Congressman James H. Mays of Utah introduced a bill calling for an appropriation of \$150,000 a year for the bison. Local interests appealed vainly to the national parks service, the American Humane society and other organizations to prevent the slaughter.

MURDER CONCEALED IN CAVED WELL IS BELIEF OF SHERIFF

Mineral County Officers Will Dig in Expectation of Solving Man's Disappearance.

Missoula, Jan. 11.—Officers of Mineral county believe the mystery surrounding the disappearance four years ago of a young man near St. Regis will be cleared up if the well on the George Busse place is dug into.

Several weeks ago Busse notified the sheriff at Superior that he had been pumping what he believed was human hair from his well. An investigation was ordered but members of the sheriff's force found the well so badly caved in they could not proceed without incurring considerable expense and the investigation was abandoned temporarily.

Now the sheriff, acting on advice from Ex-Sheriff Hartman who is in California, has ordered the coroner to ascertain whether or not a human body has been concealed there.

Four weeks ago a young man appeared near St. Regis driving a herd of cattle which he developed later, had been stolen from the Flathead country. During the first day of their stay in Mineral county one of the men disappeared and several days later the remainder rounded up the cattle and departed for parts unknown. Hartman, who was waiting for the man, gave it as his opinion that the missing man had been "chucked into a hole" somewhere near.
