

STATE INDUSTRIAL COURT PROPOSED FOR MONTANA

TO END CONTROVERSIES BETWEEN CAPITAL AND LABOR IS AIM OF BILL

Representative John L. Scofield of Powder River Fathers Measure and Gives Notice in House That He Will Introduce It Soon; It Would Abolish Public Service Commission.

Helena, Jan. 12.—An industrial court for Montana modeled after the Kansas court of industrial relations and to supplant the present Montana public service commission, the duties of which are administered by the railroad commission, is proposed in a bill fathered by John L. Scofield of Powder River county, and notice of the introduction of which he gave in the house of representatives, at the Wednesday session.

Scofield's bill provides for appointment of three judges by the governor for three-year terms at salaries of \$5,000 a year. The court would have the same jurisdiction as that granted the public service commission and in addition to taking over all of the utilities now regulated by the existing commission, it would also be required to hold hearings on all strikes in business affecting manufacture of food and clothing and transportation of them and the court may be required to investigate controversies between labor and employers on complaint of 10 citizens. The scope of the industrial court would include controversies of miners also.

Fix Minimum Wage.

The court is given power to determine minimum wages and also to determine and fix conditions and hours of employment.

Investigation of the work and conduct of the state highway commission by a special committee of the house, to report back not later than January 20, was promised with its adoption by the house Wednesday morning of the motion of Representatives Ward Heley of Wheatland county, and H. T. Rhoads of Teton county, asking for the committee. Dan McQuarrie of Missoula followed with a request for a committee of five from the house to work with the senate on recommending all tax measures advocated by Governor Joseph M. Dixon in his message. Speaker Fred Gibson named E. H. Cooney of Cascade county, Dillavon of Yellowstone, Sam Trainor of Blaine, H. J. Faust of Granite and Gus English of Cascade on the joint tax committee. The house recessed after a brief session until 1:30 o'clock in order to give standing committees an opportunity to work on bills and report back to the house when they will be considered. Representative Miles Cavanaugh of Butte has given notice of a bill to amend the mothers pension law.

\$20 Month for Widows.

His bill provides for county aid of widows at the rate of \$20 a month for all children under the age of 15 years at the rate of \$15 additional for the first child, \$10 a month for a second child and \$5 for each other child in the family.

The aid is to be provided for children in their own home by their mother when the father is dead, an inmate of a state institution, or who has failed to provide for his family for a year or more or who is physically or mentally incapacitated or for a fatherless family, the mother of which is financially unable to support the children. The proposed measure also repeals the mothers pension laws of the fifteenth and sixteenth assemblies.

New Advertising Law.

Efforts to repeal the present law on advertising and to substitute by the law which has already been adopted by 21 states and is fostered by the Associated Advertising Clubs of the World will be introduced in the seventeenth assembly by Representative Harvey Blomquist of Cascade county, following his notice of the bill given Wednesday. Mr. Blomquist explained that the

present law on advertising is to insure advertisements being truthful as to quality and price of goods.

Under the law he proposes all who sell merchandise, securities or service with intent to increase consumption or to make false, untrue, deceptive or misleading statements will be liable to fine of from \$25 to \$500 and imprisonment from 10 days to six months, or both.

Publishers Not Liable.

Publishers of newspapers, books and periodicals are not held liable under the bill if they publish advertisements in good faith, on the ground that they have not the time to give every line of advertising received. W. R. Polton of Chouteau county gave notice of a bill to permit common carriers in Montana to carry secretaries of commercial clubs or chambers of commerce free or on half fare.

WEATHER

Observations taken at 6 p. m., Jan. 12, for preceding 24 hours:

	High	Low	Pct.
Great Falls	43	21	..
Calgary	58	14	..
Chicago	39	14	..
Havre	44	6	..
Helena	56	8	..
Idaho Falls	42	8	..
New York	40	36	..
St. Paul	49	18	..
San Diego	65	58	..
Seattle	44	32	..
Williston	34	4	..

Weather Conditions—Pacific Slope Northwest and Canadian Northwest:

A low pressure area extends down from Canada into northern Montana and northwestern North Dakota. The high pressure area has moved as far as the Great Lakes region. Temperatures have risen considerably, and are again around normal, while cloudy weather prevails generally throughout. Rain or snow has fallen from the north Pacific coast eastward to central Montana, with unsettled weather predominating.

Montana Forecast:

Generally fair Thursday and probably Friday; somewhat colder Thursday and in extreme east portion Friday.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, Itching, Bleeding or Protruding Piles. Instantly relieves itching Piles, and is able to support the children. The proposed measure also repeals the mothers pension laws of the fifteenth and sixteenth assemblies.

Former Coed, College Editor Wed Secretly

Spokane, Jan. 12.—Gilbert Foster of Spokane, editor of the university of Washington daily, and Miss Virginia Bush, a student at the university last year, were married Monday at Williston, Idaho. It was announced here Wednesday by Mrs. W. H. Rush, mother of the bride.

French Cabinet Quits Following Vote on All Interpellations

Paris, Jan. 12.—The cabinet of Premier Leygues resigned Wednesday, following its defeat on a vote in the chamber of deputies.

The vote was on the question of postponing all interpellations until after the conference of the allied premiers set for January 19, the premier making his demand for such postponement a question of confidence.

The government's proposition was defeated, 463 to 125.

Leygues' cabinet was formed September 24 last, when M. Millerand resigned his premiership to become president of France.

GREAT FALLS GIRL, DESPITE CUSTOM, NAMED BILL CLERK

Miss Alice Teagarden's Record in State Senate Reflects in Proceedings.

Special to The Daily Tribune.

Helena, Jan. 12.—While proceedings in the state senate are usually marked for their smoothness, due mainly to the fact that many of the members of that body and particularly the leaders, have been members for a considerable period of years and well versed in rules of procedure. Much of this orderliness is due to the selection by the senate of officers and employees who have had experience in the work assigned to them and are accordingly of vast assistance to the body.

Among the unique selections for office is a Great Falls girl who has served in the same capacity during three previous regular sessions and two special sessions of the senate, Miss Alice Teagarden, who fills the office of bill clerk.

Miss Teagarden, then a resident of Fergus county, was made a bill clerk for the 14th, 15th and 16th assemblies during all of which time the senator from her county was a Democrat. This time she comes from Cascade county, which is represented by a Republican, and to so-called raw material is said, that no other candidate for bill clerk has been considered in the Republican caucuses of the last regular session.

Miss Teagarden, before coming to Great Falls, was a teacher in the schools of Fergus county, was employed in the Cascade bank in Great Falls, until several months ago, since which time she has been in the office of the Pacific Mutual Life Insurance company.

Fire Escape Law for Buildings Over Three Stories, Plan

Helena, Jan. 12.—Adequate fire escapes must be affixed to every building three or more stories in height, under the measure of which Sam H. Treloar of Silver Bow gave notice in the house Tuesday. The law requires that every building over 5,000 square feet of lot area for three, four or five story buildings, and two or more for each 5,000 square feet of lot area on structures of six or more stories.

The bill sets forth detailed and technical requirements as to doors, stairways, elevator hatchways and other openings in floors, and provides that two-story hotels, schools, dormitories, theatres and hospitals shall be adequately equipped with special means of escape in case of fire.

Adequate fire escapes are described as fireproof stairways or chutes to be erected either on the interior or exterior. Violators of the measure are made subject to injunction from further occupancy of the structure.

\$50,000 for Veterans Welfare Board Is Urged in House Bill

Special to The Daily Tribune.

Helena, Jan. 12.—Any doubt that the unexpected portion of the sixteenth assembly's \$200,000 bond issue is still available for the veterans' welfare commission in the veterans' welfare fund would be removed by the passage of a bill introduced Wednesday by Representative Harry B. Rodgers of Beaverhead county. The bill would make an additional appropriation of \$50,000.

The state board of examiners under the act would be authorized to sell the unsold portion of the issue.

On the same day that Rodgers gave notice of his bill, Representative H. R. Stevens of Great Falls gave notice of a measure amending the present law relating to the burial of ex-service men so that some person in the county will be designated to attend to the burial of an honorably discharged soldier, sailor or marine. The burial is not to be made in a pauper cemetery, and a limit of \$150 is set on expenses.

Lawyers in Skirmish to Determine Morris, Sister Property Right

Portland, Jan. 12.—Legal skirmishing over the right of Fred S. Morris to withhold a statement of his property and that of his sister, Henrietta Morris, marked the hearing Wednesday before master in chancery Robert Maguire in the bankruptcy case of Morris Brothers, Inc. Attorneys for the receiver indicated an attempt would be made to hold Morris and his sister liable in connection with the failure of the bond house.

A Woman's Recommendation.

Mrs. D. T. Trator, Franklin, N. C., writes: "Nine years ago I was very much afflicted with kidney trouble. I bought different kinds of medicine, but all to no effect, until one day I bought a box of Foley Kidney Pills. I realized so great a benefit from the use of that box that I feel safe in recommending Foley Kidney Pills to any kidney sufferers. They relieve backache, sore muscles, rheumatic pains and bladder ailments." Adv.

SENATE MAKES LOYALTY BILL OF WIDE SCOPE

As Favorably Reported Requires Americanism Oath by All Teachers.

Is Amended to Take in Members of Staffs of State Institutions.

Helena, Jan. 12.—The bill of Senator W. J. Paul of Powell county requiring a pledge of loyalty from educators before they can follow their profession in Montana was favorably reported for passage by the senate committee on education Wednesday after being amended so as to make its provisions specifically applicable to the faculties of all state institutions. The amendment requires a pledge of loyalty from "every president or professor in a state institution, superintendent, principals and teachers." The report was adopted.

Twenty-six more codification bills drafted by I. W. Choate, code commissioner, were reported out by the judiciary committee. Eighteen of them were favorably reported without amendment, six were reported favorably with minor amendments, and two were recommended for slaughter. The reports were adopted.

Clear Way for Later Bills.

One of the bills killed was the bill enumerating the number and designation of the civil executive officers of the state, including state boards, com-

Cattleman Flays 'Halfway' Tariff Making by Solons

El Paso, Jan. 12.—Ike T. Pryor of San Antonio, Texas, dealt vigorously with tariff and other conditions which he declared adversely affected the raising and shipping industry in an address Wednesday at the annual convention of the American National Livestock association here. He asserted that the farm and ranch industry is "the very life and vital" of America. The farming and livestock interests are suffering from competition with raw material from foreign countries imported duty free. Mr. Pryor declared, "If they are forced to do this, then poverty is their heritage—the producers are as much entitled to a tariff on the so-called raw material as the manufacturers," he asserted.

Discrimination Charged.

"Why should they be compelled to sell in a free market and buy in a protected one? It is unjust discrimination."

"We can never prosper long under a system of one-half free trade, one-half protection, or one-half subsidized and one-half taxes."

Mr. Pryor told of the competition with cheap labor and declared in Japan a man works for as little as 17 cents a day. He said recently thousands of Chinese had passed through El Paso en route to Cuba to work on the sugar plantations on a wage basis that meant

missions and departments. The other measure killed was that enumerating the executive officers appointed by the governor, with the consent of the senate.

Senator Burlingame, chairman of the judiciary committee was asked regarding the action of the committee and explained it is understood new bills covering the same subjects will be introduced later.

Most of the morning session of the senate was devoted to the reading of communications narrating the routine proceedings of the house.

Senator T. O. Larson's bill amending the present law to provide that all but emergency measures shall take effect June 1 following a legislative session was favorably reported by the judiciary committee.

By a vote of 38 to 10, the senate in the afternoon concurred in the house substitute for the senate bill providing that the penalty on taxes delinquent in 1920 shall be remitted if such taxes are paid by October 1, 1921.

The bill further provides that interest on delinquent taxes shall be at the rate of one per cent a month. The bill was favorably reported for concurrence immediately after the noon recess and in committee of the whole, F. B. Connelly of Yellowstone, moved that it be recommended favorably, and Larson, as a substitute, that it be not concurred in. The substitute lost.

Twenty-four of the codification bills were considered in the committee of the whole in the afternoon with Senator O. F. Junod of Madison county, in the chair, and all were favorably acted upon.

The senate bill defining legal holidays in Montana was amended to include November 11, Armistice day, as a legal holiday.

The committee on mines and mining reported a substitute for the senate bill by Senator J. P. Page of Granite county, providing for the furnishing of copies of reports of smelters and sampling works.

The remainder of the afternoon session was devoted to the passage on third reading of the codification bills.

SALARY MEASURE CHANGES MADE; WARRANTS OKED

Solon's "Weekly Wage" and Traveling Expenses Await Signature.

Special to The Daily Tribune.

Helena, Jan. 12.—After a long deliberation in the senate committee on finance, during which the senate was held in recess Wednesday afternoon, the house adjourning, the senate concurred in house bill 14 by Dods, a measure introduced to enable the members and employees of the legislature to get cash for their wages and it will be sent back to the house for concurrence in the senate amendments.

The attorney general had opposed the bill along technical grounds and had met with the finance committee

which, in its report, presented an entirely new section 1 which specified that the state board of examiners is empowered to invest in general fund warrants all available moneys in the state banking fund, escheated estates fund, fish and game fund, insane asylum fund, tuberculosis sanitarium improvement fund, land office expense fund and war defense fund.

Acting under the general legislative appropriation measures, which were approved by Governor Dixon Wednesday, warrants for the mileage and first week's per diem of members and employees were distributed Wednesday afternoon but will not be cashed by the state treasurer until the bill, as above concurred in by the senate, can be enacted into law.

Ancient Greeks considered sandalwood one of the greatest luxuries.

RIGHT THIS WAY

You can hardly go wrong with a good coffee.

If you make it too strong, it still has its smooth rich delightful taste.

But if you make ordinary coffee too strong, you get a rank harsh taste.

Besides, fine coffees are more economical than coffee that is merely cheap per pound—it makes so many cups.

Schilling Coffee is one of the two or three really fine coffees—all packed in vacuum-sealed tins.

Wings of the morning! Schilling Coffee

Bills Introduced

IN THE SENATE

S. B. 110; by Harmon. Authorizing stockholders and members of agricultural corporations to vote by delegates.

S. B. 111; by Burlingame. Providing for the designation of district judges as members of district commission to assist the supreme court in clearing its calendar.

S. B. 112; by Junod. Amending law relating to county fairs and limiting county boards to appropriations of \$5,000 unless electors have authorized greater sums.

S. B. 113; by Harmon. Providing for formation of agricultural and horticultural associations for marketing purposes.

Thousands of Married Folks Are Nervous Wrecks—Leading A Regular "Cat and Dog" Life

As a result of the devitalizing weakness caused by PALE, THIN, WATERY BLOOD—without ever suspecting the real cause of their trouble—IRON STARVATION.

Thousands of married people are CROSS, CRABBED AND GRUMPY, with each other as the while—READY TO FLY OFF at the slightest thing when it isn't their fault at all. IRON STARVATION OF THE BLOOD has sapped their nerve force and left them nervous wrecks so that they have no control of themselves and they therefore "GO ALL TO PIECES" on the slightest provocation.

A New York Physician says that MORE THAN ONE-HALF THE POPULATION OF AMERICA PERISHES BEFORE MIDDLE AGE and that one of the chief contributory causes of this terrible waste of human life is the devitalizing weakness brought on by lack of iron in the blood.

THERE ARE 30,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

An enormous number of people who ought to be strong, vigorous and in the prime of life are constantly complaining of weak nervous headaches, pains across the back, disturbed digestion, shortness of breath, heart palpitation, a general "run-down" condition, melancholy, bad memory, etc., when the real cause of all their suffering is in many cases nothing more or less than IRON STARVATION OF THE BLOOD.

The picture below of husband and wife is more or less typical of thousands of cases. While actual physical force may seldom be used there are squabbles, fusses and quarrels. Both husband and wife loved each other when they were married and they both really love each other today, but iron starvation of the blood has made them peevish, nervous, irritable and easily upset—both are ready to "fly into a rage" over nothing—yet these same people often quickly become most charming, pleasing and agreeable and get along splendidly when their starving blood is supplied with iron. IRON STARVATION OF THE BLOOD HAS WRECKED THE HAPPINESS OF THOUSANDS OF HOMES.

The proof of this is shown by the fact that when organic iron is supplied to their blood, that all their multitude of symptoms often quickly disappear and the very men and women who were formerly so complaining now become strong, healthy and vigorous with even dispositions and a sunny cheerful nature. When your blood is starved for iron, no more tonic or stimulants can put you right—starvation must be met by iron. Iron the same as a starving person must have food. Without iron your blood loses its power to change food into living tissue and nothing you eat does you the proper amount of good. You do not get the full strength out of it. Nature put plenty of iron in the husks of grains and the skin and peels of vegetables and fruits to enrich your blood, but modern methods of cooking throw all these things away. In anemia, iron starvation, recent years, in anemia, iron starvation of the blood with all its attendant ills.

If you are not willing to go back to nature then you should eat more such iron-containing vegetables as spinach and carrots and reinforce them by taking a little organic iron from time to time. But be sure the iron you take is organic iron and not metallic iron which people usually take. Metallic iron is iron just as it comes from the action of strong acids on small pieces of iron and is therefore an entirely different thing from organic iron. Organic iron is like the iron in your blood and like the iron in spinach, lentils and apples. It can be had from your druggist under the name of Nuxated Iron. Nuxated Iron represents organic iron in such a highly condensed form that one-half ounce is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It's like taking extract of beef instead of eating pounds of meat.

To prove to yourself what Nuxated Iron will do, get your doctor to take a specimen of your blood and make a blood count of your red blood corpuscles, then take Nuxated Iron for a month and have a new "blood count" made and see how your red blood corpuscles have increased, how much purer and richer your blood has become, how much more robust and vigorous you feel; see how the color has come back to your cheeks, how much sturdier and stronger your nerves now are. Over 4,000,000 people annually are using Nuxated Iron. It will not irritate the teeth nor disturb the stomach. Your money will be refunded by the manufacturer if you do not obtain satisfactory results. Beware of substitutes, always insist on having genuine organic iron. Nuxated Iron. Look for the letters N.I. on every tablet. At all druggists.

NUXATED IRON ENRICHES THE BLOOD-GIVES YOU NEW STRENGTH AND ENERGY
