

Quality Distinguishes the New Goods at The Paris

The Paris

The fact that we are receiving quantities of new goods every day would not mean much to you, regardless of price, if it were not for the fact that the good old reliable quality so well known at The Paris, is evident in all departments. Low price alone is not sufficient reason for any line being accepted here—the quality must measure up to the high standard of The Paris and we always make sure that it does not fall below that standard.

Right now especially on all these new arrivals the quality is so much better than any that was obtainable during war times that we almost fondle every shipment. It's a wonderful satisfaction to show and to stand behind such merchandise and we know that you too will appreciate it.
